Co-badged status

Unit description

This unit provides students with a graduate-level understanding of accounting as a business process of recording, measuring, classifying and reporting economic, financial and other related information and transactions for use by a variety of stakeholders. Students completing this unit are expected to be able to prepare, analyse and discuss financial reports in various business contexts. Classes cover the core aspects of the preparation and basic analysis of financial statements and the underlying accounting policies and principles.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

Explain the purpose of accounting and accounting processes and appreciate the role of accounting in business sustainability and ethical decision making.

Identify, record and process business transactions in the accounting system and report their effect by preparing structured financial statements.

Undertake basic analysis of the financial statements of organisations, through ratio analysis.

Explain the importance of budgeting and costing in an organisation and prepare and use such information to make business decisions.

Participate in group work activity and communicate the results of group work

General Assessment Information

What is required to pass the Unit?

To achieve a passing grade for the unit students MUST obtain an overall mark greater than 50%.

Assessment Tasks

Name	Weighting	Hurdle	Due
<u>Assessed Coursework</u>	15%	No	Randomly from Week 3
<u>Class Tests</u>	25%	No	Weeks 4 and 10

Name	Weighting	Hurdle	Due
<u>Final examination</u>	60%	No	University examination period

Assessed Coursework

Due: **Randomly from Week 3**

Weighting: **15%**

There are two parts to 'Assessed Coursework'.

Part 1: Homework Completion (10%)

Homework solutions will only be available after the questions have been covered in seminars the week following the lecture. Students are expected to have completed the assigned homework questions and bring hard copies to seminars. This should be handwritten and each question should be clearly identified by either a different colour pen (not red) or highlighted. Homework will be randomly assessed three times during the session commencing in Week 3. Each homework collected by your lecturer will be marked out of 5. Of the three homework corrections assessed, the best two will be included as part of your overall assessment marks. Marks will be assigned on the basis of both completeness and accuracy. Marking guidelines will be available on ilearn.

Part 2: Participation in Group Activity (5%)

Students will be formed into groups during seminars. Each group will be assigned a week (from Week 3) to present their solution to any of the assigned homework questions for that seminar. The group must work together to ensure solutions have been discussed and are in a suitable format to present to the class. Please note not all group members must present, but each group member will be assessed by the other group member in respect of their contribution. The 5 marks will be allocated as 2.5 marks (presentation) and 2.5 marks (group member evaluation).

Submission

Submission is only possible in your registered seminar class.

Extensions and penalties

No extensions will be granted. There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission – 20% penalty). This penalty does not apply for cases in which an application for Special Consideration is made and approved. No submission will be accepted after the assessment has been handed back.

On successful completion you will be able to:

- Explain the purpose of accounting and accounting processes and appreciate the role of accounting in business sustainability and ethical decision making.
- Identify, record and process business transactions in the accounting system and report their effect by preparing structured financial statements.

- Undertake basic analysis of the financial statements of organisations, through ratio analysis.
- Explain the importance of budgeting and costing in an organisation and prepare and use such information to make business decisions.
- Participate in group work activity and communicate the results of group work

Class Tests

Due: **Weeks 4 and 10**

Weighting: **25%**

Students are required to attempt **two** class tests.

The first test will be a 25 minute online multiple choice test at the end of Week 4. The test is weighted 10% and will serve as an early diagnostic indicator of student performance.

The second class test will be in Week 10 during seminars. The test will be weighted 15% and be of 1 hour and 20 minutes in duration.

Detailed information about the class tests will be released on iLearn in Week 8 of seminars.

Submission

The first diagnostic test will be online. You can only attempt the second class test in your registered seminar.

Extensions and penalties

No extensions will be granted. Students who have not attempted the class tests will be awarded a mark of 0 for the test.

This penalty does not apply for cases in which an application for Special Consideration is made and approved and in this case there will be a supplementary test.

On successful completion you will be able to:

- Explain the purpose of accounting and accounting processes and appreciate the role of accounting in business sustainability and ethical decision making.
- Identify, record and process business transactions in the accounting system and report their effect by preparing structured financial statements.
- Undertake basic analysis of the financial statements of organisations, through ratio analysis.
- Explain the importance of budgeting and costing in an organisation and prepare and use such information to make business decisions.
- Participate in group work activity and communicate the results of group work

Final examination

Due: **University examination period**

Weighting: **60%**

Submission

A 2 hour closed book final examination for this unit will be held during the University Examination period. Detailed information will be available on ilearn prior to the Week 13 seminar.

The University Examination period in Session 1 2018 is Tuesday 12 June through Friday 29 June.

