Unit description
This unit aims to provide students with a comprehensive framework for understanding e-commerce strategies and the skills and techniques for implementing these in the organisations in which students work or seek to work. Students will be required to critically evaluate different approaches to e-commerce, synthesise contemporary research findings and evaluate the utility of these when analysing different case organisations. A key component of the unit is the development of an analytical and strategic approach to e-commerce business problems and opportunities.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://students.mq.edu.au/important-dates
Learning Outcomes

1. Identify the concepts and approaches applied to e-commerce within organisations and Computer-Mediated Environments (CME’s)
2. Identify contemporary and emerging skills and capabilities required for E-Commerce in the digital age
3. Identify the infrastructures that contribute to current and emerging E-Commerce frameworks, models and philosophy
4. Identify the latest e-commerce philosophies and practice based on Web 2.0, and Mobile Commerce
5. Explain the methodologies to explore and develop insights and strategic conversation on new and emerging e-commerce technologies, products and services

Assessment Tasks

</tr>
<tr>
<td>3. Final Examination</td>
<td>40%</td>
<td>w/c 20 April 2015</td>
</tr>
</tbody>
</table>

1. Report & Participation

Due: Weekly
Weighting: 30%

Report (15%)

- An individual research report
- Topics to choose from are posted on iLearn
- Need to write on one topic
- Formal academic writing style required
- Proof reading (spelling, grammar) is essential
- References according to Harvard Referencing style
- Scholarly work must be included
- Hand in: Upload onto Turnitin on iLearn, 10 page report (inc. Table of Contents), plus references and appendix.
- The report is due at the end of the week (Sunday 11.55pm), when the topic is discussed
- Late reports will attract a 10% penalty of the assignment mark for each day late.
Students are expected to maintain an appropriate standard in presenting their report. Remember to acknowledge your sources throughout the report using the Harvard referencing system. The report is to be typed and 1.5 spaced (a standard 12 point font should be used). Students are expected to maintain an appropriate standard in presenting their report. It should be checked for spelling, consistency and clarity of expression.

Please read more details on iLearn.

**Participation (15%)**

- Student engagement and contributions in the weekly online discussion forums
- It is expected students will participate in all discussion topics by submission of a written commentary on the topic of discussion.
- The weekly online session participation is encouraged.
- If students don’t participate in the weekly forums, they will receive a zero mark
- Please read more details on iLearn.

This Assessment Task relates to the following Learning Outcomes:

- Identify the concepts and approaches applied to e-commerce within organisations and Computer-Mediated Environments (CME’s)
- Identify contemporary and emerging skills and capabilities required for E-Commerce in the digital age
- Identify the latest e-commerce philosophies and practice based on Web 2.0, and Mobile Commerce

**2. Assignment**

**Due: Week 6**  
**Weighting: 30%**

- Developing an E-Commerce Business Plan for an organisation.
- You can develop this plan by working in groups or as an individual assessment item.
- Business Planning format is required for the project.
- Proof reading (spelling, grammar) is essential.
- References according to Harvard Referencing Method.
- Upload the final plan onto Turnitin on iLearn.
- No of pages: 20 page report (inc. Table of Contents), plus references and appendix.
- Late reports will attract a 20% penalty of the assignment mark for each day late.
• Students are expected to maintain an appropriate standard in presenting their report. Remember to acknowledge your sources throughout the report using the Harvard referencing system. The report is to be typed and 1.5 spaced (a standard 12 point font should be used). Students are expected to maintain an appropriate standard in presenting their report. It should be checked for spelling, consistency and clarity of expression.

• Please read more details on iLearn.

This Assessment Task relates to the following Learning Outcomes:
• Identify the concepts and approaches applied to e-commerce within organisations and Computer-Mediated Environments (CME’s)
• Identify contemporary and emerging skills and capabilities required for E-Commerce in the digital age
• Identify the infrastructures that contribute to current and emerging E-Commerce frameworks, models and philosophy
• Identify the latest e-commerce philosophies and practice based on Web 2.0, and Mobile Commerce
• Explain the methodologies to explore and develop insights and strategic conversation on new and emerging e-commerce technologies, products and services

3. Final Examination
Due: w/c 20 April 2015
Weighting: 40%

A final examination is included as an assessment task for this unit to provide assurance that:

• the product belongs to the student and
• the student has attained the knowledge and skills tested in the exam.

The final exam is an online open-book exam.

