Corequisites

Co-badged status

Unit description
This unit focuses on the development of infants and young children from birth to three years. Theories and research, which attempt to describe and explain early childhood development and individual differences, are critically examined. Implications for the prenatal, cognitive, social/emotional, language and motor development during the first three years of life are examined. Students are also encouraged to make links between the content covered and observations and experiences with infants and very young children.
Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://students.mq.edu.au/important-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

Develop a thorough knowledge of theory, current research and issues in child development.
Develop a thorough knowledge of relevant child development theories and the role of these theories in practical application.
Understand the many and varying influences important to the development of a child.
Understand the biological underpinnings of development.
Understand the whole child by appreciating the links between different areas of development.
Understand individual differences in development.
Appreciate cultural, historical and contextual influences on development.

General Assessment Information
IEC Assessment Presentation & Submission Guidelines
Please follow these guidelines when you submit each assignment:

* Allow a left and right-hand margin of at least 2cm in all assignments.
* Please type all assignments using 12-point font and 1.5 spacing.
* All assessments must be submitted through turnitin in .doc or .pdf format for submission.
* It is the onus of the student to ensure that all assessments are successfully submitted through turnitin.
* Faculty assignment cover sheets are NOT required for this unit.

Draft Submissions & Turnitin Originality Reports

* Students may use Turnitin’s Originality Report as a learning tool to improve their academic writing if this option is made available in the unit.
* Students are strongly encouraged to upload a draft copy of each assessment to Turnitin at least one week prior to the due date to obtain an Originality Report.
* The Originality Report provides students with a similarity index that may indicate if plagiarism has occurred. Students will be able to make amendments to their drafts prior to their final submission on the due date.
Generally, one Originality Report is generated every 24 hours up to the due date.

* Generally, one Originality Report is generated every 24 hours up to the due date.

When preparing your assignments, it is essential that:

* Students must retain a copy of all assignments before submission, and retain the copy until your final grade for the subject has been received;

* Marks will be deducted if you submit your assessment late (refer to the ‘late assessments’ section below for more details);

* Unless there are exceptional circumstances, no assessment will be accepted after the date that the assessment has been returned to other students.

* If an assessment is considered to be below passing standard, another staff member on the unit will provide a second opinion. No failed assessment may be re-submitted.

Final Submissions

* Students are responsible for checking that their submission has been successful and has been submitted by the due date and time.

* Late submissions due to last minute technical difficulties will incur a lateness penalty.*

Late Assessments:

A deduction of 5% of the total possible mark allocated for that assessment would be made for each day or part day that assessment is late, weekends counting as two days. For example, if an assessment is worth 20 marks and you submit it 2 days late, you will have 2 marks (2 x 5% of 20 marks) subtracted from your awarded mark.

Extensions:

In extenuating circumstances, students may apply to the unit coordinator for an extension to the assessment due date. Reasons for the extension need to be documented through the Disruption to Studies form accessible through ask.mq.edu.au under "Disruption" and supported (e.g., a Professional Authority Form must be used in the case of illness). Note that:

* Students MUST speak with the unit coordinator prior to submitting their request through https://ask.mq.edu.au

* Extensions will only be granted in receipt of the completed form submitted through ask.mq.edu.au plus documentation.

* Emails are not appropriate means of extension requests.

* It is essential that you plan ahead and organise your study time effectively. Poor time management is not grounds for an extension.

* In the case of computer malfunction, a draft of your assignment may be requested. Please ensure that you print out a draft regularly, so that it is available for submission on request.

* Extensions are usually not granted on the due date.
**EC Academic Honesty Guidelines:**

All assignments should cite and provide full bibliographical details of all material that you have used to inform or support your ideas. Within the discipline of Early Childhood, students are required to use the American Psychological Association (APA) referencing procedures. Full details about how to cite and reference correctly can be found in Perrin (2015) and in the IEC Academic Honesty Handbook.

The following guide can be purchased from the Co-op Bookshop. This is a required text for Early Childhood students:

**Assessment Tasks**

<table>
<thead>
<tr>
<th>Name</th>
<th>Weighting</th>
<th>Due</th>
</tr>
</thead>
<tbody>
<tr>
<td>Quiz</td>
<td>7%</td>
<td>19 August</td>
</tr>
<tr>
<td>Major essay</td>
<td>45%</td>
<td>14 October</td>
</tr>
<tr>
<td>Research participation</td>
<td>3%</td>
<td>11 November</td>
</tr>
<tr>
<td>Final exam</td>
<td>45%</td>
<td>S2 exam period</td>
</tr>
</tbody>
</table>

**Quiz**

Due: **19 August**  
Weighting: **7%**

Multiple choice questions on content up to and including 4 August.

**Note:** The quizzes are an individual assessment task and **MUST be completed** by each student **individually**.

On successful completion you will be able to:

- Develop a thorough knowledge of theory, current research and issues in child development.
- Develop a thorough knowledge of relevant child development theories and the role of these theories in practical application.
- Understand the many and varying influences important to the development of a child.
- Understand the biological underpinnings of development.
- Understand the whole child by appreciating the links between different areas of development.
• Understand individual differences in development.
• Appreciate cultural, historical and contextual influences on development.

