Unit description
This unit applies finance theory to the context of operational decision-making and risk management in banking and financial intermediation. The major decision areas for banking management are covered within a regulatory and corporate responsibility framework. The major global financial risks of financial intermediation considered are interest rate risk, credit risk, liquidity risk, foreign exchange risk and market risk.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

Be able to explain and use the techniques of financial management to analyse the performance of bank and non-bank financial institutions.

Be able to apply analytical skills to the interpretation of risks confronted by financial institutions

Be able to apply relevant techniques to measure and manage those risks

Be able to determine and critically evaluate the implications of strategic decisions for the profitability, liquidity, balance sheet structure and capital adequacy of financial
### General Assessment Information

To be eligible to pass this Unit, a pass is required in the final examination.

It is the responsibility of students to view their marks for each within session assessment on iLearn within 20 working days of posting. If there are any discrepancies, students must contact the unit convenor immediately. Failure to do so will mean that queries received after the release of final results regarding assessment marks (not including the final exam mark) will not be addressed.

### Essay

**Due:** 31 March - in class (6-9pm)

**Weighting:** 20%

In-class hand-written essay

On successful completion you will be able to:

- Be able to apply analytical skills to the interpretation of risks confronted by financial institutions
- Be able to determine and critically evaluate the implications of strategic decisions for the profitability, liquidity, balance sheet structure and capital adequacy of financial institutions

### Mid semester test

**Due:** 28 April - in class (6-7pm)

**Weighting:** 20%

Multiple choice test

On successful completion you will be able to:
• Be able to explain and use the techniques of financial management to analyse the performance of bank and non-bank financial institutions.
• Be able to apply analytical skills to the interpretation of risks confronted by financial institutions
• Be able to apply relevant techniques to measure and manage those risks

**Student presentation to class**

_Due: 26 May 2016 in class_

_Weighting: 10%_

_In-class presentation_

On successful completion you will be able to:
• Be able to determine and critically evaluate the implications of strategic decisions for the profitability, liquidity, balance sheet structure and capital adequacy of financial institutions

**Exam**

_Due: Final exam period_

_Weighting: 50%_

_Final (closed book) exam consisting of multiple choice and essay style questions._

On successful completion you will be able to:
• Be able to explain and use the techniques of financial management to analyse the performance of bank and non-bank financial institutions.
• Be able to apply analytical skills to the interpretation of risks confronted by financial institutions
• Be able to apply relevant techniques to measure and manage those risks
• Be able to determine and critically evaluate the implications of strategic decisions for the profitability, liquidity, balance sheet structure and capital adequacy of financial institutions

**Delivery and Resources**

_AFIN803 - Banking and Financial Intermediation_

**UNIT OVERVIEW**

Banking and finance institutions today have evolved into complex organisms that play a centrally important role in the modern economy. The management of financial corporations is a highly specialised task with many unique aspects. And the success (or failure) of banks carries the
potential for significant ramifications in the markets for goods, services and labour across the wider macroeconomy.

This course:

- outlines the structure of the Australian finance industry
- studies the nature of the banking system and the issues it raises
- analyses the risks of banking and how to manage them effectively
- examines banking theory, especially performance and productivity
- examines the role financial institutions can play in a country's development
- puts these in the context of official supervision and surveillance

The course is designed to equip those who will work in banking, securities or government. The learning outcomes focus on the application of finance techniques to analyse and manage risks in financial institutions. Outcomes integrate knowledge from other core units in the Master of Banking and Finance. Upon completion you will be equipped to demonstrate an advanced level of theoretical knowledge relevant to financial and banking systems, including regulations and procedures affecting the sector, capital budgeting practices, financial asset valuation techniques, portfolio theory, risk and risk management. You will be able to critically evaluate and appraise complex banking and financial problems.

ENQUIRIES

Students can receive help with study skills, lecture content, essay resources, assessment, etc. If you have general enquiries about the course, or specific enquiries about course content, assessment etc please contact the lecturer. In the first instance, it is best to email and we will seek to reply promptly. If urgent, leave a message with your name and telephone number so that staff can call back.

