Learning Outcomes
On successful completion of this unit, you will be able to:

Listening skills: Students will be able to understand extended speech and follow even complex lines of argument provided the topic is reasonably familiar; understand general spoken language at normal speech rate; extract specific information and follow the significant points in an oral utterance; understand most TV news and short radio interviews; understand the majority of films in standard dialect.

Reading skills: Students will be able to read articles and reports concerned with contemporary problems; identify and extract information from various sources. Students will have developed strategies to understand the meaning of unfamiliar words from the
context and understand frequently used set expressions.

Speaking skills: Students will be able to express themselves spontaneously without much obvious searching for expressions; use language flexibly and effectively for social purposes; engage verbally with increasingly complex subjects; produce an oral presentation in order to demonstrate their knowledge about a set topic; use an increasingly wide range of vocabulary, set expressions and idioms and structure their speech logically.

Writing skills: Students will be able to write a clear, well-structured text, interpreting or expressing points of view at some length; write about increasingly complex subjects; write in a style appropriate to the reader in mind; express and justify opinions and give arguments supporting their point of view; explain and compare ideas presented to them in a text; use appropriate devices to ensure the smooth flow of a piece of writing most of the time; produce a text with few grammatical mistakes that would substantially interfere with the reader’s understanding.
