Unit description

This unit is the foundation for studies in intelligence and provides students with a thorough understanding of the long-term history of intelligence, looking at specific themes broken down by political, economic, social, technological and military categories. Students will consider the effects and contributions of certain technological advances on the intelligence profession, both from a collection and an analysis perspective. The unit will provide a broader perspective on the intelligence environment, including a deeper look at the future of intelligence. All enrolment queries should be directed to Open Universities Australia (OUA): see www.open.edu.au

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.open.edu.au/student-admin-and-support/key-dates/>

Learning Outcomes

On successful completion of this unit, you will be able to:

Critique contemporary literature relating to the concepts of intelligence

Demonstrate higher order communication skills including the ability to formulate sustained, persuasive and original written and oral arguments

Model academic research skills, particularly the ability to select sources appropriately to integrate knowledge from diverse sources, to critically evaluate its significance and

relevance, synthesise material and present findings logically, rationally and lucidly

Evaluate aspects of the intelligence community environment and its history

Explore and critically assess case studies involving development of intelligence practice

Assessment Tasks

Name	Weighting	Hurdle	Due
<u>Journal Article Critique (AT1)</u>	20%	No	19 Mar 2017 by 11.59pm
<u>Engagement Quizzes (AT2)</u>	30%	No	Due End of Week, Modules 2-11
<u>Constructive Engagement (AT3)</u>	10%	No	Weekly, Modules 2-13
<u>Research Paper (AT4)</u>	40%	No	21 May 2017 by 11.59pm

Journal Article Critique (AT1)

Due: **19 Mar 2017 by 11.59pm**

Weighting: **20%**

1500-Word Critique of a Recent Journal Article (published since 2010)

A detailed marking matrix is available to all enrolled students on the unit iLearn site. Marking criteria in the marking matrix includes evaluation of topic comprehension, argument, critique structure & organisation, written expression, and referencing.

On successful completion you will be able to:

- Critique contemporary literature relating to the concepts of intelligence
- Demonstrate higher order communication skills including the ability to formulate sustained, persuasive and original written and oral arguments
- Model academic research skills, particularly the ability to select sources appropriately to integrate knowledge from diverse sources, to critically evaluate its significance and relevance, synthesise material and present findings logically, rationally and lucidly
- Evaluate aspects of the intelligence community environment and its history

Engagement Quizzes (AT2)

Due: **Due End of Week, Modules 2-11**

Weighting: **30%**

Engagement Quizzes - Covering Subject Matter in Weeks 2-11

No marking matrix required.

On successful completion you will be able to:

- Critique contemporary literature relating to the concepts of intelligence
- Model academic research skills, particularly the ability to select sources appropriately to integrate knowledge from diverse sources, to critically evaluate its significance and relevance, synthesise material and present findings logically, rationally and lucidly
- Evaluate aspects of the intelligence community environment and its history
- Explore and critically assess case studies involving development of intelligence practice

Constructive Engagement (AT3)

Due: **Weekly, Modules 2-13**

Weighting: **10%**

Online and in-class discussion seminar participation. Ten weeks of participation required between Weeks 2 and 13, either in-class for internal students or online for external students.

No marking matrix required.

On successful completion you will be able to:

- Critique contemporary literature relating to the concepts of intelligence
- Demonstrate higher order communication skills including the ability to formulate sustained, persuasive and original written and oral arguments
- Model academic research skills, particularly the ability to select sources appropriately to integrate knowledge from diverse sources, to critically evaluate its significance and relevance, synthesise material and present findings logically, rationally and lucidly
- Evaluate aspects of the intelligence community environment and its history
- Explore and critically assess case studies involving development of intelligence practice

Research Paper (AT4)

Due: **21 May 2017 by 11.59pm**

Weighting: **40%**

3000-Word Research Paper

A detailed marking matrix is available to all enrolled students on the unit iLearn site. Marking criteria in the marking matrix includes evaluation of topic comprehension, argument, research paper structure & organisation, written expression, and referencing.

