Unit description
Weapons of Mass Destruction represent a security challenge that stubbornly refuses to go away. A product of the Cold War, despite numerous attempts to control them through international treaty regimes, the threat of WMD remains very real. This unit will introduce students to the range of weapons situated across the WMD spectrum; Chemical, Biological, Nuclear, Radiological and Enhanced-effect Weapons. The course will situate WMD, and the threats posed by them, within both state and non-state based contexts. Through the investigation of international arms control treaty regimes to an examination of counter proliferation efforts, this unit will encourage you to conceptualize WMD within a range of security frameworks and thus consider their role in the post 9-11 security environment, also linking to wider areas of your study.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

Explain and describe the history and current state of weapons of mass destruction proliferation, risk and control measures, within a wider security studies related theoretical and conceptual base.
Recognize and assess threat and risk scenarios within which WMD might exist.
Critically evaluate and analyse a range of scholarly literature relating to WMD in order to
subsequently conceptualise related risks, threats and scenarios.
Construct written and oral arguments relating to WMD research and deliver them to both
specialist and non-specialist audiences.
Present sustained, coherent and logical arguments, demonstrating engagement with
literature.
Displays consideration of ethical implications of the proliferation and control of Weapons
of Mass Destruction through the presentation of balanced analyses.

**General Assessment Information**

**GENERAL INFORMATION**

All assessment tasks will be submitted, marked and returned electronically through iLearn.
Assessment tasks must be submitted either as a PDF or MS Word document by the due date.
All assessment tasks will automatically be processed through Turnitin during the submission
process. During this process your submission will undergo electronic detection for plagiarism.
By submitting your assignment through Turnitin, you are agreeing the work is entirely your own,
except where you have given fully documented references to the work of others; that you
understand that using the work of another person without acknowledging the source is an act of
plagiarism, which is regarded seriously by the University. You also agree that the work has not
previously, in part or in whole, been submitted for assessment in any formal course of study.

**REFERENCING**

Referencing is to follow the Oxford Style system, using the traditional format, inclusive of Latin
citations. Please make sure you follow the guidelines for the referencing style closely.

**EXTENSIONS**

The granting of extensions of up to one week is at the discretion of the unit convenor. Any
requests for extensions must be made in writing before the due date for the submission of the
assessment task. Extensions beyond one week are subject to formal special consideration
procedures detailed under 'Policy and Procedures' in the Unit Guide.

*Detailed information about individual assessment tasks, including the submission portals for
each assessment item can be found in the itemised tabs below.*

**LATE SUBMISSION OF ASSESSMENT TASKS**

There is a penalty for the late submission of assessment tasks. If an assignment is submitted
late it will initially be marked as if it had been submitted on time. However 5% of the weighting
allocated for the assignment will then be deducted from the mark the student initially achieves in
the assessment task for each day it is late. For example, if the assessment task's weighting is
20, 1.00 mark per day will be deducted from the initial mark given per day it is late. That is, a task

### Introductory Essay

**Due:** 15/03/2015  
**Weighting:** 25%

Detailed information about this assessment task can be found on the iLearn site for this unit.

On successful completion you will be able to:

- Explain and describe the history and current state of weapons of mass destruction proliferation, risk and control measures, within a wider security studies related theoretical and conceptual base.
- Construct written and oral arguments relating to WMD research and deliver them to both specialist and non-specialist audiences.

### Research Essay

**Due:** 26/04/2015  
**Weighting:** 50%

Detailed information about this assessment task can be found on the iLearn site for this unit.

On successful completion you will be able to:

- Explain and describe the history and current state of weapons of mass destruction proliferation, risk and control measures, within a wider security studies related theoretical and conceptual base.
- Recognize and assess threat and risk scenarios within which WMD might exist.
- Critically evaluate and analyse a range of scholarly literature relating to WMD in order to subsequently conceptualise related risks, threats and scenarios.
- Construct written and oral arguments relating to WMD research and deliver them to both specialist and non-specialist audiences.
• Present sustained, coherent and logical arguments, demonstrating engagement with literature.
• Displays consideration of ethical implications of the proliferation and control of Weapons of Mass Destruction through the presentation of balanced analyses.

Analytical Brief
Due: 24/05/2015
Weighting: 25%

Detailed information about this assessment task can be found on the iLearn site for this unit.

On successful completion you will be able to:
• Recognize and assess threat and risk scenarios within which WMD might exist.
• Construct written and oral arguments relating to WMD research and deliver them to both specialist and non-specialist audiences.
• Present sustained, coherent and logical arguments, demonstrating engagement with literature.
• Displays consideration of ethical implications of the proliferation and control of Weapons of Mass Destruction through the presentation of balanced analyses.

Delivery and Resources

UNIT REQUIREMENTS AND EXPECTATIONS
• You should spend an average of at least 12 hours per week on this unit. This includes listening to pre-recorded lectures prior to seminar discussions and reading weekly required readings detailed in iLearn.
• Internal students are expected to attend all seminar sessions and external students are expected to contribute to on-line discussions.
• Students are required to submit all major assessment tasks in order to pass the unit.