Major essay
Due: 14 October
Weighting: 45%

Your 1800 word essay will relate to a specific area of development.
Details of the essay will be provided on iLearn.

On successful completion you will be able to:
• Develop a thorough knowledge of theory, current research and issues in child development.
• Understand the many and varying influences important to the development of a child.
• Understand the biological underpinnings of development.
• Understand the whole child by appreciating the links between different areas of development.
• Understand individual differences in development.
• Appreciate cultural, historical and contextual influences on development.

Research participation
Due: 11 November
Weighting: 3%

During Session 2, you will see announcements for research you can participate in. The research relates to child development and your involvement will help you understand how research is conducted. Each project will be worth a number of points. You can complete as many points as you like and you can receive up to 3 points towards your final grade.

If you would prefer not to participate in research, you should submit a 800 word essay.

On successful completion you will be able to:
• Develop a thorough knowledge of theory, current research and issues in child development.
• Understand the many and varying influences important to the development of a child.

Final exam
Due: S2 exam period
Weighting: 45%
The exam is scheduled during the Session 2 Exam Period. Scheduling of the exam is outside of unit staff control. The University advises that students should withdraw from the unit if they cannot be available for some or all of the exam period.

The exam has a combination of multiple choice and short answer and essay questions taken from lectures and readings.

On successful completion you will be able to:

- Develop a thorough knowledge of theory, current research and issues in child development.
- Develop a thorough knowledge of relevant child development theories and the role of these theories in practical application.
- Understand the many and varying influences important to the development of a child.
- Understand the biological underpinnings of development.
- Understand the whole child by appreciating the links between different areas of development.
- Understand individual differences in development.
- Appreciate cultural, historical and contextual influences on development.

**Delivery and Resources**

**Early Childhood Relevant Documents**

The information in this Unit Guide must be read in conjunction with the following documents available for download from iLearn:

* EC Academic Honesty Handbook
* Unit Readings, Assessment Information

**Electronic Communication**

During semester time, staff may contact students using the following ways:

* Dialogue function on iLearn
* Official MQ Student Email Address

It is the student’s responsibility to check all electronic communication on a regular weekly basis.

**Early Childhood Unit Expectations**

* In order to be eligible for a passing grade, students must meet the following attendance requirements:
  * Internal Students: Participate in at least 80% of all tutorials – punctuality is expected.
  * External Students: Participate in on-campus sessions – punctuality is expected.
* Contribute to all online and tutorials tasks
* Students are expected to read weekly readings before attending tutorials
* Students are expected to listen/attend weekly lectures before attending tutorials
* All assessment tasks must be submitted

Teaching Methods

The content of the unit is delivered through a combination of lectures and tutorial tasks. There are **two lectures per week** and these are timetabled as follows:

**Wednesday 1pm and Thursday 9am.** All lectures will be recorded and available on iLearn via ECHO360.

**Internal students** will have a **2 hour tutorial each week** (on either Thursday or Friday). Internal students are expected to have listened to the relevant lecture prior to attending their tutorials each week. Tutorial tasks will require familiarity with the content covered in the lectures in order to fully participate in the tutorials. A tutorial workbook is available on iLearn - all students are expected to bring this with them their tutorial (either as hardcopy or electronic).

**External students** will complete the tutorial tasks during the **on campus days scheduled for 28th and 29th September**.

An assessment guide will be available from iLearn in Week 1. The assessment guide includes specific details of your assessment tasks.

Some lectures have been pre-recorded and will be available from iLearn before Week 1 and you should **listen to all the theories lectures before the first tutorial in week two**.

**Withdrawing from this UG Unit:** If you are considering withdrawing from this unit, please seek academic advice by writing to iec@mq.edu.au before doing so as this unit may be a co-requisite or prerequisite for units in the following semesters and may impact on your progression through the degree.

Unit Schedule

Lectures are Wednesday (1pm) & Thursday (9am) in Mason Theatre, E7B

Policies and Procedures

Macquarie University policies and procedures are accessible from Policy Central. Students should be aware of the following policies in particular with regard to Learning and Teaching:

In addition, a number of other policies can be found in the Learning and Teaching Category of Policy Central.

Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: [https://students.mq.edu.au/support/student_conduct/](https://students.mq.edu.au/support/student_conduct/)
Results
Results shown in iLearn, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit ask.mq.edu.au.

Student Support
Macquarie University provides a range of support services for students. For details, visit http://students.mq.edu.au/support/

Learning Skills
Learning Skills (mq.edu.au/learningskills) provides academic writing resources and study strategies to improve your marks and take control of your study.

- Workshops
- StudyWise
- Academic Integrity Module for Students
- Ask a Learning Adviser

Student Enquiry Service
For all student enquiries, visit Student Connect at ask.mq.edu.au

Equity Support
Students with a disability are encouraged to contact the Disability Service who can provide appropriate help with any issues that arise during their studies.

IT Help
For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.

When using the University's IT, you must adhere to the Acceptable Use of IT Resources Policy. The policy applies to all who connect to the MQ network including students.

