Unit description

For thousands of years human societies have endured and responded to a variety of challenges, including those related to power, inequality, identity, conflict, climate change, sustainability and health. Archaeology presents an opportunity to learn lessons from the past to address such issues facing societies today and in the future. The unit is an introduction to the people, languages, texts, art and material culture of Egypt in its Near Eastern context from its origins to the end of Late Antiquity (c. 10,000 B.C.E. to 1000 C.E.) and aims to better understand how the societies and cultures of this region succeeded or failed when faced with specific challenges in different social, cultural, religious, political, and environmental contexts.

The unit will pay special attention to the analysis, evaluation and interpretation of sources and consider how the archaeological past is valued, owned and contested by both academic and public communities. Drawing on humanistic and scientific methods and theories, the unit will engage with contemporary debates and diverse cultural perspectives to contextualise historical and archaeological knowledge, consider topics of social relevance today and address the importance of conducting responsible archaeology in the 21st Century.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

General Assessment Information

MARKING RUBRICS

All assessment tasks will be graded using a rubric, which outlines the criteria and standards for

each grade descriptor. Rubrics for each task can be found on the unit's iLearn site.

PENALTIES

1. Late Assessment Submission Penalty

- Unless a Special Consideration request has been submitted and approved, a **5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted**, up until the seventh day (including weekends). After the seventh day, a mark of '0' (zero) will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical issue.
- This late penalty will apply to non-timed sensitive assessment (including essays, reports, posters, portfolios, journals, recordings etc.). **Late submission of time sensitive tasks** (such as tests/exams, performance assessments/presentations, scheduled practical assessments/labs etc) **will only be addressed by the Unit Convenor in a [Special Consideration application](#). Special Consideration outcome may result in a new question or topic.**

2. Word Limit Penalty

- Written assessment tasks submitted that are under or over the word length by more than 10% will be penalised with a **10% penalty (of the total possible mark)**.

3. Citation and Referencing techniques Penalty

- Turnitin is a 'text-matching' software which is designed to educate students regarding appropriate citation and referencing techniques. Turnitin is also used to provide MQ with confidence in the academic integrity of students work.
- All assessment tasks will be marked according to the MQ [Academic Integrity Policy](#) and the schedule of penalties.

EXTENSION REQUESTS

- **Important:** The granting of extensions is subject to the [University's Special Consideration Policy](#) and can only be granted by applying for [Special Consideration](#) through [Service Connect](#).

Delivery and Resources

UNIT DELIVERY

This unit will be structured following a [Flipped classroom model](#), which describes a reversal of traditional teaching where students gain first exposure to new material outside of class, usually via reading or lecture videos, and then class time is used to do the harder work of assimilating that knowledge through strategies such as problem-solving, discussion or debates. The unit will be taught via a blended delivery of content and instruction using a multi-media approach such as video lectures, 3D digital artefacts and visualisations. The learning materials will be a combination of pre-recorded lectures produced by Macquarie University academic staff as well as links to a variety of new media, such as audio recordings/podcasts, blogs, think pieces, and/or social media posts created by local and international scholars. Through such approaches you will develop transferrable skills and analytical capacities that can be applied across various professional and academic settings.

WEEKLY SCHEDULE

iLearn will play a pivotal role throughout the session and will be your central hub for information and instructions. Each week will be structured as follows:

◆ BEFORE DISCUSSION | Building Knowledge, Values & Skills

Step 1 | Preparation

- Watch the pre-recorded **lecture materials** available via iLearn.
- Complete the **weekly assigned activities, object analyses and/or readings** in preparation for the weekly tutorial discussion (face-to-face or via the online discussion forum).

◆ DURING DISCUSSION | Applying Knowledge, Values & Skills

Step 2 | Engage with your peers

- Lead/participate in group discussion and **participate in the weekly activities in the class tutorial and/or via the online tutorial discussion forum.**

◆ AFTER DISCUSSION | Consolidating and Reflecting on Learning

Step 3 | Consolidate your knowledge

- At the end of the week, complete any outstanding tasks for the week and work on upcoming assessment tasks.
- Engage with a series of [optional](#) exercises and [extension](#) tasks on iLearn such as writing a short reflection on the weekly learning (e.g. readings, lecture content and/or tutorial discussion) in your learning journal or adding an item to the unit Glossary.

REQUIRED AND RECOMMENDED TEXTS AND/OR LEARNING MATERIALS

There are no required textbooks for this unit. All reading materials are provided through [Leganto](#), MQ's reading list management system, and the [MQ library](#).

CONSULTATION TIMES

Each week your Convenors will offer consultation times via Zoom to allow you to ask questions about the weekly content that can not be addressed in the tutorials or online discussion fora. Consultation schedules are listed on iLearn.

- [Click here for a summary of the basics of Zoom from the MQ L&T Blog.](#)
