Unit description

In dynamic business environments, where customers' needs change rapidly and competition is intense, developing and launching new products and services that create and maintain a superior market position for a firm is a key success factor. Developing and launching new products addresses the commercialisation process within firms. Despite the significant investment in screening and developing new products and services, statistics reflect continuing high new product/service failure rates worldwide. This highlights the need for managing the commercialisation process of new products and services effectively.

The focus of this unit is on developing students' knowledge of new product and service commercialisation. In this unit, students will develop skills to create new product and service concepts and analyse factors that impact commercialisation decisions and outcomes. The unit will also focus on developing students' capacity to formulate and apply commercialisation strategies for new products and/or services.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Analyse and apply theories, models, and concepts underpinning new product and service commercialisation

ULO2: Critically evaluate and create new product and service opportunities, ideas, concepts and projects

ULO3: Analyse and appraise factors that impact new product and service commercialisation decisions and outcomes

ULO4: Formulate and plan effective commercialisation strategies for new products and/or services

General Assessment Information

Late Assessment Submission Penalty (written assessments)

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of '0' will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern. For any late submissions of time-sensitive tasks, such as scheduled tests/exams, performance assessments/presentations, and/or scheduled practical assessments/labs, students need to apply for Special Consideration.

Assessment Tasks

Name	Weighting	Hurdle	Due
<u>New product or service (i.e. innovation) recorded pitch presentation</u>	25%	No	11/04/2025
<u>Practice-based activities</u>	30%	No	Week 2 to 12
<u>New product or service commercialisation project</u>	45%	No	06/06/2025

New product or service (i.e. innovation) recorded pitch presentation

Assessment Type ¹: Presentation

Indicative Time on Task ²: 24 hours

Due: **11/04/2025**

Weighting: **25%**

This assessment will assess students' aptitude to formulate and design a feasible innovative

product and service concept. This assessment focuses on students' capability to communicate their new product/service idea and defend it verbally with the support of visual aids. A scenario will be placed on iLearn. Students will follow the scenario. 15 minutes

On successful completion you will be able to:

- Analyse and apply theories, models, and concepts underpinning new product and service commercialisation
- Critically evaluate and create new product and service opportunities, ideas, concepts and projects
- Analyse and appraise factors that impact new product and service commercialisation decisions and outcomes
- Formulate and plan effective commercialisation strategies for new products and/or services

Practice-based activities

Assessment Type ¹: Participatory task

Indicative Time on Task ²: 8 hours

Due: **Week 2 to 12**

Weighting: **30%**

In-class activities allows students to engage in discussions and share their thoughts, helps them articulate and communicate their point of view, and develop not only their own knowledge, but also assist their classmates to gain a better understanding of the topic. The activities focus on discussions questions, mini-case analysis, critical thinking and problem-solving activities.

On successful completion you will be able to:

- Analyse and apply theories, models, and concepts underpinning new product and service commercialisation
- Analyse and appraise factors that impact new product and service commercialisation decisions and outcomes
- Formulate and plan effective commercialisation strategies for new products and/or services

New product or service commercialisation project

Assessment Type ¹: Project

Indicative Time on Task ²: 40 hours

Due: **06/06/2025**

Weighting: **45%**

This assessment is linked with presentation assessment. It assesses students' skills to build on reliable technical and market-related data and facts, and communicate their new product/service concept in the form of a formal business report. The new product /service commercialisation project focuses on providing students with experience in the new product/service commercialisation process. The project focuses on market/industry analysis, concept generation, design, prototyping, testing, and marketing for the new product or service. Based on their market/industry analysis and opportunity evaluations, students are required to develop a product/service concept and propose commercialisation strategies for their product/service. 2000 words

On successful completion you will be able to:

- Analyse and apply theories, models, and concepts underpinning new product and service commercialisation
- Analyse and appraise factors that impact new product and service commercialisation decisions and outcomes
- Formulate and plan effective commercialisation strategies for new products and/or services

¹ If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

DELIVERY FORMAT

- This unit will be delivered in-class.
- The delivery will include a combination of pre-recorded lectures, readings, and seminars.
- We have 1-hour pre-recorded lecture and 2-hour seminar each week.

- Additional readings will be uploaded to iLearn for each session.
