Unit description This unit is concerned with the analytical techniques of international finance and investment. Topics include global flow of funds and international financial markets, foreign exchange markets, interest parity, arbitrage and currency speculation, purchasing power parity, real effective exchange, commodity swaps, short and long-term hedging of foreign currency risks, futures and options in currencies.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

Understand and appreciate changes in the global financial market that impact on international financial management.

Demonstrate an understanding of new investment techniques, markets and risk management models.

Critically evaluate advanced concepts relating to foreign exchange, financial derivatives, transaction exposure, capital structure and international portfolio theory.

To apply teamwork skills to attain effective and professional group outcomes.

General Assessment Information

"It is the responsibility of students to view their marks for each within session assessment on iLearn within 20 working days of posting. If there are any discrepancies, students must contact the unit convenor immediately. Failure to do so will mean that queries received after the release of final results regarding assessment marks (not including the final exam mark) will not be addressed."

Assessment criteria for all assessments tasks will be provided on the unit iLearn site.

Assessment Tasks

Name	Weighting	Hurdle	Due
<u>Assignment</u>	20%	No	Friday 27th October 1pm
<u>Class Test</u>	15%	No	Week 7
<u>Quizzes</u>	5%	No	23 August 2017
<u>Final Exam</u>	60%	No	Saturday 11th November

Assignment

Due: **Friday 27th October 1pm**

Weighting: **20%**

No extensions will be granted. Students who have not submitted the task prior to the deadline will be awarded a mark of 0 for the task, except for cases in which an application for disruptions to studies is made and approved.

This assessment is composed of two parts.

In groups, students will be asked to prepare a presentation of one of the topics covered this semester. They are expected to be able to use real life examples of the content and explain in necessary detail. This is worth 10%. The topic needs to be approved by your lecturer. Each student will need to present and be given a separate presentation mark. The groups will also be used to complete an assignment. The group assignment will be based on preparing a research report on the presentation topic you selected. This is worth 10%. Assignments must be submitted online via ilearn.

On successful completion you will be able to:

- Understand and appreciate changes in the global financial market that impact on international financial management.
- Demonstrate an understanding of new investment techniques, markets and risk management models.

- Critically evaluate advanced concepts relating to foreign exchange, financial derivatives, transaction exposure, capital structure and international portfolio theory.
- To apply teamwork skills to attain effective and professional group outcomes.

Class Test

Due: **Week 7**

Weighting: **15%**

The class test will be held in lectures in week 7 and include written and or multiple choice style questions.

There will be no supplementary test.

Students who have applied for disruption to studies and it has been approved will receive a verbal examination by two staff members.

You are permitted ONE A4 page of paper containing reference material written on one side. The material must be handwritten. The page will not be returned at the end of the examination.

More details regarding the exam will be made on iLearn closer to the exam date.

The class test will be of one hour duration.

On successful completion you will be able to:

- Understand and appreciate changes in the global financial market that impact on international financial management.
- Demonstrate an understanding of new investment techniques, markets and risk management models.
- Critically evaluate advanced concepts relating to foreign exchange, financial derivatives, transaction exposure, capital structure and international portfolio theory.

Quizzes

Due: **23 August 2017**

Weighting: **5%**

There shall be one early semester quiz worth 5%. Please use this assessment task as an indicator of whether you are progressing satisfactorily in the unit. If you are having difficulties, please see the Unit Convenor and consider withdrawing before the census date on Friday of week 4.

No extensions will be granted. Students who have not submitted the task prior to the deadline will be awarded a mark of 0 for the task, except for cases in which an application for disruptions to studies is made and approved.

On successful completion you will be able to:

- Understand and appreciate changes in the global financial market that impact on international financial management.
- Demonstrate an understanding of new investment techniques, markets and risk management models.
- Critically evaluate advanced concepts relating to foreign exchange, financial derivatives, transaction exposure, capital structure and international portfolio theory.

Final Exam

Due: **Saturday 11th November**

Weighting: **60%**

You are permitted ONE A4 page of paper containing reference material written on one side. The material must be handwritten. The page will not be returned at the end of the examination.

