Co-badged status

Unit description
This unit is concerned with the relevance of historical experience to the problems confronting developing countries today; economic and social factors affecting the development process; population and economic development; education, human capital and development; income distribution and poverty; agriculture modernisation and growth; urban-rural dichotomy; the relationship between equality and development; and trade, aid and development. The unit is also likely to be useful to non-economics (eg, sociology, anthropology, philosophy) students.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

- Understand the main measures and theories of economic development
- Understand the role of markets and other institutions in economic development
- Develop analytical skills relevant to the assessment of these different theories and models of economic development, including drawing out the predictions and implications of economic models and making inferences from empirical data
Search, access and examine the main sources of economic and social data relevant to economic development

Apply the knowledge and skills acquired to the study of the main forces sustaining and limiting economic development and to evaluation of policy interventions

### Assessment Tasks

<td>Day of Seminar</td>
</tr>
<tr>
<td>Class Test 2</td>
<td>60%</td>
<td>Week 13 - 1 June 2015</td>
</tr>
</tbody>
</table>

#### Class Test 1

**Due: 16 March, 2014**

**Weighting: 10%**

Class test 1 will be held during your normal lecture time in the first hour of **Week 4 (16 March, 2015)**. The test will account for 10 % of the total marks used to assess your grade for the course. In this test you will be asked to answer a question that requires you to write a short essay and make some numerical calculations based on the material covered in the first three weeks of the course. This assessment will be used as an early low risk diagnostic of content related and generic skills. Feedback will be provided within 14 days of the test.

Attendance at the test is **compulsory**. If you fail to attend the test you will be awarded a **zero** mark. The only exception to not completing the test is because of documented illness or unavoidable disruption. In these circumstances you may wish to consult the University’s Disruption to Studies policy:

If a student satisfies the Disruption to Studies policy they will be required to complete a supplementary assessment task and this could take the form of an oral task.

On successful completion you will be able to:

- Understand the main measures and theories of economic development
Essay
Due: 4 May 2015
Weighting: 15%

This part of the assessment involves students undertaking an individual research project. This project will be a maximum of 1500 words (excluding tables, diagrams and reference list) and is due on Monday 4 MAY 2015. The essay is to be submitted in the lecture on that day. No late essays will be accepted. If an essay is submitted late it will receive a mark of zero (0) with the only exception being because of documented illness or unavoidable disruption. In these circumstances you may wish to consult the University’s Disruption to Studies policy:

If a student satisfies the Disruption to Studies policy they will be required to complete a supplementary assessment task and this could take the form of an oral task.

In the evaluation of the written work the following factors will be taken into account.

- The standard displayed in English expression and sentence construction and the level attained in the written articulation of ideas
- The ability to exhibit critical analysis in the subject area.
- The ability to develop ideas in a logical or sequential fashion.

A separate document detailing the Essay topic is available on the iLearn web page for this unit.

On successful completion you will be able to:

- Understand the main measures and theories of economic development
- Understand the role of markets and other institutions in economic development
- Develop analytical skills relevant to the assessment of these different theories and models of economic development, including drawing out the predictions and implications of economic models and making inferences from empirical data
- Apply the knowledge and skills acquired to the study of the main forces sustaining and limiting economic development and to evaluation of policy interventions

Seminar Presentation and Paper
Due: Day of Seminar
Weighting: 15%

Students will be allocated to seminar topics during the lecture in week 1. Seminars start in week 5 and run in the third hour of the weeks in which a seminar is scheduled. There will be 6-9
seminars held during the semester, with the exact number determined by the number of students enrolled.

A separate document detailing the seminar topics is available on the unit the web page.

The only exception to not presenting at your allocated seminar is because of documented illness or unavoidable disruption. In these circumstances you may wish to consult the University’s Disruption to Studies policy.

If a student satisfies the Disruption to Studies policy they will be required to complete a supplementary assessment task and this could take the form of an oral task.

On successful completion you will be able to:

- Understand the main measures and theories of economic development
- Understand the role of markets and other institutions in economic development
- Develop analytical skills relevant to the assessment of these different theories and models of economic development, including drawing out the predictions and implications of economic models and making inferences from empirical data
- Apply the knowledge and skills acquired to the study of the main forces sustaining and limiting economic development and to evaluation of policy interventions

Class Test 2

Due: Week 13 - 1 June 2015
Weighting: 60%

A two hour closed book class test will be held in class in week 13 on 1 June, 2015. All lecture topics are examinable. Students are required to answer three long answer questions from a choice of five questions.

You are expected to present yourself for the class test in week 13.

The only exception to not completing the test is because of documented illness or unavoidable disruption. In these circumstances you may wish to consult the University’s Disruption to Studies policy.

If a student satisfies the Disruption to Studies policy they will be required to complete a supplementary assessment task and this could take the form of an oral task.

On successful completion you will be able to:
• Understand the main measures and theories of economic development
• Understand the role of markets and other institutions in economic development
• Search, access and examine the main sources of economic and social data relevant to economic development
• Apply the knowledge and skills acquired to the study of the main forces sustaining and limiting economic development and to evaluation of policy interventions

Delivery and Resources

Classes: The subject will be presented face to face, every Monday 6-9 PM, Room: E4B 308, via a two hour lecture and a one hour seminar presentation (on selected weeks only).

