Unit Schedule
Unit description

Croatia has been exposed to many other cultures during the course of its history. This makes it a very intriguing country for students, researchers and all others interested in history, art, architecture, and culture in general. Many cultural monuments in Croatia display a variety of artistic and architectural styles and periods; many present-day towns and cities in Croatia can be categorized as museums; many ancient Roman Catholic churches symbolize the cultural heritage of the Croatian people, and display the beauty and historical value of the region; Croatia’s music has a long and rich tradition; Croatia is world famous for its naïve art, etc. But what did Croatia actually contribute to the world to earn the place on its cultural map? Croatia’s cultural differentia specifica will be examined in the course of a semester.

Unit objectives

The objective of this course is to introduce the student to the extraordinary rich cultural heritage of Croatia and Croatians.

In the course of study students will learn that Croatia is a medium-size European country with a special place in the cultural geography of Europe. The position of Croatia is quite exceptional because it is the point of intersection of four culture zones: Central European to the north, Mediterranean to the south, as well as West European and East European.

Within a wider area of the Croatian lands several centres have developed in history: civilizational, national and political (Roman, Byzantine, Venetian, German, Hungarian, Turkish) as well as religious (Catholic, Orthodox, Islamic). In the division of Europe, brought about by the schism of Christianity and the deep Islamic-Turkish penetration in Europe exactly on the Croatian territory, Croatia turned to the western circle, constituting at the same time its eastern border (antemurale) and protecting thus its own political and cultural identity.
