Unit description

This unit provides students with the opportunity to observe, plan, implement, manage and evaluate teaching programs as part of undertaking 16 days of professional experiences. Central to this professional experience is a critical reflection model that guides and highlights the student's awareness regarding the role that research plays in strengthening their professional skills and knowledge. Using critical reflection students will demonstrate professional practice that optimises outcomes for people with sensory disability.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

**ULO1:** Investigate research in sensory disability and synthesise findings to make improvements in identified focus areas for improvement.

**ULO2:** Critically reflect on level of competency of the Australian Professional Standards for Teachers (and relevant elaborations) in order to formulate an improvement teaching plan

**ULO3:** Create, and deliver lesson sequences using knowledge of student learning and evaluate effectiveness of implemented teaching strategies

**ULO4:** Apply understanding of assessment strategies, including formal and informal, diagnostic, formative and summative approaches to assess and report on student learning.

## General Assessment Information

### Academic honesty

At all times, students should be aware of and apply the Macquarie University policy on academic

honesty (<https://policies.mq.edu.au/document/view.php?id=3>)

In accordance with the Academic Integrity Policy a student must take responsibility, be proactive, take ownership and hold oneself responsible for ensuring all information and content, including citations and references in their assignment, have been generated and communicated in an ethical, honest and responsible manner. Failure to show responsibility by checking the accuracy and integrity of your own content, citations and references, or the submission of falsified content, is a breach of the Academic Integrity Policy.

### **Assessment Presentation Guidelines**

Please follow these guidelines when you submit each assignment:

- Include a completed **ePortfolio title cover page** using the template provided on iLearn.
- Allow a left and right-hand margin of at least 2cm in all assignments.
- Type all assignments using a minimum of Arial, 12-point font and SINGLE line spacing.
- Students are recommended to regularly save a copy of all assignments before submission.
- Students to use the Turnitin Similarity Report as a learning tool to improve their academic writing and, in consideration of the report outcome, attend to any potential academic integrity issues, prior to submission of the final version of the assignment.
- Students are strongly encouraged to upload a draft copy of each assignment to Turnitin at least one week prior to the due date to obtain a Turnitin Similarity Report. The Turnitin Similarity Report provides students with a similarity index that may indicate if plagiarism has occurred. Students will be able to make amendments to their drafts prior to their final submission on the due date.
- For written assignments in SPED8910 a **Turnitin Similarity Report** should be reviewed but **is NOT required** to be submitted.

### **Assessment submission guidelines**

- All assignments must be submitted through Turnitin as an accessible word document – **do not submit as a pdf.**
- It is the responsibility of the student to ensure that all assignments are successfully submitted through Turnitin - students should carefully check that they submit the correct file for an assessment as no re-submissions will be accepted after the due date and time, including instances where students upload an incorrect file in error.

### **Application for Special Consideration – extensions**

- Applications for Special Consideration - extensions must be made via AskMQ (<https://ask.mq.edu.au/>).
- It is not the responsibility of unit staff to contact students who have failed to submit

assessments. It is the student's responsibility to contact the unit convenor when assessments are missed.

### Assessment marking

- Word limits are not applied to SPED8910 assignments.
- All assessments are marked using a feedback rubric.
- Marking of all assessments is moderated by the Unit Convenor.
- Turnitin plagiarism detection software is used to check all written assessments.

### University policy on grading

Assignments will be awarded grades according to guidelines set out in the [University's Grading System](#) and [University Assessment Policy](#). SPED8910 is a pass/ fail unit. Students who demonstrate a 'Graduate' level of competency in their Professional Experience and on the Practicum Assessment Tool (PAT) will be awarded an Ungraded Pass.

*Note: If you fail a unit with a professional experience component, the fail grade will be on your transcript irrespective of the timing of the placement.*

### Results

Results shown in iLearn, or released directly by your Unit Convenor, are not confirmed because they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in [eStudent](#). For more information visit [Service Connect](#).

### **In order to meet the Professional Experience placement expectations of this unit, students must:**

- attain a 'Satisfactory' grade for their Professional Experience ePortfolios by achieving a 'Graduate' level for the Unit Learning Outcomes and teaching competencies on the marking rubric, **AND**

- contribute to online blog reflection posts in a timely manner.

### **Fail Rule**

This Professional Experience unit is a part of a professional course listed on Schedules 2 and 3 of the Academic Progression Policy. This course has additional requirements that are applicable for the full duration of the course, including course-specific inherent requirements, Fitness to Practice requirements and other compulsory course requirements. It also has rigorous academic progression standards. Inability to meet these requirements may result in a withdrawal of offer of admission and/or permanent exclusion from the course in accordance with the General Coursework Rules.

### **Passing a Professional Experience Unit**

To pass a Professional Experience unit, students must achieve a 'satisfactory' result for their professional experience placement AND achieve a 'satisfactory' result overall for their academic assessment tasks (where applicable) in the unit.

### **Professional Experience Unit Placement Expectations**

- Students must have submitted all written assessment tasks and/or associated unit component requirements prior to the commencement of the block 1 placement.
- Students who are completing other units are expected to inform and negotiate with that Unit Convenor about their professional experience block dates and to discuss how that unit's requirements can be met.
- Feedback from the Supervising Teachers is of a general nature. It is incumbent on the student to check the requirements of any assessments prior to submission.
- If a Student is identified being **in need of additional support** for Professional Practice and/or the ePortfolio, the School of Education's '**Additional Support**' procedure will be activated.
- Students may not be able to commence their placement until all alleged academic honesty breaches have been investigated and concluded.
- The timing of placements can vary. For placements early in the Session, Fail grades may be approved by the University prior to the end of Session for students who do not meet the placement expectations of the unit.

### **Fitness to Practice requirements**

- Macquarie University operates under a 'Fitness to Practice' model as specified in the University's Academic Progression Policy. For this unit, this means that, when undertaking a placement, a student is declaring that they are able to demonstrate professional competence, acceptable professional behaviour, freedom from impairment, and compliance with program specific requirements needed for a student to practice properly and safely throughout their Practical, Clinical or Professional program or unit. It is the responsibility of the student to determine whether they are fit to undertake a placement. Therefore, if a student is feeling unfit to undertake a placement, they should not do so. ## 5 R's Framework

The 5Rs Framework, developed by the School of Education at Macquarie University, is embedded throughout this unit. Your use of the 5Rs Framework will help you develop the capabilities that will make your career sustainable and fulfilling. In this unit, you will learn using the 5Rs framework in the following important ways:

Resilient	Reflexive	Responsive	Ready to learn	Research engaged
Students gain knowledge about the critical role they play in facilitating resilience in school students who are Deaf/Hard of Hearing or Blind/ Low Vision. Students are proactive in planning ahead to meet the demands of their professional experience placement and show self-belief in their ability to overcome any challenges (teacher self efficacy).	Students are encouraged to critically reflect in the context of themselves as specialist teachers, on their previous and future professional experiences and make changes to their practice as a result of this reflection.	Students are expected to be responsive to the feedback from their supervisors by implementing improvements to their practice; and responsive to the ideas of peers through providing meaningful and supportive feedback comments.	Students are encouraged to reflect and then identify their own learning needs for their context and career stage (based on NAATD/ SPEVI competencies), to pursue learning that achieves great outcomes for the school students they work with now and into the future. Students take responsibility for learning independently as well as fostering collaborative learning in other students.	Students practice academic integrity as they learn to explore contemporary and relevant literature. Students engage with literature and base their practice on evidence.