CLASS TIMETABLE (EVENING STREAM) Students attend three classroom hours per week, comprising lectures using a mix of theory and practical applications, delivered in the following session: Thursday 6-9 p.m. Students are expected to attend the full quota of lectures; all the material covered in class is examinable.

BEFORE EACH CLASS: Download the lecture slides for that week from iLearn, prior to the session, print and bring with you to class.

Policies and Procedures

Macquarie University policies and procedures are accessible from Policy Central. Students should be aware of the following policies in particular with regard to Learning and Teaching:

In addition, a number of other policies can be found in the Learning and Teaching Category of Policy Central.

**Student Code of Conduct**

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: [https://students.mq.edu.au/support/student_conduct/](https://students.mq.edu.au/support/student_conduct/)

**Results**

Results shown in *iLearn*, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit ask.mq.edu.au.

**Supplementary Examinations**

*Further information regarding supplementary exams, including dates, is available here* [http://www.businessandeconomics.mq.edu.au/current_students/undergraduate/how_do_i/special_consideration](http://www.businessandeconomics.mq.edu.au/current_students/undergraduate/how_do_i/special_consideration)

**Student Support**

Macquarie University provides a range of support services for students. For details, visit [http://students.mq.edu.au/support/](http://students.mq.edu.au/support/)

**Learning Skills**

Learning Skills ([mq.edu.au/learningskills](http://mq.edu.au/learningskills)) provides academic writing resources and study strategies to improve your marks and take control of your study.

• Workshops

• StudyWise
Student Services and Support
Students with a disability are encouraged to contact the Disability Service who can provide appropriate help with any issues that arise during their studies.

Student Enquiries
For all student enquiries, visit Student Connect at ask.mq.edu.au

IT Help
For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/. When using the University's IT, you must adhere to the Acceptable Use of IT Resources Policy. The policy applies to all who connect to the MQ network including students.

Graduate Capabilities
PG - Discipline Knowledge and Skills
Our postgraduates will be able to demonstrate a significantly enhanced depth and breadth of knowledge, scholarly understanding, and specific subject content knowledge in their chosen fields.

This graduate capability is supported by:

Learning outcomes

• Be able to explain and use the techniques of financial management to analyse the performance of bank and non-bank financial institutions.
• Be able to apply analytical skills to the interpretation of risks confronted by financial institutions
• Be able to apply relevant techniques to measure and manage those risks

Assessment tasks

• Essay
• Mid semester test
• Exam

PG - Critical, Analytical and Integrative Thinking
Our postgraduates will be capable of utilising and reflecting on prior knowledge and experience, of applying higher level critical thinking skills, and of integrating and synthesising learning and knowledge from a range of sources and environments. A characteristic of this form of thinking is
the generation of new, professionally oriented knowledge through personal or group-based critique of practice and theory.

This graduate capability is supported by:

**Learning outcomes**

- Be able to explain and use the techniques of financial management to analyse the performance of bank and non-bank financial institutions.
- Be able to apply analytical skills to the interpretation of risks confronted by financial institutions.
- Be able to apply relevant techniques to measure and manage those risks.
- Be able to determine and critically evaluate the implications of strategic decisions for the profitability, liquidity, balance sheet structure and capital adequacy of financial institutions.

**Assessment tasks**

- Essay
- Mid semester test
- Student presentation to class
- Exam

**PG - Effective Communication**

Our postgraduates will be able to communicate effectively and convey their views to different social, cultural, and professional audiences. They will be able to use a variety of technologically supported media to communicate with empathy using a range of written, spoken or visual formats.

This graduate capability is supported by:

**Learning outcome**

- Be able to determine and critically evaluate the implications of strategic decisions for the profitability, liquidity, balance sheet structure and capital adequacy of financial institutions.

**Assessment task**

- Student presentation to class
