Unit description

This unit provides students with an opportunity to examine the intelligence enterprise within a broader political, social, and moral context. Intelligence agencies are necessary to protect modern liberal democratic states; however, their work challenges the very democratic principles and freedoms on which those states were founded. Intelligence work can involve breaking the laws of other nations and making difficult moral choices. In this unit, students will consider the ethical challenges faced at each stage of the intelligence cycle and investigate the role, purpose and efficacy of systems of intelligence oversight and accountability. Students will apply what they have learned to conceptualise, research, and present intelligence products, building practical skills and experience.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Identify the ethical questions and challenges involved in the collection, analysis and dissemination of intelligence as well as covert action.

ULO2: Assess the professional, legal and ethical obligations of the intelligence profession.

ULO3: Analyse systems of intelligence oversight and accountability at the executive, parliamentary and judicial level as well as consider the role of the media in holding intelligence to account.

ULO4: Create intelligence products using a range of intelligence tools and approaches, while applying academic research and writing skills.

ULO5: Evaluate a diverse and evolving body of academic literature and case studies on intelligence ethics and accountability.

A presentation assessing and evaluating a contemporary ethical dilemma or intelligence oversight issue.

On successful completion you will be able to:

- Identify the ethical questions and challenges involved in the collection, analysis and dissemination of intelligence as well as covert action.
- Assess the professional, legal and ethical obligations of the intelligence profession.
- Analyse systems of intelligence oversight and accountability at the executive, parliamentary and judicial level as well as consider the role of the media in holding intelligence to account.
- Create intelligence products using a range of intelligence tools and approaches, while

applying academic research and writing skills.

- Evaluate a diverse and evolving body of academic literature and case studies on intelligence ethics and accountability.

Reflective Assessment

Assessment Type ¹: Project

Indicative Time on Task ²: 38 hours

Due: **Week 11**

Weighting: **50%**

A reflective assessment based on unit content designed to enhance and consolidate student learning.

On successful completion you will be able to:

- Identify the ethical questions and challenges involved in the collection, analysis and dissemination of intelligence as well as covert action.
- Assess the professional, legal and ethical obligations of the intelligence profession.
- Analyse systems of intelligence oversight and accountability at the executive, parliamentary and judicial level as well as consider the role of the media in holding intelligence to account.
- Evaluate a diverse and evolving body of academic literature and case studies on intelligence ethics and accountability.

¹ If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

Delivery and Resources

UNIT REQUIREMENTS AND EXPECTATIONS

- You should spend an average of 12 hours per week on this unit. This includes listening

to lectures prior to seminar or tutorial, reading weekly required materials as detailed in iLearn, participating in iLearn discussion forums and preparing assessments.

- Internal students are expected to attend all seminar or tutorial sessions, and external students are expected to make significant contributions to on-line activities.
- In most cases students are required to attempt and submit all major assessment tasks in order to pass the unit.

REQUIRED READINGS

- The citations for all the required readings for this unit are available to enrolled students through the unit iLearn site, and at Macquarie University's library site. Electronic copies of required readings may be accessed through the library or will be made available by other means.

TECHNOLOGY USED AND REQUIRED

- Computer and internet access are essential for this unit. Basic computer skills and skills in word processing are also a requirement.
- This unit has an online presence. Login is via: <https://ilearn.mq.edu.au/>
- Students are required to have regular access to a computer and the internet. Mobile devices alone are not sufficient.
- Information about IT used at Macquarie University is available at http://students.mq.edu.au/it_services/

SUBMITTING ASSESSMENT TASKS

- All text-based assessment tasks are to be submitted, marked and returned electronically. This will only happen through the unit iLearn site.
- Assessment tasks must be submitted as a MS word document by the due date.
- Most assessment tasks will be subject to a 'Turnitin' review as an automatic part of the submission process.
- The granting of extensions is subject to the university's Special Consideration Policy. Extensions will not be granted by unit conveners or tutors, but must be lodged through

Special Consideration: <https://students.mq.edu.au/study/my-study-program/special-consideration>

LATE SUBMISSION OF ASSESSMENT TASKS

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a mark of, 0 (zero) will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical issue.

This late penalty will apply to non-timed sensitive assessment (incl essays, reports, posters, portfolios, journals, recordings etc). Late submission of time sensitive tasks (such as tests/exams, performance assessments/presentations, scheduled practical assessments/labs etc) will only be addressed by the unit convenor in a Special consideration application. Special Consideration outcome may result in a new question or topic

WORD LIMITS FOR ASSESSMENT TASKS

- Stated word limits include footnotes and footnoted references, but not bibliography, or title page.
- Word limits can generally deviate by 10% either over or under the stated figure.
- If the number of words deviates from the limit by more than 10%, then penalties will apply. These penalties are 5% of the awarded mark for every 100 words deviation from the word limit. If a paper is 300 words over, for instance, it will lose $3 \times 5\% = 15\%$ of the total mark awarded for the assignment. This percentage is taken off the total mark, i.e. if a paper was graded at a credit (65%) and was 300 words over, it would be reduced by 15 marks to a pass (50%).
- The application of this penalty is at the discretion of the course convener.

REASSESSMENT OF ASSIGNMENTS DURING THE SEMESTER

- Macquarie University operates a Final Grade Appeal procedure as part of the Assessment policy in cases where students feel their work was graded inappropriately: <https://policies.mq.edu.au/document/view.php?id=277>
- In accordance with the Grade Appeal procedure, individual works are not subject to

regrading.

STAFF AVAILABILITY

- Department staff will endeavour to answer student enquiries in a timely manner. However, emails or iLearn messages will not usually be answered over the weekend or public holiday period.
- Students are encouraged to read the Unit Guide and look at instructions posted on the iLearn site before sending email requests to staff.
