Unit description

Transnational security challenges pose major problems for Australia and many Asian states, as well as for the traditional conceptual foundations of international security studies based on the primacy and sovereignty of the state. Human migration, drug trafficking, environmental change, and organised crime, for example, contribute to the internal instability of some regional countries. In some instances, resource scarcity could even lead to more traditional interstate conflict. However, new and innovative analytical concepts are required to have a clear appreciation of the specific nature of individual transnational problems and their responses.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

Demonstrate the ability to critically appraise and judge the current scholarly debate and theoretical approaches (and their limitations) used to analyse transnational security challenges.

Critically evaluate and apply theoretical approaches to transnational security challenges affecting Australia and its region.

Independently investigate the policy responses to transnational security challenges, with a particular emphasis on approaches developed by the Australian foreign and security policy bureaucracy.

Apply high order research skills to an area of transnational security in Asia, demonstrated through the construction of new research-generated knowledge.

Showcase an ability to critically judge and appraise current security challenges in an ethical, responsible and professional manner

Assessment Tasks

Name	Weighting	Hurdle	Due
Research Essay	50%	No	End of Week 11
Critique	30%	No	End of Weeks 3, 5, 7
Quize	20%	No	End of Weeks 2 to 11

Research Essay

Due: **End of Week 11**

Weighting: **50%**

The 3000 words Research Essay allows students to develop core disciplinary knowledge, enhance research skills, show effective written communication skills, and demonstrate originality and critical thinking.

The Essay should flow logically from introduction to evidence to conclusion, should reflect wide readings across a diverse body of academic literature and should demonstrate critical analysis and objectivity.

The Essay will be marked as per a set assessment criteria with focus on topic comprehension, argument, written expression, referencing, structure and organization. For details of this criteria see the marking template in the ilearn.

On successful completion you will be able to:

- Demonstrate the ability to critically appraise and judge the current scholarly debate and theoretical approaches (and their limitations) used to analyse transnational security challenges.
- Critically evaluate and apply theoretical approaches to transnational security challenges affecting Australia and its region.

- Independently investigate the policy responses to transnational security challenges, with a particular emphasis on approaches developed by the Australian foreign and security policy bureaucracy.
- Apply high order research skills to an area of transnational security in Asia, demonstrated through the construction of new research-generated knowledge.
- Showcase an ability to critically judge and appraise current security challenges in an ethical, responsible and professional manner

Critique

Due: **End of Weeks 3, 5, 7**

Weighting: **30%**

Preparation of a 600 words Critique in Weeks 3, 5 and 7 of one relevant research paper in the corresponding week is intended to encourage independent research and demonstrate a capacity to find, synthesise and critically evaluate information relevant to specific topics or issues. The Critique should demonstrate précis of the key arguments of the article and critical evaluation of the article's merits (strengths/weaknesses).

A detailed marking matrix is available to all enrolled students on the unit ilearn site. Marking criteria in the marking matrix includes evaluation of the Critique.

On successful completion you will be able to:

- Demonstrate the ability to critically appraise and judge the current scholarly debate and theoretical approaches (and their limitations) used to analyse transnational security challenges.
- Critically evaluate and apply theoretical approaches to transnational security challenges affecting Australia and its region.
- Independently investigate the policy responses to transnational security challenges, with a particular emphasis on approaches developed by the Australian foreign and security policy bureaucracy.
- Apply high order research skills to an area of transnational security in Asia, demonstrated through the construction of new research-generated knowledge.
- Showcase an ability to critically judge and appraise current security challenges in an ethical, responsible and professional manner

Quiz

Due: **End of Weeks 2 to 11**

Weighting: **20%**

The weekly Quizzes are intended to give students an opportunity to explore in details the issues

covered in the Unit and to develop a deeper understanding of the subject matter. Given the nature of the Quizzes students will develop effective interpretative and analytical skills.

Participation in the Quizzes demonstrates continuous constructive engagement from Weeks 2 to Week 11. The Quizzes will be marked as per the set question response.

