Unit description

This unit enables students to understand and analyze the highly influential discourse of strategic management. Starting with the premise that the ideas and practices of strategic management are far too significant to be reduced to a set of simplified tools or techniques, this unit draws upon a wide range of academic work across the fields of management, organization studies, and strategy to examine the topic. Using this research, strategic management is considered in terms of the social, political, ethical and global effects that it engenders and encourages in today's organised world. Students will have the opportunity to synthesize these areas of knowledge through analyzing the strategic lessons to be drawn from major organizational and societal events, including those of high-level corporate fraud and environmental crisis.

From experience, students who attend both lectures and tutorials throughout the semester have a much better understanding of the subject and do better in the assessment tasks.

Timetables for classes can be found on the University web site at www.timetables.mq.edu.au

Prizes

A Certificate Prize will be awarded to the student/s achieving the highest mark within this cohort.

Required and Recommended reading

The required reading for this unit consists of a collection of academic articles on strategy and management that will be uploaded for you on the unit ilearn site. You will need to download and read the designated article *before* your tutorials each week and to bring the article and your notes on it to the tutorial. Your understanding of each of these articles is examined in the final exam and assessed in the two essays.

In addition, there will be a number of further articles uploaded on ilearn under each week's topic area. You will need to read a selection of these and use them in your assignments.

impacts of dominant corporate strategies.

Program Learning Outcomes

This unit supports the development of program learning outcomes (PLO) for degree(s) delivered by the Faculty of Business and Economics. PLOs describe the educational outcomes of a degree and what you should be able to know, understand and do by the end of your degree.

Unit learning outcomes 2, 3 & 4 and Assignment Two and the Final Examination contribute to the following PLOs:

PLO1 Discipline Specific Knowledge and Skills

PLO4.2 Global Citizens

Research and Practice

This unit requires students to engage with contemporary and classic research texts on strategy, drawn from the leading management and strategy journals and texts. As such, the unit fosters student's abilities to read and understand published academic research on the subject area.
