Unit description
This unit is designed for students to pursue study in an area that is of particular interest to them. The content of the unit, including teaching and learning activities, will be agreed between the student and the unit convenor (or delegate) prior to enrolment in the unit. The content and delivery of the unit will be in accordance with relevant University policies. The outcomes and graduate capabilities developed in the unit will vary but will be appropriate to the advanced level of the unit. As well as having significant knowledge of the area to be studied the student is expected to be capable of self-directed learning. Polished proposals with full reference of no less than 15 pages will be considered if a suitable supervisor has been nominated and publication potential identified.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

Investigate a marketing research topic (to be confirmed by the supervisor)
Provide a thorough literature review with a clear establishment of a gap in the academic literature
Conduct research and analyse primary and/or secondary data
Provide a Discussion and Conclusion with clear implications for research and practice

Graduate Capabilities

Discipline Specific Knowledge and Skills
Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

Learning outcomes
- Investigate a marketing research topic (to be confirmed by the supervisor)
- Provide a thorough literature review with a clear establishment of a gap in the academic literature
- Provide a Discussion and Conclusion with clear implications for research and practice

Assessment task
- Research report

Critical, Analytical and Integrative Thinking
We want our graduates to be capable of reasoning, questioning and analysing, and to integrate and synthesise learning and knowledge from a range of sources and environments; to be able to critique constraints, assumptions and limitations; to be able to think independently and systemically in relation to scholarly activity, in the workplace, and in the world. We want them to have a level of scientific and information technology literacy.

This graduate capability is supported by:

Learning outcomes
- Investigate a marketing research topic (to be confirmed by the supervisor)
- Provide a thorough literature review with a clear establishment of a gap in the academic literature
- Conduct research and analyse primary and/or secondary data
• Provide a Discussion and Conclusion with clear implications for research and practice

Assessment task
• Research report

Problem Solving and Research Capability
Our graduates should be capable of researching; of analysing, and interpreting and assessing data and information in various forms; of drawing connections across fields of knowledge; and they should be able to relate their knowledge to complex situations at work or in the world, in order to diagnose and solve problems. We want them to have the confidence to take the initiative in doing so, within an awareness of their own limitations.

This graduate capability is supported by:

Learning outcomes
• Conduct research and analyse primary and/or secondary data
• Provide a Discussion and Conclusion with clear implications for research and practice

Assessment task
• Research report
