**Unit description**
This unit incorporates theoretical and practical aspects of teaching and includes a compulsory professional experience field component in a prior-to-school setting. The professional experience includes a series of observation days and a 15 day teaching block. This unit builds on earlier reflective practice units, particularly in the areas of curriculum decision making, refinement of teaching strategies, and documentation of children's learning. One component of this unit is study of the work of educators in Reggio Emilia, which is analysed in terms of implications for Australian early childhood contexts. Another focus is an extension of earlier studies of ways to counter bias and a consideration of socially just educational contexts.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at [https://students.mq.edu.au/important-dates](https://students.mq.edu.au/important-dates)
Learning Outcomes

1. refine your teaching practices through the influence of the work of educators in Reggio Emilia and the current debates on early childhood curriculum and pedagogy
2. recognise the importance of socially just practices in educational settings, by actively seeking ways to recognise and connect with children’s families, valuing community and cultural contexts
3. develop confidence in justifying professional decisions in programming effectively for individuals within group contexts in relation to current research-based literature
4. take substantial responsibility for your own learning and deal with issues for decision-making in early childhood settings

**Graduate Capabilities**

**Engaged and Ethical Local and Global citizens**

As local citizens our graduates will be aware of indigenous perspectives and of the nation's historical context. They will be engaged with the challenges of contemporary society and with knowledge and ideas. We want our graduates to have respect for diversity, to be open-minded, sensitive to others and inclusive, and to be open to other cultures and perspectives: they should have a level of cultural literacy. Our graduates should be aware of disadvantage and social justice, and be willing to participate to help create a wiser and better society.

This graduate capability is supported by:

**Learning outcome**

- recognise the importance of socially just practices in educational settings, by actively seeking ways to recognise and connect with children’s families, valuing community and cultural contexts

**Assessment tasks**

- Assignment 1
- Assignment 2
- Assignment 4
Socially and Environmentally Active and Responsible

We want our graduates to be aware of and have respect for self and others; to be able to work with others as a leader and a team player; to have a sense of connectedness with others and country; and to have a sense of mutual obligation. Our graduates should be informed and active participants in moving society towards sustainability.

This graduate capability is supported by:

**Assessment task**

- Assignment 2

Capable of Professional and Personal Judgement and Initiative

We want our graduates to have emotional intelligence and sound interpersonal skills and to demonstrate discernment and common sense in their professional and personal judgement. They will exercise initiative as needed. They will be capable of risk assessment, and be able to handle ambiguity and complexity, enabling them to be adaptable in diverse and changing environments.

This graduate capability is supported by:

**Learning outcomes**

- develop confidence in justifying professional decisions in programming effectively for individuals within group contexts in relation to current research-based literature
- take substantial responsibility for your own learning and deal with issues for decision-making in early childhood settings

**Assessment tasks**

- Assignment 1
- Assignment 2
- Assignment 3
- Assignment 4

Commitment to Continuous Learning

Our graduates will have enquiring minds and a literate curiosity which will lead them to pursue knowledge for its own sake. They will continue to pursue learning in their careers and as they participate in the world. They will be capable of reflecting on their experiences and relationships with others and the environment, learning from them, and growing - personally, professionally and socially.

This graduate capability is supported by:

**Learning outcome**

- take substantial responsibility for your own learning and deal with issues for decision-
making in early childhood settings

**Assessment tasks**

- Assignment 2
- Assignment 3
- Assignment 4

**Discipline Specific Knowledge and Skills**

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

**Learning outcome**

- refine your teaching practices through the influence of the work of educators in Reggio Emilia and the current debates on early childhood curriculum and pedagogy

**Assessment tasks**

- Assignment 1
- Assignment 2
- Assignment 3
- Assignment 4

**Critical, Analytical and Integrative Thinking**

We want our graduates to be capable of reasoning, questioning and analysing, and to integrate and synthesise learning and knowledge from a range of sources and environments; to be able to critique constraints, assumptions and limitations; to be able to think independently and systemically in relation to scholarly activity, in the workplace, and in the world. We want them to have a level of scientific and information technology literacy.

This graduate capability is supported by:

**Learning outcome**

- develop confidence in justifying professional decisions in programming effectively for individuals within group contexts in relation to current research-based literature

**Assessment tasks**

- Assignment 1
Problem Solving and Research Capability

Our graduates should be capable of researching; of analysing, and interpreting and assessing data and information in various forms; of drawing connections across fields of knowledge; and they should be able to relate their knowledge to complex situations at work or in the world, in order to diagnose and solve problems. We want them to have the confidence to take the initiative in doing so, within an awareness of their own limitations.

This graduate capability is supported by:

**Learning outcomes**

- develop confidence in justifying professional decisions in programming effectively for individuals within group contexts in relation to current research-based literature
- take substantial responsibility for your own learning and deal with issues for decision-making in early childhood settings

**Assessment tasks**

- Assignment 1
- Assignment 2

Creative and Innovative

Our graduates will also be capable of creative thinking and of creating knowledge. They will be imaginative and open to experience and capable of innovation at work and in the community. We want them to be engaged in applying their critical, creative thinking.

This graduate capability is supported by:

**Assessment tasks**

- Assignment 2
- Assignment 3
- Assignment 4

Effective Communication

We want to develop in our students the ability to communicate and convey their views in forms effective with different audiences. We want our graduates to take with them the capability to read, listen, question, gather and evaluate information resources in a variety of formats, assess, write clearly, speak effectively, and to use visual communication and communication technologies as appropriate.

This graduate capability is supported by:
Learning outcomes
