Unit description
The overarching aim of this unit is to examine the implications of diversity in family values and the value of family across a range of contexts. Over the course of the unit, we will consider the role of socio-cultural, economic and political contexts in shaping family life and family values in the 21st century. Drawing on a variety of resources, including diverse media, academic publications and reflections on personal experiences, we will explore changing family lives and the extent to which traditional, largely Western-based, images of ‘family’ life reflect contemporary experiences and practices of families and children in Australia and abroad.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://students.mq.edu.au/important-dates
