Unit description

This unit explores some of the cutting edge research questions at the forefront of cognitive science and the philosophy of cognition. The unit explores philosophical problems that arise from the core disciplines of cognitive psychology, cognitive neuropsychology, linguistics, neuroscience and AI and robotics. Topics to be covered may include: embodied and distributed cognition; disorders of the mind; folk psychology and theory of mind; the use of fMRI to understand brain function; is the brain massively modular; can cognitive science explain consciousness, or the self?

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

1. Acquire a coherent and advanced knowledge of the methodology, concepts and

arguments of cognitive science and philosophy. 2. Articulate, clearly and coherently, philosophical arguments in written and oral form at an advanced level. 3. Analyse and critically evaluate philosophical arguments at an advanced level. 4. Demonstrate advanced knowledge of course content and develop a coherent and extended philosophical argument in a research essay.

General Assessment Information

All tasks will be assessed using the criteria listed under the description of each task, such as: critical analysis, written expression (etc). Each assessment will be graded using a rubric that will be available in grademark For example:

1. Weekly questions on reading: With this task you will be assessed on your understanding of the material as demonstrated by the correct selection of answers in a multiple choice quiz.
- 2.+ 3. Assessment criteria for this essay are detailed in the rubric provided on ilearn.
4. Assessment criteria include the accuracy of the paper's engagement with the material, the quality of its explanation of how that material relates to the theme of the course, and the technical and stylistic quality of the paper.

A detailed rubric for each task will be supplied on iLearn and Grademark.
