Unit description

Unlock the power of risk management as a strategic enabler for value creation and protection in organisations. This unit explores the core principles and practices of risk management, aiming to improve performance, foster innovation, and achieve organisational objectives. The unit will build on the comprehensive risk management framework based on international standards and encompass risk identification, analysis, treatment, monitoring, and communication. Dive into various risk types, including financial, operational, conduct, and strategic risks, examining their impact on organisational performance and sustainability. Gain insights into the systems of risk governance within organisations, ensuring the effectiveness of risk management practices. Particular emphasis is placed on cultivating a risk-aware and ethical culture, fostering an environment conducive to effective risk management. Through theoretical exploration and practical applications, equip yourself with the skills and knowledge to navigate complex risk landscapes, positioning your organisation for sustainable success in today's dynamic business environment.
