Unit description

This unit will improve students' understanding of Japanese grammar, vocabulary, culture, and writing so that they can accomplish a variety of practical and authentic tasks. Students will develop their listening, speaking, reading, and writing skills to a level where they can carry out a wide variety of common social interactions, and participate effectively in multiple communicative contexts. Additionally, students will gain basic proficiency in the use of the kanji script, and the ways that standard written Japanese employs kanji, hiragana, and katakana in tandem. The unit provides opportunities for interactive language learning, and a wide variety of methods for Japanese practice through the use of online resources.
