Prerequisites

Admission to MCLinNeuro and (PSYN840 or PSYN8840) and (PSYN855 or PSYN8855 or PSYN8845) and (PSYN853 or PSYN8853 or PSYG8001)

Corequisites

Co-badged status

Unit description

This unit provides the opportunity to learn about a wide variety of neuropsychological tests, and builds on the foundational neuropsychological assessment skills developed early in the neuropsychology program. Most of the session is devoted to exposition of tests commonly used by neuropsychologists, with the aim of developing an understanding the important clinical, practical, and psychometric considerations in test selection and administration.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Apply principles from cognitive neuropsychological models to case formulation (Capability 1: Scientist and Scholar).

ULO2: Integrate qualitative and psychometric features of tests to inform client-centred neuropsychological assessment (Capability 2: Psychologist Practitioner).

ULO3: Apply expertise in selecting, administering, and interpreting culturally and linguistically appropriate and valid tests of cognitive domains (Capability 3: Engaged Global Citizen).

ULO4: Apply knowledge of diverse perspectives about neuropsychological assessment to case formulation (Capability 4: Professional).

General Assessment Information

Grade descriptors and other information concerning grading are contained in the [Macquarie University Assessment Policy](#).

All final grades are determined by a grading committee, in accordance with the Macquarie University Assessment Policy, and are not the sole responsibility of the Unit Convenor.

Students will be awarded a final grade and a mark which must correspond to the grade descriptors specified in the [Assessment Procedure](#) (clause 128).

To pass this unit, you must demonstrate sufficient evidence of achievement of the learning outcomes, meet any ungraded requirements, and achieve a final mark of 50 or better.

Further details for each assessment task will be available on iLearn.

Late Submissions

Unless a Special Consideration request has been submitted and approved, a 5% penalty (OF THE TOTAL POSSIBLE MARK) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of '0' will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern.

For example:

Number of days (hours) late	Total Possible Marks	Deduction	Raw mark	Final mark
1 day (1-24 hours)	100	5	75	70
2 days (24-48 hours)	100	10	75	65
3 days (48-72 hours)	100	15	75	60
7 days (144-168 hours)	100	35	75	40
>7 days (>168 hours)	100	-	75	0

Late submission of time sensitive tasks, such as timetabled tests/exams, scheduled performance assessments/presentations, scheduled practical assessments/labs, will be addressed by the unit convenor in a Special consideration application.

Special Consideration

If you are unable to complete an assessment task on or by the specified date due circumstances that are unexpected, unavoidable, significantly disruptive and beyond your control, you may apply for special consideration in accordance with the [special consideration policy](#). Applications for special consideration must be supported by appropriate evidence and submitted via ask.mq.edu.au.

Assessment Tasks

Name	Weighting	Hurdle	Due	Groupwork/Individual	Short Extension	AI Approach
Clinical performance evaluation	25%	No	30/08/2026	Individual	No	Observed
Issues associated with serial neuropsychological assessments	35%	No	04/10/2026	Individual	No	Observed
Final Examination	40%	No	09/11/2026	Individual	No	Observed

Clinical performance evaluation

Assessment Type [1](#): Professional task

Indicative Time on Task [2](#): 15 hours

Due: **30/08/2026**

Weighting: **25%**

Groupwork/Individual: Individual

Short extension [3](#): No

AI Approach: Observed

You will be tested on administration of a neuropsychological test, and you will complete a reflective statement on cultural considerations for administration and interpretation of such tests.

On successful completion you will be able to:

- Integrate qualitative and psychometric features of tests to inform client-centred neuropsychological assessment (Capability 2: Psychologist Practitioner).
- Apply expertise in selecting, administering, and interpreting culturally and linguistically appropriate and valid tests of cognitive domains (Capability 3: Engaged Global Citizen).

Issues associated with serial neuropsychological assessments

Assessment Type ¹: Professional task

Indicative Time on Task ²: 30 hours

Due: **04/10/2026**

Weighting: **35%**

Groupwork/Individual: Individual

Short extension ³: No

AI Approach: Observed

You will submit a reliable change exercise which includes evaluating the diagnostic accuracy of a range of neuropsychological tests.

On successful completion you will be able to:

- Apply principles from cognitive neuropsychological models to case formulation (Capability 1: Scientist and Scholar).
- Integrate qualitative and psychometric features of tests to inform client-centred neuropsychological assessment (Capability 2: Psychologist Practitioner).
- Apply knowledge of diverse perspectives about neuropsychological assessment to case formulation (Capability 4: Professional).

Final Examination

Assessment Type ¹: Examination

Indicative Time on Task ²: 30 hours

Due: **09/11/2026**

Weighting: **40%**

Groupwork/Individual: Individual

Short extension ³: No

AI Approach: Observed

You will complete a final examination that assesses content and skills learnt throughout the semester.