On successful completion you will be able to:

- Critique contemporary literature relating to the concepts of intelligence
- Demonstrate higher order communication skills including the ability to formulate sustained, persuasive and original written and oral arguments

- Model academic research skills, particularly the ability to select sources appropriately to integrate knowledge from diverse sources, to critically evaluate its significance and relevance, synthesise material and present findings logically, rationally and lucidly
- Evaluate aspects of the intelligence community environment and its history
- Explore and critically assess case studies involving development of intelligence practice

Delivery and Resources

DELIVERY AND RESOURCES

UNIT REQUIREMENTS AND EXPECTATIONS

- You should spend an average of 12 hours per week on this unit. This includes listening to lectures prior to seminar or tutorial, reading weekly required materials as detailed in iLearn, participating in iLearn discussion forums and preparing assessments.
- Internal students are expected to attend all seminar or tutorial sessions, and external students are expected to make significant contributions to on-line activities.
- In most cases students are required to attempt and submit all major assessment tasks in order to pass the unit.

REQUIRED READINGS

- The citations for all the required readings for this unit are available to enrolled students through the unit iLearn site, and at Macquarie University's library site. Electronic copies of required readings may be accessed through the library or will be made available by other means.

TECHNOLOGY USED AND REQUIRED

- Computer and internet access are essential for this unit. Basic computer skills and skills in word processing are also a requirement.
- This unit has an online presence. Login is via: <https://ilearn.mq.edu.au/>
- Students are required to have regular access to a computer and the internet. Mobile devices alone are not sufficient.
- Information about IT used at Macquarie University is available at http://students.mq.edu.au/it_services/

SUBMITTING ASSESSMENT TASKS

- All text-based assessment tasks are to be submitted, marked and returned electronically. This will only happen through the unit iLearn site.
- Assessment tasks must be submitted as a MS word document by the due date.
- Most assessment tasks will be subject to a 'Turnitin' review as an automatic part of the

submission process.

- The granting of extensions is subject to the university's Disruptions Policy. Extensions will not in normal circumstances be granted by unit conveners or tutors, but must be lodged through Disruption to Study: http://www.students.mq.edu.au/student_admin/manage_your_study_program/disruption_to_studies/.

LATE SUBMISSION OF ASSESSMENT TASKS

- If an assignment is submitted late, 5% of the available mark will be deducted for each day (including weekends) the paper is late.
- For example, if a paper is worth 20 marks, 1 mark will be deducted from the grade given for each day that it is late (i.e. a student given 15/20 who submitted 4 days late will lose 4 marks = 11/20).
- The same principle applies if an extension is granted and the assignment is submitted later than the amended date.

WORD LIMITS FOR ASSESSMENT TASKS

- Stated word limits include footnotes and footnoted references, but not bibliography, or title page.
- Word limits can generally deviate by 10% either over or under the stated figure.
- If the number of words exceeds the limit by more than 10%, then penalties will apply. These penalties are 5% of the awarded mark for every 100 words over the word limit. If a paper is 300 words over, for instance, it will lose $3 \times 5\% = 15\%$ of the total mark awarded for the assignment. This percentage is taken off the total mark, i.e. if a paper was graded at a credit (65%) and was 300 words over, it would be reduced by 15 marks to a pass (50%).
- The application of this penalty is at the discretion of the course convener.

REASSESSMENT OF ASSIGNMENTS DURING THE SEMESTER

- Macquarie University operates a Grade Appeal Policy in cases where students feel their work was graded inappropriately: <http://www.mq.edu.au/policy/docs/gradeappeal/policy.html>
- Conformably to the Grade Appeal Policy, individual works are not subject to regrading.

STAFF AVAILABILITY

- Department staff will endeavor to answer student enquiries in a timely manner. However, emails or iLearn messages will not usually be answered over the weekend or public holiday period.

- Students are encouraged to read the Unit Guide and look at instructions posted on the iLearn site before sending email requests to staff.

Unit Schedule

Module 1: Course Intro: Themes from History & Technological Enablement

Module 2: Ancient-to-Modern History - Part I (Pre-Industrial Revolution)

Module 3: Ancient-to-Modern History - Part II (Pre-WW II)

Module 4: World War II - Part I

Module 5: World War II - Part II

Module 6: The Cold War – Part I

Module 7: The Cold War – Part II

Module 8: Post-Cold War

Module 9: 9/11 & Post 9/11

Module 10: Today – Where we are - Part I

Module 11: Today - Where we are - Part II

Module 12: Environment – Future Themes & Broadening Intelligence

Module 13: Evolution of Modern Intelligence Architectures

Policies and Procedures

Late Submission - applies unless otherwise stated elsewhere in the unit guide

Unless a Special Consideration request has been submitted and approved, (a) a penalty for lateness will apply – two (2) marks out of 100 will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted more than seven (7) days (incl. weekends) after the original submission deadline. No late submissions will be accepted for timed assessments – e.g. quizzes, online tests.

