| Unit description               | This unit presents macroeconomic models based firmly on microeconomic foundations. Specifically, macroeconomic models are developed based on the optimising behaviour of private agents and of the government in an open economy framework. There are two important advantages of this approach. First, macroeconomic issues can be discussed in a way that is fully consistent with microeconomic behaviour. Second, because this approach is based on solid microeconomic theory, it can be used to evaluate the welfare consequences of government policy. The empirical regularities that have been found in macroeconomic data will also be discussed and used to evaluate the theory we develop. |

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at [https://students.mq.edu.au/important-dates](https://students.mq.edu.au/important-dates)

## Learning Outcomes

1. Understand and contribute to economic policy debates related to growth and business cycles.
2. Analyse theoretical problems in growth and business cycle models.
3. Critically interpret theoretical and empirical studies of growth and short-run fluctuations.
Assessment Tasks

Midsession Exam

Due: **Week 7**

Weighting: **30%**

The mid-session exam is 1.5 hours plus 10 min reading time.

No material is allowed in the exam except for a non-programmable calculator.

This Assessment Task relates to the following Learning Outcomes:

- Understand and contribute to economic policy debates related to growth and business cycles.
- Analyse theoretical problems in growth and business cycle models.

Assignment

Due: **Week 11**

Weighting: **25%**

Description

This assignment is based on a referee report or literature review, where students will have to demonstrate understanding and depth of readings relating theory to empirics and policy issues. Details will be provided on ilearn.

Submission

The hard copy of the assignment has to be handed in class in week 11 and the soft copy should be submitted to turnitin by 2 pm October 31.

Extension

There will be no extensions. In the case of unavoidable circumstances students should apply for a special consideration.

Penalties

4 marks (out of 20) will be deducted for each (calendar) day late.
This Assessment Task relates to the following Learning Outcomes:
  • Understand and contribute to economic policy debates related to growth and business cycles.
  • Critically interpret theoretical and empirical studies of growth and short-run fluctuations.

Final exam
Due: Formal examination period
Weighting: 45%
Description
Two (2) hours plus 10 min reading time. To be held in the University Examination Period for Session 2, 2014.
No material is allowed except for a non-programmable calculator.

This Assessment Task relates to the following Learning Outcomes:
  • Understand and contribute to economic policy debates related to growth and business cycles.
  • Analyse theoretical problems in growth and business cycle models.

Delivery and Resources
Classes
Lectures and tutorials are scheduled in the same day. The tutorials will complement lectures by providing opportunities to develop in detail some of the concepts and techniques. Students are expected to come prepared to lectures and tutorials.

The timetable for classes for ECON490-861 is on the University web site at: https://timetables.mq.edu.au/2012/

Required and Recommended Texts and/or Materials
The textbook is:

The required text can be purchased from the Macquarie University Co-op Bookshop. They are also available at the Macquarie Library.

Technology Used and Required
Lecture slides, tutorial questions and answers will be available on ilearn.

Teaching and Learning Activities
The teaching strategy in ECON861 recognises that students learn independently and assume
responsibility for the learning process and with academic integrity.

**Unit Schedule**

**Topic 1**
Exogenous growth: the Solow model and extensions

**Topic 2**
Endogenous growth

**Topic 3**
R&D based growth models

**Topic 4**
Unemployment

**Topic 5**
Facts about business cycles. Investment and asset prices

**Topic 6**
Consumption and aggregate demand

**Topic 7**
The AS-AD model

**Topic 8**
Stabilisation policy

**Topic 9**
Limits to stabilization policy: Credibility and Uncertainty

**Topic 10**
The AS-AD model in the open economy

**Policies and Procedures**

Macquarie University policies and procedures are accessible from [Policy Central](http://mq.edu.au/policy/docs/academic_honesty/policy.html).

Students should be aware of the following policies in particular with regard to Learning and Teaching:

Disruption to Studies Policy  http://www.mq.edu.au/policy/docs/disruption_studies/policy.html The Disruption to Studies Policy is effective from March 3 2014 and replaces the Special Consideration Policy.

In addition, a number of other policies can be found in the Learning and Teaching Category of Policy Central.

**Student Code of Conduct**

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct:  https://students.mq.edu.au/support/student_conduct/

**Student Support**

Macquarie University provides a range of support services for students. For details, visit  http://students.mq.edu.au/support/

**Learning Skills**

Learning Skills (mq.edu.au/learningskills) provides academic writing resources and study strategies to improve your marks and take control of your study.

- Workshops
- StudyWise
- Academic Integrity Module for Students
- Ask a Learning Adviser

**Student Enquiry Service**

For all student enquiries, visit Student Connect at  ask.mq.edu.au

**Equity Support**

Students with a disability are encouraged to contact the Disability Service who can provide appropriate help with any issues that arise during their studies.

**IT Help**

For help with University computer systems and technology, visit  http://informatics.mq.edu.au/help/. When using the University’s IT, you must adhere to the Acceptable Use Policy. The policy applies to all who connect to the MQ network including students.
Graduate Capabilities

PG - Discipline Knowledge and Skills

Our postgraduates will be able to demonstrate a significantly enhanced depth and breadth of knowledge, scholarly understanding, and specific subject content knowledge in their chosen fields.

This graduate capability is supported by:

Learning outcomes

- Understand and contribute to economic policy debates related to growth and business cycles.
- Analyse theoretical problems in growth and business cycle models.
- Critically interpret theoretical and empirical studies of growth and short-run fluctuations.

Assessment tasks

- Midsession Exam
- Assignment
- Final exam

PG - Critical, Analytical and Integrative Thinking

Our postgraduates will be capable of utilising and reflecting on prior knowledge and experience, of applying higher level critical thinking skills, and of integrating and synthesising learning and knowledge from a range of sources and environments. A characteristic of this form of thinking is the generation of new, professionally oriented knowledge through personal or group-based critique of practice and theory.

This graduate capability is supported by:

Learning outcomes

- Understand and contribute to economic policy debates related to growth and business cycles.
- Analyse theoretical problems in growth and business cycle models.
- Critically interpret theoretical and empirical studies of growth and short-run fluctuations.

Assessment tasks

- Midsession Exam
- Assignment
- Final exam
**PG - Research and Problem Solving Capability**

Our postgraduates will be capable of systematic enquiry; able to use research skills to create new knowledge that can be applied to real world issues, or contribute to a field of study or practice to enhance society. They will be capable of creative questioning, problem finding and problem solving.

This graduate capability is supported by:

**Learning outcome**

- Critically interpret theoretical and empirical studies of growth and short-run fluctuations.

**Assessment tasks**

- Midsession Exam
- Assignment
- Final exam

**PG - Effective Communication**

Our postgraduates will be able to communicate effectively and convey their views to different social, cultural, and professional audiences. They will be able to use a variety of technologically supported media to communicate with empathy using a range of written, spoken or visual formats.

This graduate capability is supported by:

**Learning outcomes**

- Understand and contribute to economic policy debates related to growth and business cycles.
- Critically interpret theoretical and empirical studies of growth and short-run fluctuations.

**Assessment tasks**

- Midsession Exam
- Assignment
- Final exam

**Changes from Previous Offering**

The content was slightly changed and the assessment weights were readjusted.

**Research and Practice**

This unit gives you practice in applying research findings in your assignment and provides you with the background to conduct your own research.
