Unit description

This unit is one of two foundation units for students undertaking studies in policing, intelligence and counter terrorism. The unit introduces students to key concepts in the three major areas of study. This unit, in combination with PICT851, also establishes the academic standards required for studying in this area at a postgraduate level; provides guidance for students to develop postgraduate level skills in communication, research and critical analysis and challenges students to apply these skills to complex concepts and issues in policing, intelligence and counter terrorism.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

Demonstrate a sound appreciation of the different aspects that comprise security in a liberal democracy.

Comprehensively explain a range of contemporary and dynamic issues that can impact on security in Australia.

Critically evaluate the role of policing, intelligence, counter terrorism and cyber security in contributing to a secure environment.

Model academic research skills, particularly the ability to select sources appropriately, to integrate knowledge from diverse sources, to critically evaluate its significance and relevance, synthesise material and present findings logically and rationally.

Demonstrate higher order communication skills including the ability to present sustained, persuasive & original written arguments cogently & coherently.

Delivery and Resources

Unit Requirements and Expectations

In accordance with normal Macquarie University expectations, you should spend, on average, at least 12 hours per week on this unit. Students are expected to meet the following requirements

- Read prescribed readings prior to each weekly teaching session
- Listen to the recorded lecture.
- Contribute to the on-line discussion (internal students – participate in weekly teaching session).
- Complete all assessment tasks.

Internal students are expected to attend all weekly teaching sessions on-campus.

At Macquarie University all units have an online presence on iLeran to facilitate web enabled learning and course administration. Students are required to access MQ iLearn to engage with the academic content, submit assessment tasks and participate in discussions.

Technological Requirements

Reliable PC and Internet access are required. Basic computer skills such as internet browsing and skills in word processing are also a requirement.

Assignments in this unit will be submitted, marked and returned electronically. For further information see the iLearn site.

Please consult teaching staff for any further, more specific requirements.

Unit Readings

The required readings for the Unit is listed on the iLearn site and can be accessed by all enrolled students.

Assessment Criteria

Detailed assessment criteria is available to all enrolled students through the Unit iLearn site.

Assessment Tasks

- All assessment tasks are to be submitted, marked and returned electronically. This will only happen through the unit iLearn site.
- Assessment tasks must be submitted either as a PDF or MS word document by the due date.
- All assessment tasks will be subject to a 'Turnitin' review as an automatic part of the submission process.
- Assessment tasks must be submitted with a plagiarism declaration. This may be as part of the task submission process through grademark or through completion of a coversheet. The coversheet can be downloaded at: www.arts.mq.edu.au/current_students/postgraduate_coursework.
- The granting of extensions of up to one week are at the discretion of the unit convenor. Any requests for extensions must be made in writing before the due date for the submission of the assessment task. Extensions beyond one week are subject to special consideration. The policy for this is detailed under Policy and Procedures.

Late Submission of Assessment Tasks

There is a penalty for the the late submission of assessment tasks. If an assignment is submitted late it will initially be marked as if it had been submitted on time. However, **5%**of the weighting allocated for the assignment will then be deducted from the mark the student initially achieves in the

assessment task for each day it is late. For example if the assessment task's weighting is 20, 1.00 mark per day will be deducted from the initial mark given per day it is late ie a task initially given 15/20 but which is submitted four days late will lose 4×1.00 marks. That means $15/20 - 4\text{marks} = 11/20$. It is this second mark which will be recorded in gradebook.

The same principle applies if a student seeks and is granted an extension and the assessment task is submitted later than the amended submission date.