Extension Request

Special Consideration Policy and Procedure
(<https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policies/special-consideration>)

The University recognises that students may experience events or conditions that

adversely affect their academic performance. If you experience serious and unavoidable difficulties at exam time or when assessment tasks are due, you can consider applying for Special Consideration.

You need to show that the circumstances:

1. were serious, unexpected and unavoidable
2. were beyond your control
3. caused substantial disruption to your academic work
4. substantially interfered with your otherwise satisfactory fulfilment of the unit requirements
5. lasted at least three consecutive days or a total of 5 days within the teaching period and prevented completion of an assessment task scheduled for a specific date.

If you feel that your studies have been impacted submit an application as follows:

1. Visit [Ask MQ](#) and use your OneID to log in
2. Fill in your relevant details
3. Attach supporting documents by clicking 'Add a reply', click 'Browse' and navigating to the files you want to attach, then click 'Submit Form' to send your notification and supporting documents
4. Please keep copies of your original documents, as they may be requested in the future as part of the assessment process

Outcome

Once your submission is assessed, an appropriate outcome will be organised.

OUA Specific Policies and Procedures

Withdrawal from a unit after the census date

You can withdraw from your subjects prior to [the census date](#) (last day to withdraw). If you successfully withdraw before the census date, you won't need to apply for Special Circumstances. If you find yourself unable to withdraw from your subjects before the census date - you might be able to [apply for Special Circumstances](#). If you're eligible, we can refund your fees and overturn your fail grade.

If you're studying Single Subjects using FEE-HELP or paying up front, you can [apply online](#).

If you're studying a degree using HECS-HELP, you'll need to [apply directly to Macquarie University](#).

Macquarie University policies and procedures are accessible from [Policy Central](#). Students should be aware of the following policies in particular with regard to Learning and Teaching:

Academic Honesty Policy http://mq.edu.au/policy/docs/academic_honesty/policy.html

Assessment Policy http://mq.edu.au/policy/docs/assessment/policy_2016.html

Grade Appeal Policy <http://mq.edu.au/policy/docs/gradeappeal/policy.html>

Complaint Management Procedure for Students and Members of the Public http://www.mq.edu.au/policy/docs/complaint_management/procedure.html

Disruption to Studies Policy (in effect until Dec 4th, 2017): http://www.mq.edu.au/policy/docs/disruption_studies/policy.html

Special Consideration Policy (in effect from Dec 4th, 2017): <https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policies/special-consideration>

In addition, a number of other policies can be found in the [Learning and Teaching Category](#) of Policy Central.

Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: https://students.mq.edu.au/support/student_conduct/

Results

Results shown in *iLearn*, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in [eStudent](#). For more information visit ask.mq.edu.au.

Student Support

Macquarie University provides a range of support services for students. For details, visit <http://students.mq.edu.au/support/>

Learning Skills

Learning Skills (mq.edu.au/learningskills) provides academic writing resources and study strategies to improve your marks and take control of your study.

- [Workshops](#)
- [StudyWise](#)
- [Academic Integrity Module for Students](#)
- [Ask a Learning Adviser](#)

Student Services and Support

Students with a disability are encouraged to contact the [Disability Service](#) who can provide appropriate help with any issues that arise during their studies.

Student Enquiries

For all student enquiries, visit Student Connect at ask.mq.edu.au

IT Help

For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.

When using the University's IT, you must adhere to the [Acceptable Use of IT Resources Policy](#). The policy applies to all who connect to the MQ network including students.

Graduate Capabilities

PG - Capable of Professional and Personal Judgment and Initiative

Our postgraduates will demonstrate a high standard of discernment and common sense in their professional and personal judgment. They will have the ability to make informed choices and decisions that reflect both the nature of their professional work and their personal perspectives.

This graduate capability is supported by:

Learning outcomes

- Critique contemporary literature relating to the concepts of intelligence
- Model academic research skills, particularly the ability to select sources appropriately to integrate knowledge from diverse sources, to critically evaluate its significance and relevance, synthesise material and present findings logically, rationally and lucidly
- Evaluate aspects of the intelligence community environment and its history
- Explore and critically assess case studies involving development of intelligence practice

Assessment tasks

- Journal Article Critique (AT1)
- Engagement Quizzes (AT2)
- Constructive Engagement (AT3)
- Research Paper (AT4)

PG - Discipline Knowledge and Skills

Our postgraduates will be able to demonstrate a significantly enhanced depth and breadth of knowledge, scholarly understanding, and specific subject content knowledge in their chosen fields.

