Corequisites

Co-badged status FOSX1025

Unit description

This unit introduces essential concepts and techniques of computing for conducting science, with special emphasis on the preparation and manipulation of data. We discuss the role of computers and computing tools in science and focus on the use of spreadsheets and other data manipulation tools.

This unit is specifically designed for students undertaking majors in Biology, Biotechnology, Chemistry, Human Biology, Earth and Environmental Sciences, and Physiological Sciences.

Students enrolling in Astronomy, Physics, Mathematics or Statistical Data Science majors **must** enrol in FOSE1030, **NOT** FOSE1025.

#### Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <a href="https://www.mq.edu.au/study/calendar-of-dates">https://www.mq.edu.au/study/calendar-of-dates</a>

## **Learning Outcomes**

On successful completion of this unit, you will be able to:

**ULO1:** Demonstrate foundational knowledge of the role of data, computing and computing tools for science.

**ULO2:** Determine the appropriate computing tool to manipulate, summarise, and visualise data.

**ULO3:** Prepare and clean data so that it can be used to address questions in science and industry.

**ULO4:** Apply computer scripting languages to the preparation and processing of data to enhance reproducibility in science.

**ULO5:** Explain the ethical implications of the use of computers for gathering, processing, and storing data.

**ULO6:** Interrogate data to address a topic of current interest to science and society.

## **General Assessment Information**

#### **Requirement to Pass this Unit**

To pass this unit, you must achieve a total mark equal to or greater than 50%.

#### **Assessment Availability Dates**

- Assessment 1: Practical Session, Week 4
- Assessment 2: Friday, Week 4
- Assessment 3: Friday, Week 8

#### Late Assessment Submission Penalty

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark of the task) will be applied for each day a written report or presentation assessment is not submitted, up until the 7<sup>th</sup> day (including weekends). After the 7<sup>th</sup> day, a grade of '0' will be awarded even if the assessment is submitted. The submission time for all uploaded assessments is **11:55 pm**. A 1-hour grace period will be provided to students who experience a technical concern.

For any late submission of time-sensitive tasks, such as scheduled assessments, please apply for <u>Special Consideration</u>.

#### Assignments where Late Submissions will be accepted:

- Assignment #1 No, Standard Late Penalty applies.
- Assignment #2: Yes, Standard Late Penalty applies.
- Assignment #3: Yes, Standard Late Penalty applies.

#### **Special Consideration**

The <u>Special Consideration Policy</u> aims to support students who have been impacted by shortterm circumstances or events that are serious, unavoidable and significantly disruptive, and which may affect their performance in assessment. If you experience circumstances or events that affect your ability to complete the assessments in this unit on time, please inform the convenor and submit a Special Consideration request through <u>Service Connect</u>.

#### Assessment Tasks

Name	Weighting	Hurdle	Due
Diagnostic Test	10%	No	Week 4: during practical session
Data Preparation and Manipulation	40%	No	11/04/2025
Reproducibility Project	50%	No	30/05/2025

#### **Diagnostic Test**

Assessment Type 1: Quiz/Test Indicative Time on Task 2: 10 hours Due: Week 4: during practical session Weighting: 10%

Testing the basic knowledge of Scientific Computing and the role of data and tools.

On successful completion you will be able to:

- Demonstrate foundational knowledge of the role of data, computing and computing tools for science.
- Determine the appropriate computing tool to manipulate, summarise, and visualise data.

#### Data Preparation and Manipulation

Assessment Type 1: Media presentation Indicative Time on Task 2: 35 hours Due: **11/04/2025** Weighting: **40%**  Clean and prepare data for scientific questions using appropriate tools. Explain and demonstrate the understanding in a video presentation.

On successful completion you will be able to:

- Determine the appropriate computing tool to manipulate, summarise, and visualise data.
- Prepare and clean data so that it can be used to address questions in science and industry.
- Interrogate data to address a topic of current interest to science and society.

#### **Reproducibility Project**

Assessment Type 1: Project Indicative Time on Task 2: 40 hours Due: **30/05/2025** Weighting: **50%** 

Given a dataset and a specific question, clean and process the data, analyze the results, and thoroughly document the steps to ensure reproducibility.

On successful completion you will be able to:

- Apply computer scripting languages to the preparation and processing of data to enhance reproducibility in science.
- Explain the ethical implications of the use of computers for gathering, processing, and storing data.
- Interrogate data to address a topic of current interest to science and society.

