#### Unit description

What is it that makes us good or evil, virtuous or vicious? What does it mean to be a competent agent who can be held responsible for moral as well as immoral action? And what does morality and moral theory require of us as agents? Thinking about what motivates morality raises important questions about the role played by reason, will, emotion and intuition in bringing about moral behaviour. It also offers a basis for critically examining prominent ethical theories to see how well they can accommodate the lived realities of human agency and motivation. And it invites further questions about the contribution of social context and psychopathic conditions in explaining ordinary and extreme forms of wrongdoing. This unit will critically examine the philosophical and psychological literature on moral agency, virtue, goodness, and evil, as well as exploring historical and contemporary philosophical accounts of the importance of such things as integrity, character, autonomy and respect for others in moral life and moral relations.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <a href="https://www.mq.edu.au/study/calendar-of-dates">https://www.mq.edu.au/study/calendar-of-dates</a>

## **Learning Outcomes**

On successful completion of this unit, you will be able to:

**ULO1:** draw on sources used in the unit to give clear accounts of the relevant philosophical moral concepts and theories

**ULO2:** demonstrate a good general understanding of how contemporary philosophical and psychological research contributes to our understanding of moral agency, judgement and motivation

**ULO3:** analyse and critically evaluate relevant competing philosophical theories and arguments.

**ULO4:** apply the theoretical knowledge gained to analysis and evaluation of selected case studies in moral psychology

**ULO5:** construct sound arguments in support of your own ethical positions, judgements and values

#### **General Assessment Information**

#### Late submission penalty

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day to late submissions, up until the 7th calendar day (including weekends). After the 7th day, a mark of '0' (zero) will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical issue.

#### Important to note:

- Late submission of time sensitive tasks (such as tests/exams, performance assessments/presentations, scheduled practical assessments/labs) will be addressed by the unit convenor in a Special consideration application.
- Students should not request an informal arrangement from their tutor, lecturer or Unit Convenor (or equivalent).
- Where an application for Special Consideration is approved and the outcome is an
  extension to the due date of a task, submissions that are received after the new due date
  will be subject to late penalties that are calculated from the new due date. This only
  applies where the outcome is an extension to the due date see the <u>Special Considerati</u>
  on Policy for a schedule of all possible outcomes.

#### GenAl/ChatGPT

In this Unit, and unless notified otherwise *in writing* by the Unit Convenor, substantive assessment content that has been generated by AI will be regarded as not the student's own work and potentially in breach of Academic Integrity standards. This applies to all assessments, including online forums. In submitting assessments all students will be required to confirm their agreement with the following:

In submitting this assessment, I certify that this submission is my own work and demonstrates my own understanding, analysis, research, reflection, critical thinking, and writing. I am not submitting anything that I cannot myself fully explain and defend, if called upon to do so. I understand that if my teachers have concerns about whether this submission is my own work or an AI-generated output, I may be required to attend an interview with the Unit Convenor/Integrity Officer/academic staff to verify my research methods, my understanding of the content, and my close familiarity with all sources I have cited. If I am found to have submitted work that is not my own, my work will be further investigated, and I may be found to be in breach of the MQ Academic Integrity Policy.

#### Further details about assessment