You will be notified of the exam day and time by email and this will also be posted on the BUS800 iLearn site.

It is anticipated the final exam will be held 2 weeks after the 6 week course has completed.

If a Supplementary Examination is granted as a result of the Disruption of Studies process the examination will be scheduled after the conclusion of the official examination period. (Individual Faculties may wish to signal when the Faculties’ Supplementary Exams are normally scheduled.)

The Macquarie university examination policy details the principles and conduct of examinations at the University. The policy is available at: http://www.mq.edu.au/policy/docs/examination/policy.htm

Please read more details on iLearn.
This Assessment Task relates to the following Learning Outcomes:

- Identify the concepts and approaches applied to e-commerce within organisations and Computer-Mediated Environments (CME’s)

Delivery and Resources
Changes to the Last Offering of this Unit in S1 /2015 include:

No changes to the unit, last offered in S2 / 2014.

This unit is now designed and delivered in 6 weeks. compared to 13 weeks in 2013.

The final exam is open-book, not a closed book exam.

Classes
The on-line program is conducted through Macquarie University’s e-Learning management platform (iLearn). When studying on-line, your computer/laptop/tablet is the classroom. iLearn is the platform where:

- you will interact and liase with the Lecturer and other students
- your assessment tasks will be completed and submitted on-line
- you conduct your final exam

Also, live online classes are held every week. Further details of these are posted on iLearn.

The full resources of Macquarie University including the MU Library are available to on-line students.

Required and Recommended Texts and/or Materials
There is no prescribed textbook for this course.

Reading material has been developed for this Unit and is set up as Hyperlinks within iLearn.

Also latest articles can be found in iLearn.
Students are strongly encouraged to read widely in the E-Commerce area and to particularly use the World-Wide Web as a powerful source for research in this subject. Students should be aware that apart from the conventional business, IT and marketing journals, there are many online journals and websites covering the latest developments in electronic marketing and electronic commerce.

A list of e-commerce Industry news websites and resources can be found on iLearn.

**Technology Used and Required**

This unit:

- Uses iLearn
- Uses Blackboard Collaborate (e-Learning software) to conduct the weekly live online classes.
- Uses ‘normal’ software that is on your laptop or tablet (or is downloadable for free from the Web)
- Uses the normal web applications, standard programs and videos.

If you are having troubles, please contact the Lecturer.

**Unit Web Page**

The web page for this unit can be found at: http://www.handbook.mq.edu.au/2015/Units/PGUnit/BUS800

The course material is available on the learning management system (iLearn).

The web page for this unit can be found at: https://ilearn.mq.edu.au/login/MQ/

**Teaching and Learning Activities**

iLearn is the key e-learning platform for communication to students undertaking the online BUS800 E-Commerce Strategy unit.

You access iLearn via the Macquarie University website and log in using your student ID and password.

**The learning & teaching activities include:**

- Read and view the weekly learning materials (lecture material, video viewing, readings, links to articles).
- Participate in the weekly online class discussions.
- Participate in the weekly live online sessions (via Collaborate).
• Research materials for the discussions, report and project.
• Studying for the final exam.

**Assessment Items:**

• Presentation and discussion on weekly seminar topics and case studies.
• Developing an E-Commerce Business Plan
• Completing a Final Exam

Communication with Students/Lecturer will be conducted online through iLearn.

This includes:

• Posting messages
• Posting comments/discussion items
• Accessing lecture material, videos, articles
• Submitting Assignments
• Conducting the Final Exam
• Accessing Grades and Marks

A live online classroom will be held every week. Details of the day and time will be forwarded to the students before Week 1 commences.

The Lecturer will post audio and video recordings on iLearn of all the lecture topics for downloading, listening and viewing.

**Unit Schedule**

- Participate in the live online session  
- Participate in the online class discussions  
- Submit report |
|          | Legal and Privacy Issues in E-Commerce | |
Learning and Teaching Activities

Discipline Knowledge and Skills
Our postgraduates will be able to demonstrate a significantly enhanced depth and breadth of knowledge, scholarly understanding, and specific subject content knowledge in their chosen fields.

Critical, Analytical and Integrative Thinking
Our postgraduates will be capable of utilising and reflecting on prior knowledge and experience, of applying higher level critical thinking skills, and of integrating and synthesising learning and knowledge from a range of sources and environments. A characteristic of this form of thinking is the generation of new, professionally oriented knowledge through personal or group-based critique of practice and theory.

