Credit points

10

Prerequisites

50cp at 2000 level or above including (LING2217 or LING217)

Corequisites

Co-badged status

Unit description

Phonology is the study of sound patterns in language - which sounds are used by different languages, how they are organized, and how sounds are represented in the mind. In this unit we will examine phonological theory, phonological organisation of speech, acquisition of phonology and issues relevant to phonological disorders. Topics to be addressed include: variation in sound structure between languages (e.g., English and Indigenous Australian languages), the phonology of tone languages (such as Chinese), sound change, and prosody (stress and rhythm in language), and morphophonology. Our focus will be on phonological data analysis (i.e. logic puzzle solving) using two approaches: Rule-Based Phonology and Optimality Theory.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Communicate an understanding of fundamental phonological concepts including feature, phoneme, syllable, gesture, rule, constraint, underlying representation and surface form.

ULO2: Explain and illustrate phonological processes, and their role in shaping language

sounds.

ULO3: Analyse the phonological structure of a language from example data.

ULO4: Analyse phonological phenomena, and explain how they can be described under different phonological frameworks.

General Assessment Information

Grade descriptors and other information concerning grading are contained in the Macquarie University Assessment Policy.

All final grades are determined by a grading committee, in accordance with the Macquarie University Assessment Policy, and are not the sole responsibility of the Unit Convenor.

Students will be awarded a final grade and a mark which must correspond to the grade descriptors specified in the Assessment Procedure (clause 128).

To pass this unit, you must demonstrate sufficient evidence of achievement of the learning outcomes, meet any ungraded requirements, and achieve a final mark of 50 or better.

Further details for each assessment task will be available on iLearn.

Late Submissions

Unless a Special Consideration request has been submitted and approved, a 5% penalty (OF THE TOTAL POSSIBLE MARK) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of '0' will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern.

For example:

Number of days (hours) late	Total Possible Marks	Deduction	Raw mark	Final mark
1 day (1-24 hours)	100	5	75	70
2 days (24-48 hours)	100	10	75	65
3 days (48-72 hours)	100	15	75	60
7 days (144-168 hours)	100	35	75	40
>7 days (>168 hours)	100	-	75	0

For any late submissions of time-sensitive tasks, such as scheduled tests/exams, performance assessments/presentations, and/or scheduled practical assessments/labs, students need to submit an application for Special Consideration.

Assessment Tasks

Name	Weighting	Hurdle	Due
Quizzes	10%	No	Friday in Weeks 3 - 5 - 8 - 10 - 13
Problem Set One	25%	No	Friday week 7
Problem Set Two	25%	No	Friday week 12
Final Exam	40%	No	Exam period

Quizzes

Assessment Type 1: Quiz/Test Indicative Time on Task 2: 5 hours

Due: Friday in Weeks 3 - 5 - 8 - 10 - 13

Weighting: 10%

In a total of 5 quizzes students will demonstrate their understanding of the prescribed reading material for each topic. Each quiz will comprise ten questions and will be automatically graded in iLearn.

On successful completion you will be able to:

- Communicate an understanding of fundamental phonological concepts including feature, phoneme, syllable, gesture, rule, constraint, underlying representation and surface form.
- Explain and illustrate phonological processes, and their role in shaping language sounds.

Problem Set One

Assessment Type 1: Problem set Indicative Time on Task 2: 20 hours

Due: **Friday week 7** Weighting: **25%**

In a series of short answer responses, students will account for phonological phenomena in the dataset(s) provided. Problem Set One will assess the topics of Features and Natural classes, Rules. The assessment will provide an opportunity to demonstrate insights into the sound structure of the language(s) being analysed, an understanding of phonological theory, and its application to the data. Word count: 2000.

On successful completion you will be able to:

- Communicate an understanding of fundamental phonological concepts including feature, phoneme, syllable, gesture, rule, constraint, underlying representation and surface form.
- Explain and illustrate phonological processes, and their role in shaping language sounds.
- Analyse the phonological structure of a language from example data.
- Analyse phonological phenomena, and explain how they can be described under different phonological frameworks.

Problem Set Two

Assessment Type 1: Problem set Indicative Time on Task 2: 20 hours

Due: Friday week 12 Weighting: 25%

In a series of short answer responses, students will account for phonological phenomena in the dataset(s) provided. Problem Set Two will assess the topics of Morphophonology and Rule Ordering and Syllable, Prosody, and Stress. The assessment will provide an opportunity to demonstrate insights into the sound structure of the language(s) being analysed, an understanding of phonological theory, and its application to the data. Word count: 2000.

On successful completion you will be able to:

- Communicate an understanding of fundamental phonological concepts including feature, phoneme, syllable, gesture, rule, constraint, underlying representation and surface form.
- Explain and illustrate phonological processes, and their role in shaping language sounds.
- Analyse the phonological structure of a language from example data.
- Analyse phonological phenomena, and explain how they can be described under different phonological frameworks.