On successful completion you will be able to:

- Demonstrate the ability to critically appraise and judge the current scholarly debate and theoretical approaches (and their limitations) used to analyse transnational security challenges.
- Critically evaluate and apply theoretical approaches to transnational security challenges affecting Australia and its region.
- Independently investigate the policy responses to transnational security challenges, with a particular emphasis on approaches developed by the Australian foreign and security policy bureaucracy.
- Apply high order research skills to an area of transnational security in Asia, demonstrated through the construction of new research-generated knowledge.
- Showcase an ability to critically judge and appraise current security challenges in an ethical, responsible and professional manner

Delivery and Resources

DELIVERY AND RESOURCES

UNIT REQUIREMENTS AND EXPECTATIONS

- You should spend an average of 12 hours per week on this unit. This includes listening to lectures prior to seminar or tutorial, reading weekly required materials as detailed in iLearn, participating in iLearn discussion forums and preparing assessments.
- Internal students are expected to attend all seminar or tutorial sessions, and external students are expected to make significant contributions to on-line activities.
- In most cases students are required to attempt and submit all major assessment tasks in order to pass the unit.

REQUIRED READINGS

- The citations for all the required readings for this unit are available to enrolled students

through the unit iLearn site, and at Macquarie University's library site. Electronic copies of required readings may be accessed through the library or will be made available by other means.

TECHNOLOGY USED AND REQUIRED

- Computer and internet access are essential for this unit. Basic computer skills and skills in word processing are also a requirement.
- This unit has an online presence. Login is via: <https://ilearn.mq.edu.au/>
- Students are required to have regular access to a computer and the internet. Mobile devices alone are not sufficient.
- Information about IT used at Macquarie University is available at http://students.mq.edu.au/it_services/

SUBMITTING ASSESSMENT TASKS

- All text-based assessment tasks are to be submitted, marked and returned electronically. This will only happen through the unit iLearn site.
- Assessment tasks must be submitted as a MS word document by the due date.
- Most assessment tasks will be subject to a 'Turnitin' review as an automatic part of the submission process.
- The granting of extensions is subject to the university's Disruptions Policy. Extensions will not in normal circumstances be granted by unit conveners or tutors, but must be lodged through Disruption to Study: http://www.students.mq.edu.au/student_admin/manage_your_study_program/disruption_to_studies/.

LATE SUBMISSION OF ASSESSMENT TASKS

- If an assignment is submitted late, 5% of the available mark will be deducted for each day (including weekends) the paper is late.
- For example, if a paper is worth 20 marks, 1 mark will be deducted from the grade given for each day that it is late (i.e. a student given 15/20 who submitted 4 days late will lose 4 marks = 11/20).

- The same principle applies if an extension is granted and the assignment is submitted later than the amended date.

WORD LIMITS FOR ASSESSMENT TASKS

- Stated word limits include footnotes and footnoted references, but not bibliography, or title page.
- Word limits can generally deviate by 10% either over or under the stated figure.
- If the number of words exceeds the limit by more than 10%, then penalties will apply. These penalties are 5% of the awarded mark for every 100 words over the word limit. If a paper is 300 words over, for instance, it will lose $3 \times 5\% = 15\%$ of the total mark awarded for the assignment. This percentage is taken off the total mark, i.e. if a paper was graded at a credit (65%) and was 300 words over, it would be reduced by 15 marks to a pass (50%).
- The application of this penalty is at the discretion of the course convener.

REASSESSMENT OF ASSIGNMENTS DURING THE SEMESTER

- Macquarie University operates a Grade Appeal Policy in cases where students feel their work was graded inappropriately: <http://www.mq.edu.au/policy/docs/gradeappeal/policy.html>
- In accordance with the Grade Appeal Policy, individual works are not subject to regrading.

STAFF AVAILABILITY

- Department staff will endeavour to answer student enquiries in a timely manner. However, emails or iLearn messages will not usually be answered over the weekend or public holiday period.
- Students are encouraged to read the Unit Guide and look at instructions posted on the iLearn site before sending email requests to staff.