Research and Problem Solving Capability
Our postgraduates will be capable of systematic enquiry; able to use research skills to create new knowledge that can be applied to real world issues, or contribute to a field of study or practice to enhance society. They will be capable of creative questioning, problem finding and problem solving.

Effective Communication
Our postgraduates will be able to communicate effectively and convey their views to different social, cultural, and professional audiences. They will be able to use a variety of technologically supported media to communicate with empathy using a range of written, spoken or visual formats.

Capable of Professional and Personal Judgment and Initiative
Our postgraduates will demonstrate a high standard of discernment and common sense in their professional and personal judgment. They will have the ability to make informed choices and decisions that reflect both the nature of their professional work and their personal perspectives.

Policies and Procedures
Macquarie University policies and procedures are accessible from Policy Central. Students should be aware of the following policies in particular with regard to Learning and Teaching:

Academic Honesty Policy http://mq.edu.au/policy/docs/academic_honesty/policy.html

Disruption to Studies Policy http://www.mq.edu.au/policy/docs/disruption_studies/policy.html The Disruption to Studies Policy is effective from March 3 2014 and replaces the Special Consideration Policy.

In addition, a number of other policies can be found in the Learning and Teaching Category of Policy Central.

**Student Code of Conduct**

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: https://students.mq.edu.au/support/student_conduct/

**Results**

Results shown in *iLearn*, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit ask.mq.edu.au.

**Research and Practise:**

This unit uses research from external sources.

This unit gives you practice in applying research findings in your assignments.

**Student Support**

Macquarie University provides a range of support services for students. For details, visit http://students.mq.edu.au/support/

**Learning Skills**

Learning Skills (mq.edu.au/learningskills) provides academic writing resources and study strategies to improve your marks and take control of your study.

- Workshops
- StudyWise
- Academic Integrity Module for Students
- Ask a Learning Adviser

**Student Enquiry Service**

For all student enquiries, visit Student Connect at ask.mq.edu.au

**Equity Support**

Students with a disability are encouraged to contact the Disability Service who can provide appropriate help with any issues that arise during their studies.
IT Help
For help with University computer systems and technology, visit http://informatics.mq.edu.au/help.

When using the University's IT, you must adhere to the Acceptable Use Policy. The policy applies to all who connect to the MQ network including students.

Graduate Capabilities

PG - Discipline Knowledge and Skills
Our postgraduates will be able to demonstrate a significantly enhanced depth and breadth of knowledge, scholarly understanding, and specific subject content knowledge in their chosen fields.

This graduate capability is supported by:

Learning outcomes

- Identify the concepts and approaches applied to e-commerce within organisations and Computer-Mediated Environments (CME’s)
- Identify contemporary and emerging skills and capabilities required for E-Commerce in the digital age
- Identify the infrastructures that contribute to current and emerging E-Commerce frameworks, models and philosophy
- Identify the latest e-commerce philosophies and practice based on Web 2.0, and Mobile Commerce
- Explain the methodologies to explore and develop insights and strategic conversation on new and emerging e-commerce technologies, products and services

Assessment tasks

- 1. Report & Participation
- 2. Assignment
- 3. Final Examination

Research and Practice

This unit gives you practice in applying research findings in your assignments and projects.

This unit gives you opportunities to conduct your own research and apply it in your assessment items.
Studying Intensive Mode

Intensive Mode

A 6 week online course which offers flexibility and relevance to your future business career. You can learn with other students using digital technologies at any time, anywhere.

The course

The most interesting part of the BUS800 course is that it is designed and delivered using the latest online learning technologies, and you are participating in activities with other students. Also, the content is updated every semester, which reflects the ongoing developing of this topic. From past students' comments, learning online is far more active, when compared to the traditional classroom setting. The online live sessions will provide you with the latest materials, discussions, and case studies, so you will be well-equipped to apply this knowledge in your chosen career.

An intense experience for students

- The unit will be intense as 13 weeks' work is covered in half the time.
- It's important to “hit the ground running” and start working on assignments today.

An intense experience for staff

The unit will also be intense for the teaching staff

We’re in this together

- “We are in this together”
- The teaching staff will be matching the effort and enthusiasm you put into the unit.

We can do it!

I'm confident in your ability and commitment to successfully completing the unit. The teaching staff are here to help you to complete the unit successfully!