Final Exam

Assessment Type 1: Examination Indicative Time on Task 2: 20 hours

Due: **Exam period** Weighting: **40**%

In a series of short answers and extended responses, students will demonstrate all aspects of their understanding of phonological concepts and data analysis.

On successful completion you will be able to:

- Communicate an understanding of fundamental phonological concepts including feature, phoneme, syllable, gesture, rule, constraint, underlying representation and surface form.
- Explain and illustrate phonological processes, and their role in shaping language sounds.
- Analyse the phonological structure of a language from example data.
- Analyse phonological phenomena, and explain how they can be described under different phonological frameworks.

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- · the Writing Centre for academic skills support.

Delivery and Resources

As a student enrolled in this unit, you will engage in a range of face-to-face or online learning activities, including lectures, tutorials, readings, quizzes. Details can be found on the iLearn site for this unit.

Technologies used and required

Word processing and conversion to pdf file format is needed for completing both Problem Sets One and Two; internet access is needed for downloading lecture and tutorial materials and for uploading assignments. Active participation in the learning activities throughout the unit will require students to have access to a tablet, laptop or similar device. Students who do not own their own laptop computer may borrow one from the university library.

Required textbook:

Hayes (2011). Introductory Phonology. Oxford, UK: Wiley-Blackwell.

Secondary (recommended) textbooks:

• Gussenhoven & Jacobs (2013). Understanding Phonology (3rd ed). Taylor & Francis

¹ If you need help with your assignment, please contact:

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Group.

- Gussenhoven & Jacobs (2017). Understanding Phonology (4th ed). Abingdon, Oxon;
 New York, NY: Routledge.
- Kennedy (2017). Phonology: A Coursebook. Cambridge University Press.
- Kager (1999). Optimality Theory. Utrecht, The Netherlands: Cambridge University Press.
- Zsiga (2013). The Sounds of Language: an introduction to phonetics and phonology.
 Hoboken: Wiley-Blackwell

Unit Schedule

- · W1 Introduction & Refresher
- W2 Distinctive Features & Natural Classes I.
- · W3 DistinctiveFeatures & Natural Classes II.
- W4 Phonological Rules
- W5 Introduction to Morphophonology
- W6 Morphophonology & Rule Ordering I.
- W7 Morphophonology & Rule Ordering II.
- W8 Syllables & Feet
- W9 Stress Rules
- W10 Stress Systems
- W11 Optimality Theory I.
- W12 Optimality Theory II.
- W13 Exam Revision

Policies and Procedures

Macquarie University policies and procedures are accessible from Policy Central (https://policies.mq.edu.au). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- Academic Appeals Policy
- Academic Integrity Policy
- Academic Progression Policy
- Assessment Policy
- · Fitness to Practice Procedure
- · Assessment Procedure
- Complaints Resolution Procedure for Students and Members of the Public
- Special Consideration Policy

Students seeking more policy resources can visit <u>Student Policies</u> (<u>https://students.mq.edu.au/support/study/policies</u>). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

To find other policies relating to Teaching and Learning, visit Policy Central (https://policies.mq.e du.au) and use the search tool.

Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: https://students.mq.edu.au/admin/other-resources/student-conduct

Results

Results published on platform other than eStudent, (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit connect.mq.edu.au or if you are a Global MBA student contact globalmba.support@mq.edu.au

Academic Integrity

At Macquarie, we believe <u>academic integrity</u> – honesty, respect, trust, responsibility, fairness and courage – is at the core of learning, teaching and research. We recognise that meeting the expectations required to complete your assessments can be challenging. So, we offer you a range of resources and services to help you reach your potential, including free <u>online writing and maths support</u>, academic skills development and wellbeing consultations.

Student Support

Macquarie University provides a range of support services for students. For details, visit http://students.mq.edu.au/support/

The Writing Centre

The Writing Centre provides resources to develop your English language proficiency, academic writing, and communication skills.

- Workshops
- Chat with a WriteWISE peer writing leader
- Access StudyWISE
- Upload an assignment to Studiosity
- Complete the Academic Integrity Module

The Library provides online and face to face support to help you find and use relevant information resources.

- · Subject and Research Guides
- · Ask a Librarian

Student Services and Support

Macquarie University offers a range of Student Support Services including:

- IT Support
- Accessibility and disability support with study
- Mental health support
- <u>Safety support</u> to respond to bullying, harassment, sexual harassment and sexual assault
- Social support including information about finances, tenancy and legal issues
- <u>Student Advocacy</u> provides independent advice on MQ policies, procedures, and processes

Student Enquiries

Got a question? Ask us via the Service Connect Portal, or contact Service Connect.

IT Help

For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/ offices_and_units/information_technology/help/.

When using the University's IT, you must adhere to the <u>Acceptable Use of IT Resources Policy</u>. The policy applies to all who connect to the MQ network including students.
