Unit description

This unit will introduce students to research in the discipline of Critical Indigenous Studies, exploring what characterises research in this discipline. Students will encounter and learn to critically evaluate the key concepts, questions and issues that have shaped and/or are currently shaping research in the discipline. This unit will equip students to analyse the discipline's key literature and identify the important theoretical approaches, methods, arguments and ethical considerations that characterise research within this area. This unit will prepare students to position their own developing research ideas within a disciplinary context as they prepare for future independent research projects.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Evaluate and analyse relevant approaches to research in your discipline, including relevant discipline specific theories, concepts, methods and arguments.

ULO2: Critically evaluate an advanced body of knowledge in your discipline.

ULO3: Analyse and evaluate arguments, texts and/or data, considering the ethics and integrity frameworks required to conduct responsible, ethical and reflective research in

your discipline.

ULO4: Communicate relevant research concepts and ideas to specialist and non-specialist audiences using appropriate discipline-specific language.

General Assessment Information

Late Penalty

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a mark of, 0 (zero) will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical issue.

This late penalty will apply to non-timed sensitive assessment (incl essays, reports, posters, portfolios, journals, recordings etc). Late submission of time sensitive tasks (such as tests/exams, performance assessments/presentations, scheduled practical assessments/labs etc) will only be addressed by the unit convenor in a Special consideration application. Special Consideration outcome may result in a new question or topic.

Terminology protocols for Indigenous Studies

In Australia there are two distinct Indigenous peoples: Aboriginal people and Torres Strait Islander people.

When writing about Aboriginal and Torres Strait Islanders do not use the acronym 'ATSI', write in full. Capital letters should always be used when referring to Aboriginal peoples and or Torres Strait Islander peoples.

While Aboriginal and Torres Strait Islander are acceptable terms to use, it should be recognised that these are collective terms and often used improperly to impose a single identity on the many different communities.

Aboriginal and Torres Strait Islander people generally prefer to be known by the language/cultural groups or communities, to which they belong, that is, own names rather than terms such 'the Aboriginals' or 'the Islanders'. For example, Aboriginal people in the area surrounding Macquarie University may refer to themselves as Dharug. It is important that you always check the correct name or terms to use for people in the area/region.

The use of incorrect, inappropriate or dated terminology is to be avoided as it can give offence. Many historical terms or those in common usage some years ago are now not acceptable, including terms such as 'aborigine' 'native', 'savage' and 'primitive'. Similarly, do not use the terms 'half-caste', 'part-Aborigine/Aboriginal' or any reference to skin colour or physical features, as they do not signify that a person is Aboriginal and/or Torres Strait Islander and may cause offence. When quoting from academic or other sources that uses inappropriate, dated terminology or racists language, use (sic) directly after the inappropriate term of phrase, thus calling attention to the fact that it has been sourced from the original and that you understand it to be outdated, inappropriate or problematic in the contemporary context.

For more information please refer to the Terminology Guide available in iLearn.

Referencing

Referencing is an essential component of academic writing or presentation since it enables the reader to follow up the source of ideas and information presented in your work, and to examine the interpretation you place on the material discovered in your research. Reliable referencing clearly indicates where you have drawn your own conclusions from the evidence presented. Importantly, much of the material you will use is covered by copyright which means that you must acknowledge any source of information, including books, journals, newsprint, images and the internet. It is obligatory for students to reference all sources used in their written work including electronic material. Students should consult the University library website for a detailed explanation and examples of how to reference electronic material correctly. Different programs use different referencing styles to reflect the needs of their discipline. It is the student's responsibility to check which referencing style is used. Indigenous Studies use APA referencing style.
