<sup>1</sup> If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- [Academic Success](#) for academic skills support.

<sup>2</sup> Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation.

<sup>3</sup> An automatic short extension is available for some assessments. Apply through the [Service Connect Portal](#).

## Delivery and Resources

### Delivery of Classes

Students are required to attend three-hour seminars twice per week. It should be emphasised that attendance at the seminars is a necessary but not sufficient condition for adequate examination preparation.

Each week all students should study the relevant chapter and topic materials prescribed and participate in class discussions regarding the concepts and their application. The Unit Assessment guide and weekly seminar lecture slides are available on iLearn. Your study guide must also be available to refer to during class time.

Seminars aim to cover the key concepts of the chapter and topic set for that week and is critical to the coverage and understanding of the unit content. The seminar presentation will be complemented by working through key study guide questions and module homework questions.

When working through these questions it is expected that seminar participants will contribute to the discussion and raise particular issues or problems that they have.

Please note that students will be significantly disadvantaged if they expect to use the seminar to examine the CA chapter and topic materials for the first time. It is expected that students independently **read and comprehend** the chapter and topic materials **before the seminar**.

**Note: There is no mid-session break for this unit.**

The timetable for classes can be found on the University web site at: <https://publish.mq.edu.au/timetables>

### Required and Recommended Texts and/or Materials

The list of the required readings for the subject is provided in My Capability - Learn.

### Technology Used and Required

- Students are expected to have:
