Unit description

This unit provides an introduction to major topics in ethics, moral theory and contemporary political philosophy. The first section focuses on the nature of happiness. Is pleasure essential to happiness? Or does the pursuit of pleasure harm our chances of lasting fulfilment? Must we be virtuous in order to be happy? What is the relationship between happiness and duty? The second section explores the nature of moral goodness. Is morality based ultimately in self-interest? What is the relationship between morality and religion? Are there moral principles that everyone is bound by reason to recognise? Or is the validity of moral standards relative to specific societies and cultures? In the third section we turn to questions of applied political philosophy, focusing on questions such as: What principles should govern the distribution of economic and social resources within a society? What are the obligations of wealthy nations to those less fortunate, including immigrants and refugees? And what issues of justice are raised by climate change?

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

Understand the nature of happiness using concepts drawn from ancient philosophy at an elementary level

Understand how some key modern philosophers have sought to establish the

foundations of morality at an elementary level

Understand some elements of contemporary theories of justice at an elementary level

Evaluate, in an elementary way, contemporary social issues that concern happiness, goodness, or justice, using philosophical ideas and methods

Be able to summarise and explain a philosophical text and its key features at an elementary level

Be capable of reflecting critically on philosophical theories and arguments at an elementary level

Be able to express and defend your own ideas with clarity and rigour, in a logical, structured argument, at an elementary level

Experience in engaging constructively and respectfully with the views of others, even if you disagree with them

General Assessment Information

Results

Results shown in *iLearn*, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in [eStudent](#). For more information visit [ask.mq.edu.au](#).

Submission of Assessments

All assessment pieces are to be submitted via the unit's iLearn site. Written assessment pieces will be run through the Turnitin software which detects unoriginal work.

Extensions and Penalties

All work must be submitted on time unless an extension has been granted. Requests for extensions must be made in writing BEFORE the due date and will only be considered on serious grounds. Extensions will not be given unless good reasons and appropriate evidence (e.g., medical certificates, counsellor's letters) are presented at the earliest opportunity. Please note that work due concurrently in other subjects is NOT an exceptional circumstance and does not constitute a legitimate reason for an extension.

Unless a Special Consideration request has been submitted and approved, (a) a penalty for lateness will apply – two (2) marks out of 100 will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted more than seven (7) days (incl. weekends) after the original submission deadline. No late submissions will be accepted for timed assessments – e.g. quizzes, online tests. Note that for the final essay, no submissions will be accepted more than three (3) days after the original submission deadline.

To obtain an extension, you must submit a Special Consideration application. See below for details on how to do that.

Special Consideration Policy

The University classifies a disruption as **serious and unavoidable** if it:

- could not have reasonably been anticipated, avoided or guarded against by the student; and
- was beyond the student's control; and
- caused substantial disruption to the student's capacity for effective study and/or completion of required work; and
- occurred during an event critical study period and was at least three (3) consecutive days duration, and / or
- prevented completion of a final examination.

Students with a pre-existing disability/health condition or prolonged adverse circumstances may be eligible for ongoing assistance and support. Such support is governed by other policies and may be sought and coordinated through [Campus Wellbeing and Support Services](#).

Assessment Tasks

Name	Weighting	Hurdle	Due
Class participation	10%	No	Every class
Submit Discussion Topic	10%	No	One for each part of unit
Online quizzes	20%	No	1 week after lectures 2 - 13
Reflection about Happiness	20%	No	16/12/2018
Critical Essay	40%	No	20/01/2018

Class participation

Due: **Every class**

Weighting: **10%**

Participation and engagement in class, or online in iLearn discussion boards if you cannot attend a class.

Weighting: 10%

Participation will be marked on attendance and contribution to class discussion.

For those who cannot attend class, participation will be marked on online engagement with the discussion boards on iLearn. The student will have to respond to at least two discussions in order to be graded. The deadline for online participation will be three days after the relevant class.

(For example, if class is on a Monday, you have until Thursday 11.59pm to participate online.)

Note: online participation is not a suitable substitute for class participation. You are allowed to miss 5 classes and substitute class participation with online participation. From the 6th missed class, online participation will not be graded in lieu of class participation.

On successful completion you will be able to:

- Understand the nature of happiness using concepts drawn from ancient philosophy at an elementary level
- Understand how some key modern philosophers have sought to establish the foundations of morality at an elementary level
- Understand some elements of contemporary theories of justice at an elementary level
- Evaluate, in an elementary way, contemporary social issues that concern happiness, goodness, or justice, using philosophical ideas and methods
- Be capable of reflecting critically on philosophical theories and arguments at an elementary level
- Be able to express and defend your own ideas with clarity and rigour, in a logical, structured argument, at an elementary level
- Experience in engaging constructively and respectfully with the views of others, even if you disagree with them

Submit Discussion Topic

Due: **One for each part of unit**

Weighting: **10%**

You will provide a discussion topic for a class, by posting in an online forum called "Discussion Topics."

Deadline: 5pm the day before the relevant class. This will apply from class 2 onwards.

Weighting: 10%

This task requires that you do the readings in advance and then submit a discussion topic, question, example, or issue, that you would like to discuss during class. You will submit your topic online in iLearn, in the "Discussion Topics" forum.

Note: you need to provide one discussion topic for each of the three parts of the unit, totalling three topics over the entire semester. That is, you need to submit a discussion topic for (classes 2 - 4 on happiness), (classes 6 - 10 on goodness), and (classes 11 - 13 on justice).