REQUIRED READINGS
• The citations for all the required readings for this unit are available to enrolled students through the unit iLearn site, and at Macquarie University’s Library EReserve site. Electronic copies of required readings may be accessed at the EReserve site.

TECHNOLOGY USED AND REQUIRED
• Personal PC and internet access are essential for this unit. Basic computer skills and skills in word processing are also a requirement.
• This unit has an online presence. Login is via: https://ilearn.mq.edu.au/
Students are required to have regular access to a computer and the internet. Mobile devices alone are not sufficient.

For technical support go to: http://mq.edu.au/about_us/offices_and_units/informatics/help

For student quick guides on the use of iLearn go to: http://mq.edu.au/iLearn/student_info/guides.htm

SUBMITTING ASSESSMENT TASKS

• All assessment tasks are to be submitted, marked and returned electronically. This will only happen through the unit iLearn site.

• Assessment tasks must be submitted either as a PDF or MS word document by the due date.

• Most assessment tasks will be subject to a ‘TurnitIn’ review as an automatic part of the submission process.

• The granting of extensions of up to one week are at the discretion of the unit convener. Any requests for extensions must be made in writing before the due date for the submission of the assessment task. Extensions beyond one week are subject to the university’s Disruptions Policy (http://www.mq.edu.au/policy/docs/disruption_studies/policy.html#purpose).

LATE SUBMISSION OF ASSESSMENT TASKS

• If an assignment is submitted late, 5% of the available mark will be deducted for each day (including weekends) the paper is late.

• For example, if a paper is worth 20 marks, 1 mark will be deducted from the grade given for each day that it is late (i.e. a student given 15/20 who submitted 4 days late will lose 4 marks = 11/20).

• The same principle applies if an extension is granted and the assignment is submitted later than the amended date.

WORD LIMITS FOR ASSESSMENT TASKS

• Stated word limits do not include references, bibliography, or title page.

• Word limits can generally deviate by 10% either over or under the stated figure.

• If the number of words exceeds the limit by more than 10%, then penalties will apply. These penalties are 5% of he awarded mark for every 100 words over the word limit. If a paper is 300 words over, for instance, it will lose 3 x 5% = 15% of the total mark awarded for the assignment. This percentage is taken off the total mark, i.e. if a paper was graded at a credit (65%) and was 300 words over, it would be reduced by 15 marks to a pass (50%).
• The application of this penalty is at the discretion of the course convener.

REASSESSMENT OF ASSIGNMENTS DURING THE SEMESTER

Macquarie University operates a Grade Appeal Policy in cases where students feel their work was graded inappropriately (http://mq.edu.au/policy/docs/gradeappeal/policy.html). This process involves all assignments submitted for that unit being reassessed. However, in exceptional cases students may request that a single piece of work is reassessed.

Unit Schedule

PICT905: Weapons of Mass Destruction: Proliferation and Control

Week 1: Introduction/Unit Overview and Objectives; Key Definitions and Concepts.
Week 2: History of WMD Proliferation
Week 3: From the Truman Doctrine to Contemporary Proliferation and Control Measures
Week 4: WMD - The Nuclear and Radioactive Dimension
Week 5: WMD – The Chemical and Biological Dimension
Week 6: WMD – The Non-State Dimension & Emergency Management
Week 7: Case Study – AQ Khan and PSI
Week 8: Case Study – Iran, Israel and the debate on rationality of proliferation
Week 9: Case Study – North Korea: Nuclear Diplomacy
Week 10: Case Study – The Subcontinent and the Nuclear Arms Race
Week 11: Case Study – Syria and the use of Chemical Weapons
Week 12: Practitioner Insights into the Control of WMD
Week 13: Success Stories and The Future

Learning and Teaching Activities

Attendance and Participation

Internal students are expected to attend weekly seminars and contribute to discussions in a prepared, informed and professional manner. Attendance at a minimum of 10 seminars is expected by all students. External students are expected to contribute to weekly discussion forums and engage with their peers in an informed and professional manner. Contribute to a minimum of 10 discussion forums is expected by all students.

Policies and Procedures

Macquarie University policies and procedures are accessible from Policy Central. Students should be aware of the following policies in particular with regard to Learning and Teaching:
Academic Honesty Policy http://mq.edu.au/policy/docs/academic_honesty/policy.html
Disruption to Studies Policy http://www.mq.edu.au/policy/docs/disruption_studies/policy.html The Disruption to Studies Policy is effective from March 3 2014 and replaces the Special Consideration Policy.

In addition, a number of other policies can be found in the Learning and Teaching Category of Policy Central.

**Student Code of Conduct**

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: https://students.mq.edu.au/support/student_conduct/

**Results**

Results shown in iLearn, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit ask.mq.edu.au.

**Student Support**

Macquarie University provides a range of support services for students. For details, visit http://students.mq.edu.au/support/

**Learning Skills**

Learning Skills (mq.edu.au/learningskills) provides academic writing resources and study strategies to improve your marks and take control of your study.

- Workshops
- StudyWise
- Academic Integrity Module for Students
- Ask a Learning Adviser

**Student Services and Support**

Students with a disability are encouraged to contact the Disability Service who can provide appropriate help with any issues that arise during their studies.