On successful completion you will be able to:

- Apply principles from cognitive neuropsychological models to case formulation (Capability 1: Scientist and Scholar).
- Integrate qualitative and psychometric features of tests to inform client-centred neuropsychological assessment (Capability 2: Psychologist Practitioner).
- Apply expertise in selecting, administering, and interpreting culturally and linguistically appropriate and valid tests of cognitive domains (Capability 3: Engaged Global Citizen).
- Apply knowledge of diverse perspectives about neuropsychological assessment to case

formulation (Capability 4: Professional).

¹ If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- [Academic Success](#) for academic skills support.

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation.

³ An automatic short extension is available for some assessments. Apply through the [Service Connect Portal](#).

Delivery and Resources

The subject will be presented by means of a two-hour class, consisting of lecture and practical components on a weekly basis (except where affected by public holidays and university breaks). Lectures will predominantly be delivered face to face, although some online components may be included to supplement face to face material and to scaffold the practical components of learning.

Policies and Procedures

Macquarie University policies and procedures are accessible from [Policy Central](#) (<https://policies.mq.edu.au>). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- [Academic Appeals Policy](#)
- [Academic Integrity Policy](#)
- [Academic Progression Policy](#)
- [Assessment Policy](#)
- [Fitness to Practice Procedure](#)
- [Assessment Procedure](#)
- [Complaints Resolution Procedure for Students and Members of the Public](#)
- [Special Consideration Policy](#)

Students seeking more policy resources can visit [Student Policies](#) (<https://students.mq.edu.au/support/study/policies>). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

To find other policies relating to Teaching and Learning, visit [Policy Central](#) (<https://policies.mq.edu.au>) and use the [search tool](#).

Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: <https://students.mq.edu.au/admin/other-resources/student-conduct>

Results

Results published on platform other than [eStudent](#), (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in [eStudent](#). For more information visit connect.mq.edu.au or if you are a Global MBA student contact globalmba.support@mq.edu.au

Academic Integrity

At Macquarie, we believe [academic integrity](#) – honesty, respect, trust, responsibility, fairness and courage – is at the core of learning, teaching and research. We recognise that meeting the expectations required to complete your assessments can be challenging. So, we offer you a range of resources and services to help you reach your potential, including free [online writing and maths support](#), [academic skills development](#) and [wellbeing consultations](#).

Student Support

Macquarie University provides a range of support services for students. For details, visit <http://students.mq.edu.au/support/>

Academic Success

[Academic Success](#) provides resources to develop your English language proficiency, academic writing, and communication skills.

- [Ask a Study Coach](#)
- [Access StudyWISE](#)
- [Upload an assignment to Studiosity](#)
- [Complete the Academic Integrity Module](#)

The Library provides online and face to face support to help you find and use relevant information resources.

- [Subject and Research Guides](#)
- [Ask a Librarian](#)

Student Services and Support

Macquarie University offers a range of [Student Support Services](#) including:

- [IT Support](#)
- [Accessibility and disability support](#) with study
- Mental health [support](#)

- [Safety support](#) to respond to bullying, harassment, sexual harassment and sexual assault
- [Social support including information about finances, tenancy and legal issues](#)
- [Student Advocacy](#) provides independent advice on MQ policies, procedures, and processes

Student Enquiries

Got a question? Ask us via the [Service Connect Portal](#), or contact [Service Connect](#).

IT Help

For help with University computer systems and technology, visit <https://students.mq.edu.au/support/technology/service-desk>.

When using the University's IT, you must adhere to the [Acceptable Use of IT Resources Policy](#). The policy applies to all who connect to the MQ network including students.

Professionalism

In the Faculty of Medicine, Health and Human Sciences, professionalism is a key capability embedded in all our courses.

As part of developing professionalism, students are [expected to attend all small group interactive sessions](#) including clinical, practical, laboratory, work-integrated learning (e.g., PACE placements), and team-based learning activities. Some learning activities are recorded (e.g., face-to-face lectures), however you are encouraged to avoid relying upon such material as they do not recreate the whole learning experience and technical issues can and do occur. As an adult learner, we respect your decision to choose how you engage with your learning, but we would remind you that the learning opportunities we create for you have been done so to enable your success, and that by not engaging you may impact your ability to successfully complete this unit. We equally expect that you show respect for the academic staff who have worked hard to develop meaningful activities and prioritise your learning by communicating with them in advance if you are unable to attend a small group interactive session.

Another dimension of professionalism is having respect for your peers. It is the right of every student to learn in an environment that is free of disruption and distraction. Please arrive to all learning activities on time, and if you are unavoidably detained, please join activity as quietly as possible to minimise disruption. Phones and other electronic devices that produce noise and other distractions must be turned off prior to entering class. Where your own device (e.g., laptop) is being used for class-related activities, you are asked to close down all other applications to avoid distraction to you and others. Please treat your fellow students with the utmost respect. If you are uncomfortable participating in any specific activity, please let the relevant academic know.

Unit information based on version 2026.02 of the [Handbook](#)