You are expected to present yourself for examination at the time and place designated in the University Examination Timetable. The timetable will be available in Draft form approximately eight weeks before the commencement of the examinations and in Final form approximately four weeks before the commencement of the examination: http://students.mq.edu.au/student_admin/exams/

Grade

Grade descriptors and other information concerning grading are contained in the Macquarie University Grading Policy which is available at: <http://www.mq.edu.au/policy/docs/grading/policy.html>.

Students will be awarded one of these grades. All final grades in the Department of Accounting and Corporate Governance are determined by a grading committee and are not the sole responsibility of the Unit Convenor. The final grade awarded reflects the corresponding grade descriptor in the Grading Policy.

Extensions and penalties

The only exception to not sitting an examination at the designated time is because of documented illness or unavoidable disruption. In these circumstances you may wish to consider applying for Special Consideration. If a Supplementary Examination is granted as a result of the Special Consideration process the examination will be scheduled after the conclusion of the official examination period. Please note that the supplementary examination will be of similar format as the final examination. The Macquarie University examination policy details the principles and conduct of examinations at the University, The policy is available at: <http://www.mq.edu.au/policy/docs/examination/policy.html>

On successful completion you will be able to:

- Explain the purpose of accounting and accounting processes and appreciate the role of accounting in business sustainability and ethical decision making.
- Identify, record and process business transactions in the accounting system and report their effect by preparing structured financial statements.

- Undertake basic analysis of the financial statements of organisations, through ratio analysis.
- Explain the importance of budgeting and costing in an organisation and prepare and use such information to make business decisions.
- Participate in group work activity and communicate the results of group work

Delivery and Resources

Classes

The unit has 3 hours face-to-face teaching per week. The class will run in a seminar style.

The timetable for classes can be found on the University website at:

<http://www.timetables.mq.edu.au/>

Students are expected to spend 150 hours working on this unit. As a guide a student should spend these approximate amounts of time on each of the following activities:

Expectations and Workload

Activity No.	Activity Description	Hours
1	Weekly seminars/lectures/tutorials	39
2	Assessment Task 1 (Assessed Coursework – weighting 15%)	20
3	Assessment Task 2 (In-class tests - weighting: 25%)	20
4	Assessment Task 3 (Final examination – weighting: 60%)	20
5	Readings/self-study/tests and exam preparation	51

Consultation

Consultation is available every week commencing from Week 3. The consultation schedule will be provided on ilearn.

Required Textbook and Recommended Texts and/or Materials

Carlton, S., McAlpine-Mladenovic, R., Palm, C., Mitrione, L., Kirk, N. and Wong, L. (2016). *Financial Accounting: Reporting, Analysis and Decision Making*, Wiley, QLD, Australia.

The prescribed textbook (with Wiley Plus) can be purchased directly from the Co-op Bookshop on campus or online via the following link: <http://www.wileydirect.com.au/buy/financial-accounting-5th-edition/>. In addition, copies of the textbook are available in the reserve section of the library. Note that WileyPlus is not a required learning material in ACCG611 yet can be used as a revision tool.

Unit Web Page

Course materials, including lecture notes, homework solutions, videos and revisions materials (prior to final examination) are available on the learning management system (ilearn).

Technology Used and Required

In this unit, students require computer technology sufficient to regularly access the learning materials on the unit ilearn webpage via the internet.

Unit Schedule

Seminar Week	Week Commencing	Topic	Assessments
1	Monday 26th February	An overview of accounting and the role of ethics in accounting	
2	Monday 5th March	The role of sustainability in accounting	
3	Monday 12th March	Accounting cycle, accounting equation and double-entry accounting	
4	Monday 19th March	Recording transactions	Class test 1 (diagnostic online test)
5	Monday 26th March	Preparing adjusting entries Part 1	
6	Monday 2nd April	Preparing adjusting entries Part 2	
7	Monday 9th April	Preparing financial statements and closing entries	
8	Monday 30th April	Preparing worksheets and bank reconciliation statements	
9	Monday 7th May	Introduction to accounting for inventory	

10	Monday 14th May	Introduction to ratio analysis	Class test 2 (in class)
11	Monday 21st May	Introduction to cash budgeting	
12	Monday 28th May	Introduction to cost volume profit analysis	
13	Monday 4th June	Opportunity for consultation with staff	

Policies and Procedures

Macquarie University policies and procedures are accessible from [Policy Central \(https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central\)](https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- [Academic Appeals Policy](#)
- [Academic Integrity Policy](#)
- [Academic Progression Policy](#)
- [Assessment Policy](#)
- [Fitness to Practice Procedure](#)
- [Grade Appeal Policy](#)
- [Complaint Management Procedure for Students and Members of the Public](#)
- [Special Consideration Policy](#) (**Note:** *The Special Consideration Policy is effective from 4 December 2017 and replaces the Disruption to Studies Policy.*)

Undergraduate students seeking more policy resources can visit the [Student Policy Gateway \(https://students.mq.edu.au/support/study/student-policy-gateway\)](https://students.mq.edu.au/support/study/student-policy-gateway). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

If you would like to see all the policies relevant to Learning and Teaching visit [Policy Central \(https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central\)](https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central).

Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: <https://students.mq.edu.au/study/getting-started/student-conduct>

Results

Results shown in *iLearn*, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in [eStudent](#). For more information visit ask.mq.edu.au.

Student Support

Macquarie University provides a range of support services for students. For details, visit <http://students.mq.edu.au/support/>

Learning Skills

Learning Skills (mq.edu.au/learningskills) provides academic writing resources and study strategies to improve your marks and take control of your study.

- [Workshops](#)
- [StudyWise](#)
- [Academic Integrity Module for Students](#)
- [Ask a Learning Adviser](#)

Student Services and Support

Students with a disability are encouraged to contact the [Disability Service](#) who can provide appropriate help with any issues that arise during their studies.

Student Enquiries

For all student enquiries, visit Student Connect at ask.mq.edu.au

IT Help

For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.

When using the University's IT, you must adhere to the [Acceptable Use of IT Resources Policy](#). The policy applies to all who connect to the MQ network including students.

Graduate Capabilities

Capable of Professional and Personal Judgement and Initiative

We want our graduates to have emotional intelligence and sound interpersonal skills and to demonstrate discernment and common sense in their professional and personal judgement. They will exercise initiative as needed. They will be capable of risk assessment, and be able to handle ambiguity and complexity, enabling them to be adaptable in diverse and changing environments.

This graduate capability is supported by:

Learning outcomes

- Explain the purpose of accounting and accounting processes and appreciate the role of accounting in business sustainability and ethical decision making.
- Identify, record and process business transactions in the accounting system and report

their effect by preparing structured financial statements.

- Undertake basic analysis of the financial statements of organisations, through ratio analysis.
- Explain the importance of budgeting and costing in an organisation and prepare and use such information to make business decisions.
- Participate in group work activity and communicate the results of group work

Assessment tasks

- Assessed Coursework
- Class Tests
- Final examination

Discipline Specific Knowledge and Skills

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

Learning outcomes

- Explain the purpose of accounting and accounting processes and appreciate the role of accounting in business sustainability and ethical decision making.
- Identify, record and process business transactions in the accounting system and report their effect by preparing structured financial statements.
- Undertake basic analysis of the financial statements of organisations, through ratio analysis.
- Explain the importance of budgeting and costing in an organisation and prepare and use such information to make business decisions.
- Participate in group work activity and communicate the results of group work

Assessment tasks

- Assessed Coursework
- Class Tests
- Final examination

Critical, Analytical and Integrative Thinking

We want our graduates to be capable of reasoning, questioning and analysing, and to integrate and synthesise learning and knowledge from a range of sources and environments; to be able to critique constraints, assumptions and limitations; to be able to think independently and systemically in relation to scholarly activity, in the workplace, and in the world. We want them to have a level of scientific and information technology literacy.

This graduate capability is supported by:

Learning outcomes

- Explain the purpose of accounting and accounting processes and appreciate the role of accounting in business sustainability and ethical decision making.
- Identify, record and process business transactions in the accounting system and report their effect by preparing structured financial statements.
- Undertake basic analysis of the financial statements of organisations, through ratio analysis.
- Explain the importance of budgeting and costing in an organisation and prepare and use such information to make business decisions.
- Participate in group work activity and communicate the results of group work

Assessment tasks

- Assessed Coursework
- Class Tests
- Final examination

Research and Practice, Global and Sustainability

This unit addresses global and sustainability issues as direct areas of study and as necessary implications arising from the materials, assessment and academic discussion and debate in classes/seminars. We promote sustainability by developing the ability of students to research and locate information within the accounting discipline. We aim to provide students with an opportunity to obtain skills which will benefit them throughout their career.

The unit materials have a reference list at the end of each chapter/module/text containing all references cited by the author. These provide some guidance to references that could be used to research particular issues.

Changes since First Published

Date	Description
25/02/2018	Change to Special Consideration instead of Disruption to Studies due to change of policy Change to workload allocation to align weighting to assessments
