Unit description

All business decisions have tax implications. Being proficient in tax is essential for Chartered Accountants required to provide accurate professional advice. This unit will advance your technical knowledge of tax, and also develop broader business skills in problem solving, critical thinking, research and evaluation. The unit examines and applies relevant taxation law to various tax entities. Students are required to explain and calculate the taxation consequences applicable to a range of real-life simulated scenarios, including a comprehensive tax reconciliation which integrates the various units. Topics include trading stock, employment remuneration, capital gains tax, tax losses, international tax and tax planning.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>
