Unit description
Building on MUS206, this unit enables singers to explore various contemporary music practices of vocal recording and performance at an advanced level. This includes further development of the creative skills introduced in the intermediate level of vocal studies. Vocal processing and technological applications on the singing voice are explored. The unit provides students with experience in a recording studio, singing in an audition component and structuring individual performance showcases. Students will be allocated studio time to record. With a focus on the singer as artist in lectures and practical tutorials, students engage in critical listening and thinking.

• Maintain vocal health and vocal care strategies

**Delivery and Resources**

It is the responsibility of students to ensure that backing tracks do not breach copyright legislation, are obtained legally and are not pirated copies. Please note, you may not repeat a song sung in a previous vocal studies unit for any of the assessment tasks. Each assessment task requires a different song/s.

For all written work, students are required to use APA referencing system for all in-text referencing and reference lists. If students refer to recorded material then a discography must also be included.

Students should bring bottled room temperature water to all lectures and tutorials.

Students are requested to advise their tutor of any vocal health issues.

Each week students are required to attend a 1 hour lecture and a 1 hour tutorial. Tutorials begin in Week 2.

Late penalties for assessments are 10% per day, including weekends. Disruption to Studies can only be considered when applied for online and supported with appropriate documentation. Please refer to the MQ Disruption to Studies Policy.