Timetable information is also available at: www.timetables.mq.edu.au

Other reading materials will be indicated on the lecture slides on the unit website.

The teaching strategy in ECON857 recognises that students learn independently and assume responsibility for the learning process. The teaching philosophy is articulated as follows:

Lectures – large group learning (2 hour each teaching week)

Lectures are intended to provide an overview and where relevant a critical review of important topics in development economics.

Independent learning – learning by doing (about 6-9 hours each teaching week)

ECON857 relies heavily on independent learning where students read the relevant key references, and annotate and revise the lecture notes in the light of the key references.

Seminars – presentations (1 hour on nine teaching weeks)

Depending on the number of enrolled students seminars are either presented by groups of students or by students individually. This gives students the opportunity to develop their (i) communication skills (ii) research skills and where possible (iii) the ability to work in a team context.

The teaching materials will be available from the unit web page. In order to download materials students will need software that allows them to open pdf documents.

Students will also need access to a non-programmable calculator for the in-class test.

## Policies and Procedures

Macquarie University policies and procedures are accessible from [Policy Central](http://mq.edu.au/policy/docs/academic_honesty/policy.html). Students should be aware of the following policies in particular with regard to Learning and Teaching:

Disruption to Studies Policy  http://www.mq.edu.au/policy/docs/disruption_studies/policy.html The Disruption to Studies Policy is effective from March 3 2014 and replaces the Special Consideration Policy.

In addition, a number of other policies can be found in the Learning and Teaching Category of Policy Central.

**Student Code of Conduct**

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct:  https://students.mq.edu.au/support/student_conduct/

**Results**

Results shown in *iLearn*, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit ask.mq.edu.au.

**Student Support**

Macquarie University provides a range of support services for students. For details, visit  http://students.mq.edu.au/support/

**Learning Skills**

Learning Skills  (mq.edu.au/learningskills) provides academic writing resources and study strategies to improve your marks and take control of your study.

- **Workshops**
- **StudyWise**
- **Academic Integrity Module for Students**
- **Ask a Learning Adviser**

**Student Services and Support**

Students with a disability are encouraged to contact the Disability Service who can provide appropriate help with any issues that arise during their studies.

**Student Enquiries**

For all student enquiries, visit Student Connect at  ask.mq.edu.au

**IT Help**

For help with University computer systems and technology, visit  http://informatics.mq.edu.au/help/.

When using the University's IT, you must adhere to the Acceptable Use Policy. The policy
Graduate Capabilities

PG - Discipline Knowledge and Skills

Our postgraduates will be able to demonstrate a significantly enhanced depth and breadth of knowledge, scholarly understanding, and specific subject content knowledge in their chosen fields.

This graduate capability is supported by:

Learning outcomes

- Understand the main measures and theories of economic development
- Understand the role of markets and other institutions in economic development
- Develop analytical skills relevant to the assessment of these different theories and models of economic development, including drawing out the predictions and implications of economic models and making inferences from empirical data
- Search, access and examine the main sources of economic and social data relevant to economic development
- Apply the knowledge and skills acquired to the study of the main forces sustaining and limiting economic development and to evaluation of policy interventions

Assessment tasks

- Class Test 1
- Essay
- Seminar Presentation and Paper
- Class Test 2

PG - Critical, Analytical and Integrative Thinking

Our postgraduates will be capable of utilising and reflecting on prior knowledge and experience, of applying higher level critical thinking skills, and of integrating and synthesising learning and knowledge from a range of sources and environments. A characteristic of this form of thinking is the generation of new, professionally oriented knowledge through personal or group-based critique of practice and theory.

This graduate capability is supported by:

Learning outcomes

- Understand the main measures and theories of economic development
- Understand the role of markets and other institutions in economic development
- Develop analytical skills relevant to the assessment of these different theories and
models of economic development, including drawing out the predictions and implications of economic models and making inferences from empirical data

• Search, access and examine the main sources of economic and social data relevant to economic development

• Apply the knowledge and skills acquired to the study of the main forces sustaining and limiting economic development and to evaluation of policy interventions

Assessment tasks

• Class Test 1
• Essay
• Seminar Presentation and Paper
• Class Test 2

PG - Effective Communication

Our postgraduates will be able to communicate effectively and convey their views to different social, cultural, and professional audiences. They will be able to use a variety of technologically supported media to communicate with empathy using a range of written, spoken or visual formats.

This graduate capability is supported by:

Learning outcomes

• Understand the main measures and theories of economic development
• Develop analytical skills relevant to the assessment of these different theories and models of economic development, including drawing out the predictions and implications of economic models and making inferences from empirical data
• Search, access and examine the main sources of economic and social data relevant to economic development
• Apply the knowledge and skills acquired to the study of the main forces sustaining and limiting economic development and to evaluation of policy interventions

Assessment tasks

• Essay
• Seminar Presentation and Paper