The final exam will consist of an invigilated online exam. The exam will be 120 minutes in length.

On successful completion you will be able to:

- Understand and appreciate changes in the global financial market that impact on international financial management.
- Demonstrate an understanding of new investment techniques, markets and risk management models.
- Critically evaluate advanced concepts relating to foreign exchange, financial derivatives, transaction exposure, capital structure and international portfolio theory.

Delivery and Resources

Classes

- Students should attend one 3 hour class per week.
- The timetable for classes can be found on the University web site at: <http://www.timetables.mq.edu.au/>

Prizes

- Prizes for this unit (if applicable). http://www.businessandconomics.mq.edu.au/undergraduate_degrees/prizes_scholarships

Required and Recommended texts and/or materials

- International Financial Management: 7th Edition Eun & Resnick, Publisher: McGraw-Hill Irwin Copyright

- Set chapters for each topic's lecture are drawn from this text and identified in the lecture topic table below. Students should read these chapters prior to the lecture, so that they are familiar with the material to be covered. This will greatly enhance your learning experience.
- Required texts can be purchased from the Macquarie University Co-op Bookshop.

Technology Used and Required

- Financial non-programmable calculators can be used in the unit. A financial calculator is not essential as a scientific non-programmable calculator should meet all your needs (calculation of the Internal Rate of Return (IRR) is not required in any of the assessment tasks). Note: Only non-programmable calculators without text retrieval functionality are allowed for use in the unit's assessments tasks.
- Excel or similar spreadsheeting tool will be required to complete the assignment.
- Students should have access to the internet.

Unit Web Page

- Course material and announcements are available on the learning management system (iLearn).

Student Enquiries

For all student enquiries, visit Student Connect at ask.mq.edu.au

IT Help

For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.

When using the University's IT, you must adhere to the [Acceptable Use of IT Resources Policy](#). The policy applies to all who connect to the MQ network including students.

Graduate Capabilities

PG - Discipline Knowledge and Skills

Our postgraduates will be able to demonstrate a significantly enhanced depth and breadth of knowledge, scholarly understanding, and specific subject content knowledge in their chosen fields.

This graduate capability is supported by:

Learning outcomes

- Understand and appreciate changes in the global financial market that impact on international financial management.
- Demonstrate an understanding of new investment techniques, markets and risk management models.
- Critically evaluate advanced concepts relating to foreign exchange, financial derivatives, transaction exposure, capital structure and international portfolio theory.

Assessment tasks

- Assignment
- Class Test
- Quizzes
- Final Exam

PG - Critical, Analytical and Integrative Thinking

Our postgraduates will be capable of utilising and reflecting on prior knowledge and experience, of applying higher level critical thinking skills, and of integrating and synthesising learning and knowledge from a range of sources and environments. A characteristic of this form of thinking is the generation of new, professionally oriented knowledge through personal or group-based critique of practice and theory.

This graduate capability is supported by:

Learning outcomes

- Understand and appreciate changes in the global financial market that impact on international financial management.
- Demonstrate an understanding of new investment techniques, markets and risk management models.
- Critically evaluate advanced concepts relating to foreign exchange, financial derivatives, transaction exposure, capital structure and international portfolio theory.

Assessment tasks

- Assignment
- Class Test
- Quizzes
- Final Exam

PG - Research and Problem Solving Capability

Our postgraduates will be capable of systematic enquiry; able to use research skills to create new knowledge that can be applied to real world issues, or contribute to a field of study or practice to enhance society. They will be capable of creative questioning, problem finding and problem solving.

This graduate capability is supported by:

Learning outcomes

- Understand and appreciate changes in the global financial market that impact on international financial management.
- Demonstrate an understanding of new investment techniques, markets and risk management models.
- Critically evaluate advanced concepts relating to foreign exchange, financial derivatives, transaction exposure, capital structure and international portfolio theory.
- To apply teamwork skills to attain effective and professional group outcomes.

Assessment tasks

- Assignment
- Class Test
- Quizzes
- Final Exam

Changes from Previous Offering

Removal of 4 online quizzes (5%)

Research and Practice

- This unit gives you opportunities to conduct your own research
