Delivery and Resources

Lectures and Tutorials MMCC2100 consists of a 1-hour lecture (live online and recorded) and a 1-hour tutorial (on-campus or online). Lectures begin in Week 1. Tutorials begin in Week 2.

Students are expected to engage in the lecture (live or recorded), read the assigned readings, and engage with other materials provided on iLearn prior to their tutorial to ensure they are prepared for class discussions and activities. i.e. if you are not watching the lecture live please schedule a time in your calendar to watch it before your tutorial.

Consultation

The consultation time will be via Zoom directly after the lecture. The recording of the lecture will stop and you'll be able to ask any questions about the unit. You are also welcome to email the convenor with your questions.

Audio-Visual Materials

Audio-visual materials including recorded lectures, lecture slides, tutorial materials and online readings will be available via iLearn.

Readings

All required readings will be available electronically and linked to the weekly topics in Leganto/iLearn. It is recommended that you start with the set textbook first where listed, following by extra materials in the 'consolidation' section for each week, and move on to other readings to assist with your assessment tasks if you have more time. A link to the readings will be available under each weekly heading. Alternatively you may access readings for all weeks via the Leganto/Unit Readings tab on iLearn. Note that new and extra readings may be added to the Leganto tab for those interested in going deeper.

Textbook

The following book is the set textbook for this unit:

Sutherland, K., Ali, S. and Khattab, U. (2019) *Public Relations and Strategic Communication*. Oxford University Press: Melbourne.

The chapters in the book form the weekly readings for most weeks. Knowledge of content from both the lectures and this book will provide a solid basis for the assessment tasks and must be referenced in assessments along with any other readings relevant to your specific project or case study.

The textbook will be **available via ilearn/Leganto/the library** as an **e-book**. As a limited number of students will be able to access the book at any one time due to copyright restrictions, it is highly recommended that students download relevant chapters well in advance of assessment due dates or purchase their own copy in case they are unable to access the library copies when needed.

If you are relying on the library copies please log off ASAP after you have downloaded what you need to give everyone an opportunity.

If you'd like to purchase your own **paperback** or **e-book** you can get 20% off the e-book from the publisher by using the code SAVE20 at the checkout. When compiling this unit guide, the best value for the **paperback** version seemed to be via [Amazon](#) at **half price**. The text is also available to **rent** as an eBook at half the cost of the print book from the publisher. Click [here](#).

Technology required

You are expected to access iLearn: <https://ilearn.mq.edu.au/> at least once a week before your tutorial and keep up-to-date with lectures, announcements and new materials. You are also advised to check your student emails regularly for ilearn and unit updates. You should be able to access relevant scholarly and professional information from the library online and from broader online, media and social media sources.

You will be required to create a video capturing face-to-camera as well as slides for one of the assignments. The suggested platforms for recording this assessment are Zoom or Echo360. If you have any issues with access to technology, please consult with the unit convenor or your tutor as soon as possible. You are advised to test out technology in the first week of the unit (don't wait until the week your assignment is due). If you have any technical difficulties please contact onehelp@mq.edu.au for assistance.