This graduate capability is supported by:

Learning outcomes

- Critique contemporary literature relating to the concepts of intelligence
- Model academic research skills, particularly the ability to select sources appropriately to integrate knowledge from diverse sources, to critically evaluate its significance and relevance, synthesise material and present findings logically, rationally and lucidly
- Evaluate aspects of the intelligence community environment and its history
- Explore and critically assess case studies involving development of intelligence practice

Assessment tasks

- Journal Article Critique (AT1)
- Engagement Quizzes (AT2)
- Constructive Engagement (AT3)
- Research Paper (AT4)

PG - Critical, Analytical and Integrative Thinking

Our postgraduates will be capable of utilising and reflecting on prior knowledge and experience, of applying higher level critical thinking skills, and of integrating and synthesising learning and knowledge from a range of sources and environments. A characteristic of this form of thinking is the generation of new, professionally oriented knowledge through personal or group-based critique of practice and theory.

This graduate capability is supported by:

Learning outcomes

- Critique contemporary literature relating to the concepts of intelligence
- Demonstrate higher order communication skills including the ability to formulate sustained, persuasive and original written and oral arguments
- Model academic research skills, particularly the ability to select sources appropriately to integrate knowledge from diverse sources, to critically evaluate its significance and relevance, synthesise material and present findings logically, rationally and lucidly
- Evaluate aspects of the intelligence community environment and its history
- Explore and critically assess case studies involving development of intelligence practice

Assessment tasks

- Journal Article Critique (AT1)
- Engagement Quizzes (AT2)
- Constructive Engagement (AT3)
- Research Paper (AT4)

PG - Research and Problem Solving Capability

Our postgraduates will be capable of systematic enquiry; able to use research skills to create new knowledge that can be applied to real world issues, or contribute to a field of study or practice to enhance society. They will be capable of creative questioning, problem finding and problem solving.

This graduate capability is supported by:

Learning outcomes

- Critique contemporary literature relating to the concepts of intelligence
- Demonstrate higher order communication skills including the ability to formulate sustained, persuasive and original written and oral arguments
- Model academic research skills, particularly the ability to select sources appropriately to integrate knowledge from diverse sources, to critically evaluate its significance and relevance, synthesise material and present findings logically, rationally and lucidly
- Evaluate aspects of the intelligence community environment and its history
- Explore and critically assess case studies involving development of intelligence practice

Assessment tasks

- Journal Article Critique (AT1)
- Engagement Quizzes (AT2)
- Constructive Engagement (AT3)
- Research Paper (AT4)

PG - Effective Communication

Our postgraduates will be able to communicate effectively and convey their views to different social, cultural, and professional audiences. They will be able to use a variety of technologically supported media to communicate with empathy using a range of written, spoken or visual formats.

This graduate capability is supported by:

Learning outcomes

- Demonstrate higher order communication skills including the ability to formulate sustained, persuasive and original written and oral arguments
- Model academic research skills, particularly the ability to select sources appropriately to integrate knowledge from diverse sources, to critically evaluate its significance and relevance, synthesise material and present findings logically, rationally and lucidly
- Explore and critically assess case studies involving development of intelligence practice

Assessment tasks

- Journal Article Critique (AT1)
- Constructive Engagement (AT3)
- Research Paper (AT4)

PG - Engaged and Responsible, Active and Ethical Citizens

Our postgraduates will be ethically aware and capable of confident transformative action in relation to their professional responsibilities and the wider community. They will have a sense of connectedness with others and country and have a sense of mutual obligation. They will be able to appreciate the impact of their professional roles for social justice and inclusion related to national and global issues

This graduate capability is supported by:

Learning outcomes

- Critique contemporary literature relating to the concepts of intelligence
- Evaluate aspects of the intelligence community environment and its history
- Explore and critically assess case studies involving development of intelligence practice

Assessment tasks

- Journal Article Critique (AT1)
- Engagement Quizzes (AT2)
- Constructive Engagement (AT3)
- Research Paper (AT4)
