Unit description

The organisational and institutional dynamics of modern societies are powerful generators of social inequality and yet they equally generate resources through which inequalities can be identified and challenged. This unit explores the social mechanisms that drive inequalities and surveys the impact of socio-economic inequality on a wide range of areas of social life (gender, culture, employment, and the economy). The unit considers how sociological theory can explain the emergence and persistence of social inequalities, the normative conflicts and struggles that inequalities produce, and the ways social institutions overcome, respond or merely adapt to inequality. We conclude the unit by looking at whether democratic societies can survive widening socio-economic inequalities and how we might explain the improvement in some types of inequality and discrimination and the curious persistence of others.

General Assessment Information

Late penalties

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a mark of '0' (zero) will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical issue. This late penalty will apply to non-timed sensitive assessment (incl essays, reports, posters, portfolios, journals, recordings etc). Late submission of time sensitive tasks (such as tests/exams, performance assessments/presentations, scheduled practical assessments/labs etc) will only be addressed by the unit convenor in a Special consideration application. Special Consideration outcome may result in a new question or topic.
