Unit description
This unit introduces students to the macro context in which they teach. Students will critically consider the socio-political context of early childhood education; management and governance structures of schools and prior-to-school settings; and the legal and professional accountabilities of early childhood teachers. From studying this unit students will develop foundational understandings of effective management and leadership, an awareness of their professional and legal responsibilities, skills in policy development, and critical understandings of children’s rights and quality early childhood education.

Important Academic Dates

Discipline Specific Knowledge and Skills

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

Engaged and Ethical Local and Global citizens

As local citizens our graduates will be aware of indigenous perspectives and of the nation’s historical context. They will be engaged with the challenges of contemporary society and with knowledge and ideas. We want our graduates to have respect for diversity, to be open-minded, sensitive to others and inclusive, and to be open to other cultures and perspectives: they should have a level of cultural literacy. Our graduates should be aware of disadvantage and social justice, and be willing to participate to help create a wiser and better society.
