Unit description Unlock the power of digital technologies and navigate dynamic markets when you learn to strategise during a company's digital transformation. In this unit, executives and business leaders explore the transformative potential of digitisation, IoT, robotics, and artificial intelligence in reshaping business models and succeeding in competitive landscapes worldwide. Through conceptual lectures, real-world case studies, and guest lectures, gain actionable insights into how digital technologies impact organisations' business models and digital infrastructure. Explore the essential aspects of creating a fit between value creation, value capture, and value delivery activities to thrive in dynamic markets. Gain a deep understanding of the potential and limitations of digital technologies in creating sustainable competitive advantages and discover strategies to leverage these technologies for organisational success. Equip yourself with the knowledge and tools needed to lead strategic digital transformation initiatives, positioning your organisation for success in the digital age.

Important Academic Dates

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Identify and discuss technological developments driving the imperative to develop digital business models.

ULO2: Undertake internal and external strategic analyses to assess an organisation's competitiveness in the digital era.

ULO3: Identify the basic mechanisms and logic of digital business models and examine the key resources and capabilities of digital transformations.

ULO4: Design and communicate a digital strategy that is aligned with an organisation's mission and is optimal for delivering growth and profitability.

General Assessment Information

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of '0' will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern.

For any late submissions of time-sensitive tasks, such as scheduled tests/exams, performance assessments/presentations, and/or scheduled practical assessments/labs, students need to apply for Special Consideration.
