Unit description
The 800-level components of the Master of Research are not designed around units. The thesis together with four core research activities form a single coherent research unit based on individual research plans and will consists of the followings: 1. Research Frontiers 2: you will attend a number of department or faculty-run sessions and engage in a program of activities developing your knowledge of the sub-disciplinary field in which you want to situate your own research 2. Literature Review: you will attend sessions explaining how researchers in your field engage with previous research literature, and produce a draft of your own literature review for your thesis 3. Research Methods: with other students and led by academic staff, you will develop the research methods you will use in your research project 4. Research Planning: through a combination of group sessions and individual work with your supervision team, you will develop a plan for a large scale research project, part of which will be completed in the MRes 5. Thesis: you will complete a small research project, and write it up in a short thesis of about 20,000 words.

Graduate Capabilities
PG - Critical, Analytical and Integrative Thinking
Our postgraduates will be capable of utilising and reflecting on prior knowledge and experience, of applying higher level critical thinking skills, and of integrating and synthesising learning and knowledge from a range of sources and environments. A characteristic of this form of thinking is the generation of new, professionally oriented knowledge through personal or group-based critique of practice and theory.

This graduate capability is supported by:

Learning outcomes

• 1. Advanced research skills with enhanced capacity to critically evaluate, integrate and associate academic debates
• 2. To be able to produce a sophisticated and original thesis
• 3. Master key concepts and theories in the field

Assessment tasks

• Research Frontiers 2
• Thesis

PG - Capable of Professional and Personal Judgment and Initiative
Our postgraduates will demonstrate a high standard of discernment and common sense in their professional and personal judgment. They will have the ability to make informed choices and decisions that reflect both the nature of their professional work and their personal perspectives.

This graduate capability is supported by:
Learning outcomes

• 1. Advanced research skills with enhanced capacity to critically evaluate, integrate and associate academic debates
• 2. To be able to produce a sophisticated and original thesis
• 3. Master key concepts and theories in the field

Assessment tasks

• Research Frontiers 2
• Thesis

PG - Discipline Knowledge and Skills

Our postgraduates will be able to demonstrate a significantly enhanced depth and breadth of knowledge, scholarly understanding, and specific subject content knowledge in their chosen fields.

This graduate capability is supported by:

Learning outcomes

• 1. Advanced research skills with enhanced capacity to critically evaluate, integrate and associate academic debates
• 2. To be able to produce a sophisticated and original thesis
• 3. Master key concepts and theories in the field

Assessment tasks

• Research Frontiers 2
• Thesis

PG - Research and Problem Solving Capability

Our postgraduates will be capable of systematic enquiry; able to use research skills to create new knowledge that can be applied to real world issues, or contribute to a field of study or practice to enhance society. They will be capable of creative questioning, problem finding and problem solving.

This graduate capability is supported by:

Learning outcomes

• 1. Advanced research skills with enhanced capacity to critically evaluate, integrate and associate academic debates
• 2. To be able to produce a sophisticated and original thesis
