Unit description

Step behind the glass case and discover how museums shape the stories we tell about ourselves. From ancient cabinets of curiosities to cutting-edge digital galleries, these institutions wield extraordinary power to construct narratives about history and culture. But whose voices get heard, and whose stay silent? This unit explores how museums evolved from elite collections to public institutions, examining how "new museology" has challenged traditional approaches to displaying the past. You'll put theory into practice by developing your own exhibition proposal with peers, crafting curatorial statements and making the difficult choices that museum professionals face daily. You'll discover how every display decision carries profound implications for how we understand history and culture. By the end, you'll view museums as dynamic spaces where culture, politics, and power intersect—not neutral repositories of facts or objects. Whether pursuing a heritage career or simply becoming a more critical museum visitor, this unit will transform how you experience these complex cultural institutions.

Delivery and Resources

Unit Requirements and Expectations

For in-person tutorial times and classrooms please consult the MQ Timetable website. This website will display up-to-date information on your classes. For any variations on this information, please consult the PBHIS/PBHIX1102 iLearn website (which is accessible at the commencement of teaching session).

1. **Lectures:** There is a pre-recorded 1-hour lecture each week for 12 weeks of the session released via Echo360. There is also a short, pre-recorded Industry Expert In

Conversation each week, along with readings to complete via Leganto. It is expected that all students will review these learning materials. You are expected to reflect this commitment to learning this content in your assessments.

2. **Tutorials and Discussion Forum:** There are 2-hour tutorials (for Internal Students) and a Discussion Forum (for OUA and External Students) for 12 weeks of the session. It is expected that all students will participate actively. A unit like this, drawing on such a broad range of material and different perspectives, works best when everyone brings their thoughts to the table. Participation in tutorials and in the Discussion Forum is considered a vital and rewarding part of the unit.

Technology Used and Required

Basic computer skills (e.g., internet browsing) and skills in word processing are also a requirement. You should also familiarise yourself with [Adobe Express](#) for your assessments, which is free and available to all students. Technical issues will not be accepted as a ground for Special Consideration applications. If your device is not compatible with Adobe Express, you can use other open source software.

Unit Schedule

Available on iLearn one week before tutorials commence in Session 1.
