Unit description

This unit provides an introduction to major topics in ethics, moral theory and contemporary political philosophy. The first section focuses on the nature of happiness. Is pleasure essential to happiness? Or does the pursuit of pleasure harm our chances of lasting fulfilment? Must we be virtuous in order to be happy? What is the relationship between happiness and duty? The second section explores the nature of moral goodness. Is morality based ultimately in self-interest? What is the relationship between morality and religion? Are there moral principles that everyone is bound by reason to recognise? Or is the validity of moral standards relative to specific societies and cultures? In the third section we turn to questions of applied political philosophy, focusing on questions such as: What principles should govern the distribution of economic and social resources within a society? What are the obligations of wealthy nations to those less fortunate, including immigrants and refugees? And what issues of justice are raised by climate change?

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Demonstrate elementary understanding of key moral and political theories.

ULO2: Evaluate, in an elementary way, contemporary social issues that concern happiness, goodness, and justice, using philosophical ideas and methods.

ULO3: Summarise and explain a philosophical text and its key features at an elementary level.

ULO4: Reflect critically on philosophical theories and arguments at an elementary level.

ULO5: Formulate and defend your own ideas with clarity and rigour, in a logical, structured argument, at an elementary level.

ULO6: Engage constructively and respectfully with the views of others, even if you disagree with them.

General Assessment Information

Detailed assessment information and rubrics

Detailed information about each of the assessments, including rubrics and submission instructions will be available in the Assessment block in iLearn. Please make sure you read the assessment information carefully. Assessment forums for each assessment will be available on the unit iLearn – if you have an assessment question please check the assessment information and the relevant assessment forum to see if your question has already been answered. If not,

please post your question on the assessment forum where it will be answered within 1-2 days (weekdays). Please do not email your tutor unless you have tried all the above sources and cannot find an answer to your question.

Special Consideration

Requests for extensions must be submitted via a [Special Consideration](#) request. Your request should be submitted **no later than five days after the due date** and will need to be accompanied by appropriate supporting documentation. Please see the Special Consideration policy in the list of policies at the end of this document for further details. Read the policy closely as your request may be turned down if you have not followed procedure, or if you have not submitted a request in a timely manner.

Late Submission Penalty

*Unless a Special Consideration request has been submitted and approved, a **5% penalty** (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a mark of '0' (zero) will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical issue.*

This late penalty will apply to non-timed sensitive assessment (incl essays, reports, posters, portfolios, journals, recordings etc). Late submission of time sensitive tasks (such as tests/exams, performance assessments/presentations, scheduled practical assessments/labs etc) will only be addressed by the unit convenor in a Special consideration application. Special Consideration outcome may result in a new question or topic.

Academic Integrity

In Philosophy, academic honesty is taken very seriously, and a range of methods, including but not restricted to the use of Turnitin, are used to detect plagiarism. Misrepresenting someone else's work as your own may be grounds for referral to the Faculty Disciplinary Committee. If you have questions about how to properly cite work or how to credit sources, please ask the convenor for help and see also the Academic Integrity Policy <https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policies/academic-integrity>

Note: All assignments in this unit are individual assignments. Collusion (unauthorised collaboration on individual assignments) is a breach of the Academic Integrity Policy. If in doubt, contact a member of teaching staff.

A helpful resource if you would like to know more about referencing and avoiding plagiarism is Macquarie's Academic Integrity Module, available here: <https://students.mq.edu.au/support/study/skills-development>. You will need to complete this Module before accessing the unit content, if you have not already done so. More information is available in iLearn.

GenAI/ChatGPT

In this unit, unless notified otherwise in writing by the Unit Convenor, it is expected that the work

you submit demonstrates your own understanding, analysis, research, reflection, critical thinking, and writing, and you will be marked on the basis of your demonstrated understanding of and engagement with the unit content and activities. This applies to all assessments, including online forums. If your teachers have concerns about whether a submission is your own work in a meaningful sense, you may be required to attend an interview with the Unit Convenor or other academic staff to discuss your work and demonstrate your attainment of unit and task learning outcomes. Further information and advice about policies and expectations around the use of Generative AI will be given in iLearn.

Delivery and Resources

Required and recommended texts and/or materials

All required readings are available in Leganto on the unit iLearn site. Supplementary reading is required for Essays and assessment tasks. Some suggestions for Supplementary Reading will be provided in lectures and on iLearn. Students are also encouraged to search for additional literature using the library's multisearch system and/or other scholarly databases such as PhilPapers and Philosophers Index.

Lectures

Lectures will be in-person (on-campus) and available online (live and/or on-demand) at the Echo360 block on the unit iLearn site. On-campus students are strongly encouraged to attend lectures in person, so that you can be well prepared for your tutorial discussions.

Tutorials are either on campus or online forums (for external/online students). Tutorials **commence in Week 1**.

Online students do not attend tutorials in person; instead you will participate and interact in weekly online forum discussions. Online forums **commence in Week 1**.

Unit Webpages and E-Resources

Much of this unit (lectures, assessment instructions, additional reading material, etc.) is delivered online through iLearn (<http://ilearn.mq.edu.au>). PC and Internet access are required. Basic computer skills (e.g., internet browsing) and skills in word processing are also a requirement.