Graduate Capabilities
Engaged and Ethical Local and Global citizens
As local citizens our graduates will be aware of indigenous perspectives and of the nation's historical context. They will be engaged with the challenges of contemporary society and with knowledge and ideas. We want our graduates to have respect for diversity, to be open-minded, sensitive to others and inclusive, and to be open to other cultures and perspectives: they should have a level of cultural literacy. Our graduates should be aware of disadvantage and social justice, and be willing to participate to help create a wiser and better society.

This graduate capability is supported by:
Learning outcomes

• Understand the many and varying influences important to the development of a child.
• Appreciate cultural, historical and contextual influences on development.

Assessment task

• Major essay

Socially and Environmentally Active and Responsible

We want our graduates to be aware of and have respect for self and others; to be able to work with others as a leader and a team player; to have a sense of connectedness with others and country; and to have a sense of mutual obligation. Our graduates should be informed and active participants in moving society towards sustainability.

This graduate capability is supported by:

Learning outcome

• Understand individual differences in development.

Assessment task

• Major essay

Capable of Professional and Personal Judgement and Initiative

We want our graduates to have emotional intelligence and sound interpersonal skills and to demonstrate discernment and common sense in their professional and personal judgement. They will exercise initiative as needed. They will be capable of risk assessment, and be able to handle ambiguity and complexity, enabling them to be adaptable in diverse and changing environments.

This graduate capability is supported by:

Learning outcomes

• Understand the many and varying influences important to the development of a child.
• Appreciate cultural, historical and contextual influences on development.

Assessment task

• Major essay

Commitment to Continuous Learning

Our graduates will have enquiring minds and a literate curiosity which will lead them to pursue knowledge for its own sake. They will continue to pursue learning in their careers and as they participate in the world. They will be capable of reflecting on their experiences and relationships with others and the environment, learning from them, and growing - personally, professionally and socially.
This graduate capability is supported by:

**Learning outcome**

- Develop a thorough knowledge of theory, current research and issues in child development.

**Assessment tasks**

- Major essay
- Research participation

**Discipline Specific Knowledge and Skills**

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

**Learning outcomes**

- Develop a thorough knowledge of theory, current research and issues in child development.
- Develop a thorough knowledge of relevant child development theories and the role of these theories in practical application.
- Understand the many and varying influences important to the development of a child.
- Understand the biological underpinnings of development.
- Understand the whole child by appreciating the links between different areas of development.
- Understand individual differences in development.
- Appreciate cultural, historical and contextual influences on development.

**Assessment tasks**

- Quiz
- Major essay
- Research participation
- Final exam

**Critical, Analytical and Integrative Thinking**

We want our graduates to be capable of reasoning, questioning and analysing, and to integrate
and synthesise learning and knowledge from a range of sources and environments; to be able to
critique constraints, assumptions and limitations; to be able to think independently and
systemically in relation to scholarly activity, in the workplace, and in the world. We want them to
have a level of scientific and information technology literacy.

This graduate capability is supported by:

**Learning outcomes**

- Develop a thorough knowledge of theory, current research and issues in child
development.
- Develop a thorough knowledge of relevant child development theories and the role of
these theories in practical application.
- Understand the many and varying influences important to the development of a child.
- Understand the biological underpinnings of development.
- Understand the whole child by appreciating the links between different areas of
development.
- Understand individual differences in development.
- Appreciate cultural, historical and contextual influences on development.

**Assessment tasks**

- Major essay
- Final exam

**Problem Solving and Research Capability**

Our graduates should be capable of researching; of analysing, and interpreting and assessing
data and information in various forms; of drawing connections across fields of knowledge; and
they should be able to relate their knowledge to complex situations at work or in the world, in
order to diagnose and solve problems. We want them to have the confidence to take the initiative
in doing so, within an awareness of their own limitations.

This graduate capability is supported by:

**Learning outcomes**

- Develop a thorough knowledge of theory, current research and issues in child
development.
- Understand the whole child by appreciating the links between different areas of
development.
- Appreciate cultural, historical and contextual influences on development.

**Assessment tasks**

- Major essay
Effective Communication

We want to develop in our students the ability to communicate and convey their views in forms effective with different audiences. We want our graduates to take with them the capability to read, listen, question, gather and evaluate information resources in a variety of formats, assess, write clearly, speak effectively, and to use visual communication and communication technologies as appropriate.

This graduate capability is supported by:

**Learning outcomes**

- Develop a thorough knowledge of theory, current research and issues in child development.
- Understand the biological underpinnings of development.
- Understand the whole child by appreciating the links between different areas of development.

**Assessment tasks**

- Major essay
- Final exam

**Textbook**

Note: It is also fine to use the 6th edition of Peterson (2014). *Looking forward through the lifespan. Developmental psychology.* Sydney: Pearson. Please do not buy another textbook if you already have this version.

IEC students use Perrin as their guide for APA style, so should have this book for other units. If you are not an IEC student, you may prefer to use a free online source for APA referencing. Recommended online sources are:

- http://libguides.mq.edu.au/Referencing
- https://owl.english.purdue.edu/owl/section/2/10/
