Unit description

The purpose of this unit is to help students develop their own point of view on the formulation and implementation of strategy. Students will study how to think and act like strategic managers and leaders within an organisation. The unit is concerned with the many managerial plans and actions involved in organisations' quest to gain and sustain competitive advantage, how they might stay "in fit" with ever-changing environments, and how they manage strategic change. The unit draws from a range of different disciplines, bringing together much of the concepts/ideas/subjects that form the basis of a business degree.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

**ULO2:** Critically evaluate an organisation and its strategy in terms of congruence, resources and strategic fit.

**ULO3:** Apply key strategic management tools and models to synthesise complex problems in strategic management.