<sup>1</sup> If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the Writing Centre for academic skills support.

<sup>2</sup> Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

# **Delivery and Resources**

#### Classes

Each week includes a two-hour online lecture, an in-person practical class on campus, and an inperson consultation class on campus. All classes start in **week 1**.

#### **Methods of Communication**

We will communicate with you via your university email or through announcements in iLearn. Questions to staff can either be placed on the iLearn discussion board or sent to the unit convenor from your university email address.

## **Textbooks and Reading**

This unit does not require a textbook. Each week, review the assigned supporting materials, which will be accessible through iLearn.

#### Software

The unit will use the following software:

- Microsoft Excel
- RStudio

## **Unit Schedule**

Week	Topic
1	<ul> <li>+ Computing in Science</li> <li>+ Introduction to MS Excel Online</li> <li>+ Introduction to R</li> </ul>
2	+ Basic Concepts of Computing + Reproducibility
3	+ Variables and Data Types + Data Exploration
4	+ Data Preparation in MS Excel
5	+ Data Preparation in R: Part 1
6	+ Data Preparation in R: Part 2
7	+ Data Processing in MS Excel

	RECESS
8	+ Data Processing in R
9	+ Data Presentation in MS Excel
10	+ Data Presentation in R
11	+ Ethics + ChatGPT
12	+ Presenting and Reporting
13	+ Review

## **Policies and Procedures**

Macquarie University policies and procedures are accessible from Policy Central (https://policie s.mq.edu.au). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- Academic Appeals Policy
- Academic Integrity Policy
- Academic Progression Policy
- Assessment Policy
- Fitness to Practice Procedure
- Assessment Procedure
- · Complaints Resolution Procedure for Students and Members of the Public
- Special Consideration Policy

Students seeking more policy resources can visit <u>Student Policies</u> (<u>https://students.mq.edu.au/su</u> <u>pport/study/policies</u>). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

To find other policies relating to Teaching and Learning, visit <u>Policy Central</u> (<u>https://policies.mq.e</u> du.au) and use the <u>search tool</u>.

#### **Student Code of Conduct**

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: https://students.mq.edu.au/admin/other-resources/student-conduct

#### Results

Results published on platform other than eStudent, (eg. iLearn, Coursera etc.) or released

directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in <u>eStudent</u>. For more information visit <u>connect.mq.edu.au</u> or if you are a Global MBA student contact globalmba.support@mq.edu.au

## Academic Integrity

At Macquarie, we believe <u>academic integrity</u> – honesty, respect, trust, responsibility, fairness and courage – is at the core of learning, teaching and research. We recognise that meeting the expectations required to complete your assessments can be challenging. So, we offer you a range of resources and services to help you reach your potential, including free <u>online writing an</u> d maths support, academic skills development and wellbeing consultations.

#### Student Support

Macquarie University provides a range of support services for students. For details, visit <u>http://stu</u> dents.mq.edu.au/support/

#### Academic Success

Academic Success provides resources to develop your English language proficiency, academic writing, and communication skills.

- Workshops
- Chat with a WriteWISE peer writing leader
- Access StudyWISE
- · Upload an assignment to Studiosity
- Complete the Academic Integrity Module

The Library provides online and face to face support to help you find and use relevant information resources.

- Subject and Research Guides
- Ask a Librarian

#### Student Services and Support

Macquarie University offers a range of Student Support Services including:

- IT Support
- Accessibility and disability support with study
- Mental health support
- <u>Safety support</u> to respond to bullying, harassment, sexual harassment and sexual assault
- Social support including information about finances, tenancy and legal issues
- Student Advocacy provides independent advice on MQ policies, procedures, and

processes

#### **Student Enquiries**

Got a question? Ask us via the Service Connect Portal, or contact Service Connect.

## IT Help

For help with University computer systems and technology, visit <u>http://www.mq.edu.au/about\_us/</u>offices\_and\_units/information\_technology/help/.

When using the University's IT, you must adhere to the <u>Acceptable Use of IT Resources Policy</u>. The policy applies to all who connect to the MQ network including students.

## **Changes from Previous Offering**

To enable students more time to focus on learning, understanding and reflecting on the content of our unit we have revised the assessment structure as follows. There are now only three assessment task. Although no marks are associated with attendance, all activities provide you with key content designed to help you understand content and complete the assessments.
