| Unit description     | This unit examines the broad macro issues related to managing people at work. The scope of inquiry extends to the macroeconomic environment including the economic, political, social, and institutional context. The unit is approached from a stakeholder perspective, emphasising the way that management, labour and the state, along with other key stakeholders, act, both separately and together, to structure the employment relationship. Topics include the regulatory framework, bargaining structures and processes, conflict and co-operation, and the impact of change and reform directions. |

**General Assessment Information**

Important:

It is the responsibility of students to view their marks for each within session assessment on iLearn within 20 working days of posting. If there are any discrepancies, students must contact the unit convenor immediately. Failure to do so will mean that queries received after the release of final results regarding assessment marks (not including the final exam mark) will not be addressed.

**Late submissions:** A student who submits a late assessment without approval for an extension will be penalised by 10% per day, i.e. marks equal to 10% of the assignment’s weight will be deducted as a ‘flat rate’ from the mark awarded. For example, for an assignment that has a possible highest mark of 40, the student’s awarded mark will have four marks deducted for each late day. Saturday and Sunday each count as one day. Assessments will not be accepted after the marked assessment task has been returned to students who submitted the task on time.