**Student Enquiries**

For all student enquiries, visit Student Connect at ask.mq.edu.au
IT Help
For help with University computer systems and technology, visit http://informatics.mq.edu.au/help.

When using the University's IT, you must adhere to the Acceptable Use Policy. The policy applies to all who connect to the MQ network including students.

Graduate Capabilities
PG - Capable of Professional and Personal Judgment and Initiative
Our postgraduates will demonstrate a high standard of discernment and common sense in their professional and personal judgment. They will have the ability to make informed choices and decisions that reflect both the nature of their professional work and their personal perspectives.

This graduate capability is supported by:

Learning outcomes
- Recognize and assess threat and risk scenarios within which WMD might exist.
- Present sustained, coherent and logical arguments, demonstrating engagement with literature.
- Displays consideration of ethical implications of the proliferation and control of Weapons of Mass Destruction through the presentation of balanced analyses.

Assessment task
- Analytical Brief

Learning and teaching activity
- Internal students are expected to attend weekly seminars and contribute to discussions in a prepared, informed and professional manner. Attendance at a minimum of 10 seminars is expected by all students. External students are expected to contribute to weekly discussion forums and engage with their peers in an informed and professional manner. Contribute to a minimum of 10 discussion forums is expected by all students.

PG - Discipline Knowledge and Skills
Our postgraduates will be able to demonstrate a significantly enhanced depth and breadth of knowledge, scholarly understanding, and specific subject content knowledge in their chosen fields.

This graduate capability is supported by:
Learning outcomes

• Explain and describe the history and current state of weapons of mass destruction proliferation, risk and control measures, within a wider security studies related theoretical and conceptual base.
• Recognize and assess threat and risk scenarios within which WMD might exist.
• Critically evaluate and analyse a range of scholarly literature relating to WMD in order to subsequently conceptualise related risks, threats and scenarios.
• Displays consideration of ethical implications of the proliferation and control of Weapons of Mass Destruction through the presentation of balanced analyses.

Assessment tasks

• Introductory Essay
• Research Essay

PG - Critical, Analytical and Integrative Thinking

Our postgraduates will be capable of utilising and reflecting on prior knowledge and experience, of applying higher level critical thinking skills, and of integrating and synthesising learning and knowledge from a range of sources and environments. A characteristic of this form of thinking is the generation of new, professionally oriented knowledge through personal or group-based critique of practice and theory.

This graduate capability is supported by:

Learning outcomes

• Explain and describe the history and current state of weapons of mass destruction proliferation, risk and control measures, within a wider security studies related theoretical and conceptual base.
• Recognize and assess threat and risk scenarios within which WMD might exist.
• Critically evaluate and analyse a range of scholarly literature relating to WMD in order to subsequently conceptualise related risks, threats and scenarios.
• Construct written and oral arguments relating to WMD research and deliver them to both specialist and non-specialist audiences.
• Present sustained, coherent and logical arguments, demonstrating engagement with literature.
• Displays consideration of ethical implications of the proliferation and control of Weapons of Mass Destruction through the presentation of balanced analyses.

Assessment tasks

• Research Essay
PG - Research and Problem Solving Capability

Our postgraduates will be capable of systematic enquiry; able to use research skills to create new knowledge that can be applied to real world issues, or contribute to a field of study or practice to enhance society. They will be capable of creative questioning, problem finding and problem solving.

This graduate capability is supported by:

**Learning outcomes**

- Explain and describe the history and current state of weapons of mass destruction proliferation, risk and control measures, within a wider security studies related theoretical and conceptual base.
- Recognize and assess threat and risk scenarios within which WMD might exist.
- Critically evaluate and analyse a range of scholarly literature relating to WMD in order to subsequently conceptualise related risks, threats and scenarios.
- Construct written and oral arguments relating to WMD research and deliver them to both specialist and non-specialist audiences.
- Present sustained, coherent and logical arguments, demonstrating engagement with literature.

**Assessment tasks**

- Research Essay
- Analytical Brief

PG - Effective Communication

Our postgraduates will be able to communicate effectively and convey their views to different social, cultural, and professional audiences. They will be able to use a variety of technologically supported media to communicate with empathy using a range of written, spoken or visual formats.

This graduate capability is supported by:

**Learning outcomes**

- Recognize and assess threat and risk scenarios within which WMD might exist.
- Critically evaluate and analyse a range of scholarly literature relating to WMD in order to subsequently conceptualise related risks, threats and scenarios.
- Construct written and oral arguments relating to WMD research and deliver them to both specialist and non-specialist audiences.
- Present sustained, coherent and logical arguments, demonstrating engagement with

Contribute to a minimum of 10 discussion forums is expected by all students.

PG - Engaged and Responsible, Active and Ethical Citizens

Our postgraduates will be ethically aware and capable of confident transformative action in relation to their professional responsibilities and the wider community. They will have a sense of connectedness with others and country and have a sense of mutual obligation. They will be able to appreciate the impact of their professional roles for social justice and inclusion related to national and global issues.

This graduate capability is supported by:
