Unit description
International business includes all business activities that involve business organisations from two or more countries. Although international business has many similarities with domestic business, there are significant differences which this unit examines. At an international level, managers must accommodate a highly complex environment. Key variables in this environment include: different currencies; different government policies concerning trade; subsidies and controls on foreign investment; as well as the variables that exist in any domestic environment such as competition, costs and customer characteristics. Topics examined in the unit include: forms of international business; the political and cultural context of international business; theories of international trade and investment; regional economic integration; and an introduction to multilateral institutions such as the IMF, the World Bank group and the World Trade Organisation.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://students.mq.edu.au/important-dates

Assessed coursework

Due: In tutorials
Weighting: 30%

Submission: A hard copy must be submitted to your tutor in class at the time of your tutorial for each week of assessment.

Extension: No extensions for this assessment task will be granted except for cases in which an application for Disruption to Studies is made and approved

Penalties: No extensions will be granted. There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission – 20% penalty). This penalty does not apply for cases in which an application for disruption of studies is made and approved. No submission will be accepted after solutions have been posted.

What is required to complete the assessment satisfactorily:

The assessed coursework is made up of three weeks of tutorial work of which the best two weeks is assessed (each worth 15%). The two components total 30% of your final grade.

Each student will be expected to submit coursework throughout the unit. The format for the assessment will be a combination of short answer and essays. However, the specific format will differ from week to week. Over the semester, 3 random weeks of coursework will be collected, of which the students best 2 weeks will be assessed ie 2 out of the 3 collected weeks will be assessed. Each of the two assessed weeks will account for 15% of your total grade, totalling 30% overall. Students should be aware that some coursework details will be made available during lectures in the prior week. It is expected that each student is prepared for and attends the tutorial. The three selected weeks of assessment (of which the best two will be selected) will be chosen at random.

In the case of a student missing a tutorial they may apply for disruption to studies.
