Unit description

This unit explores the historical and social contexts in which Australian education occurs. The perspectives that inform the unit are predominantly sociological and historical, but the disciplines of cultural studies, philosophy, politics and economics also have a strong influence. The unit begins with an overview of the development of education in Australia by discussing a number of key moments in the history of Australian education. The unit gives emphasis to issues of social justice and social disadvantage and also considers these matters in relation to contemporary issues in education: media, technology and community.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

LO1: Develop an understanding of the key historical and social issues in Australian education, and identify links to contemporary situations and events.

LO2: Be able to find relevant information about social and historical events in education from a range of sources including the library, newspapers and electronic sources.

LO3: Develop skills in the analysis and critical review of academic and media material, and anticipate how this understanding could be applied.

General Assessment Information

SUBMISSION REQUIREMENTS

Please follow these guidelines when you submit each assignment:

- Allow a left and right-hand margin of at least 2cm in all assignments.
- Please type all assignments using 12-point font and 1.5 line spacing.
- All assessments must be submitted through Turnitin on the unit's iLearn website in .doc or .pdf format for submission.
- It is the onus of the student to ensure that all assessments are successfully submitted through Turnitin.
- Faculty assignment cover sheets and reiterating the task are NOT required.

Draft Submissions & Turnitin Originality Reports

- Students may use Turnitin's Originality Report as a learning tool to improve their academic writing.
- Students are strongly encouraged to upload a draft copy of each assessment to Turnitin at least one week prior to the due date to obtain an Originality Report.
- The Originality Report provides students with a similarity index that may indicate if plagiarism has occurred. Students will be able to make amendments to their drafts prior to their final submission on the due date.
- Generally, one Originality Report is generated every 24 hours up to the due date.

When preparing your assignments, it is essential that:

- Students should regularly save a copy of all assignments before submission.
- Unless there are exceptional circumstances, or an approved extension (see section below), no assessment will be accepted after the date that the assessment has been returned to other students.

- If an assessment is considered to be below passing standard, another staff member on the unit will provide a second opinion. No failed assessment may be re-submitted.

Final Submissions

- Students are responsible for checking that their submission has been successful, and has been submitted by the due date and time.
- Late submissions due to last minute technical difficulties may incur a lateness penalty.
- The digital receipt issued by Turnitin may be requested as evidence of your submission of the assignment.

EXTENSION REQUESTS AND LATE PENALTIES

Applications for extensions must be made via AskMQ at <https://ask.mq.edu.au/> as a "Disruption to Studies" request **before** the submission date. Students who experience a disruption to their studies through ill-health or misadventure are able to apply for this request. ***Extensions can only be granted if they meet the Disruption to Studies policy and are submitted via ask.mq.edu.au.*** This will ensure consistency in the consideration of such requests is maintained.

In general, there should be no need for extensions except through illness or misadventure that would be categorised as unavoidable disruption according to the University definition of same, and currently available at:

<https://students.mq.edu.au/study/my-study-program/special-consideration/disruption-to-studies>

Late submissions without extension will receive a penalty of 5% reduction of the total possible mark for each day late (including weekends and public holidays). You are reminded that submitting even just 1 day late could be the difference between passing and failing a unit. Late penalties are applied by Unit Convenors after tasks are assessed.

No assessable work will be accepted after the return/release of marked work on the same topic. If a student is still permitted to submit on the basis of unavoidable disruption, an alternative topic may be set.

Students should keep an electronic file of all assessments. Claims regarding "lost" assessments cannot be made if the file cannot be produced. It is also advisable to keep an electronic file of all drafts and the final submission on a USB untouched/unopened after submission. This can be used to demonstrate easily that the assessment has not been amended after the submission date.

FEEDBACK ON ASSIGNMENTS, REASSESSMENTS AND RE-SUBMISSIONS

Written feedback is given to students via rubrics when assignments are returned through Turnitin. If you wish to have these comments explained please contact the marker in the first instance. Students can seek to have work remarked only if they consider there has been a procedural error: a disagreement with academic judgement is not sufficient grounds for a remark. This is similar to the grounds for appealing a grade.

If you wish to have your work reassessed please advise the Unit Convenors, in writing, outlining

your reasons for requesting the reassessment within seven days of the result being released. The Convenor will then access the version submitted to Turnitin.

Re-submission of assignments is not available. Students are advised to clarify requirements for assignments in tutorials, during on-campus days or with the Unit Convenors.

Changes from Previous Offering

Changes from the 2016 version

A number of changes have been made for the 2017 version of this unit. The weighting of assessments was changed to reflect the breath of the topics addressed and effort required, including the following enhancements:

- The task formerly called Academic Critical Review has been replaced with a Reflective Response as an early low risk assessment;
- The individual component of the group task has been increased to constitute 50% of the mark for this assessment;
- The final exam paper of forty multiple choice questions has been replaced with eight short answer questions; and
- Assessment rubrics and marking descriptors have been revised to reflect the new assessment structure.