For example, a question for the topic you might like to discuss for the Epicureanism topic could be, "Would living an Epicurean life style make me a morally better or happier person?"

Or you might find an example from the news that is relevant to the topic that you would like to discuss.

Criteria: This assessment will be marked on the relevance of the posts to the topic material. Questions or case studies that are entirely irrelevant will not contribute to your grade.

On successful completion you will be able to:

- Understand the nature of happiness using concepts drawn from ancient philosophy at an elementary level
- Understand how some key modern philosophers have sought to establish the foundations of morality at an elementary level
- Understand some elements of contemporary theories of justice at an elementary level
- Experience in engaging constructively and respectfully with the views of others, even if you disagree with them

Online quizzes

Due: **1 week after lectures 2 - 13**

Weighting: **20%**

For classes 2, 3, 4, 6, 7, 8, 10, 11, 12, and 13, there will be an online quiz for the topic covered in that session. There are 10 quizzes in total. There are no quizzes for classes 1, 5, 9, and 14.

Weighting: 20%

Note: Each individual quiz is only available for one week, from the date of the relevant class. For example, if a class is on Monday, the quiz will close the following Sunday at 11:59pm.

Quizzes involve true/false or multiple choice options. The quizzes cannot be accessed after they have closed. You can also only complete the quiz once.

Criteria: an accurate understanding of the issues and texts.

On successful completion you will be able to:

- Understand the nature of happiness using concepts drawn from ancient philosophy at an elementary level
- Understand how some key modern philosophers have sought to establish the foundations of morality at an elementary level
- Understand some elements of contemporary theories of justice at an elementary level
- Evaluate, in an elementary way, contemporary social issues that concern happiness, goodness, or justice, using philosophical ideas and methods

Reflection about Happiness

Due: **16/12/2018**

Weighting: **20%**

Due: Sunday 16 December, 11:59pm

Weighting: 20%

Length: 700 words

This is a reflective exercise about what you have learned from part one of the unit.

Criteria: An excellent written reflection will demonstrate a high degree of engagement with the issue; show a high degree of critical self-reflection; show a very good understanding of the relevant philosophical text; give an accurate interpretation of the relevant text; contain evidence of creativity; and have writing that is consistently good and without grammatical errors.

The reflection will have three sections: 1) your view on happiness; 2) a description of a relevant theory of happiness; 3) a reflection on the impact of the theory on your own view.

A detailed rubric and a sample reflective exercise will be provided in iLearn during the semester.

On successful completion you will be able to:

- Understand the nature of happiness using concepts drawn from ancient philosophy at an elementary level
- Be able to summarise and explain a philosophical text and its key features at an elementary level
- Be capable of reflecting critically on philosophical theories and arguments at an elementary level
- Be able to express and defend your own ideas with clarity and rigour, in a logical, structured argument, at an elementary level

Critical Essay

Due: **20/01/2018**

Weighting: **40%**

Due: Sunday 20 January, 11:59pm

Weighting: 40%

Length: 1500 words

A critical discussion of a set question from parts 2 or 3 of the unit. Here you show us the critical questioning and philosophical knowledge that you have learned over the unit.

Criteria: An excellent essay will demonstrate knowledge of the relevant content; a clear structure and argument; creativity; proper expression, spelling, punctuation, and grammar; an easy to read presentation; proper integration and referencing of research and other sources.

Note: no submissions will be accepted after 23 January.

A detailed rubric and sample essay will be provided in iLearn during the semester.

On successful completion you will be able to:

- Understand how some key modern philosophers have sought to establish the foundations of morality at an elementary level
- Understand some elements of contemporary theories of justice at an elementary level
- Evaluate, in an elementary way, contemporary social issues that concern happiness, goodness, or justice, using philosophical ideas and methods
- Be able to summarise and explain a philosophical text and its key features at an elementary level
- Be capable of reflecting critically on philosophical theories and arguments at an elementary level
- Be able to express and defend your own ideas with clarity and rigour, in a logical, structured argument, at an elementary level

Delivery and Resources

Required Readings

All required readings will be accessible on iLearn. You are responsible for gaining access to the readings.

Interactive classes

In lectures, you will do more than listen and take notes. The lectures are organised in two-hour blocks. In each hour, there will be some lecture time in which the fundamental ideas, questions, and arguments related to the class topic will be introduced, with reference to the key texts that constitute the required readings. Part of each hour will be devoted to engaging in a series of interactive exercises - responding to questions, problem solving, group discussion, and short tasks - to extend your understanding and personal reflection on these issues. Some of the questions you will be discussing will be incorporated from your discussion topic submissions.

It is expected that you will have done the relevant reading before the class.

Technologies used

This unit has an online presence in iLearn where activities are set and subject materials distributed. Students will require access to reliable broadband and a computer. Some assessments are conducted through this site, and written tasks will be submitted using Turnitin, a plagiarism scanning program.

20 January: Critical essay due.

Learning and Teaching Activities

Interactive Classes

We ask you to prepare before classes, and come prepared to participate. Conversation and activity in classes helps you to acquire the most from the experience. Post questions you would like to discuss before 5pm the day before the relevant session.

iLearn

iLearn is your guide to action. You can keep track of where the unit is up to, and the preparation you need to do. It is also a portal to numerous activities that help you learn philosophy: quizzes, discussions and assessment preparation. Use message boards to discuss the topics for each session.

Graduate Capabilities

Creative and Innovative

Our graduates will also be capable of creative thinking and of creating knowledge. They will be imaginative and open to experience and capable of innovation at work and in the community. We want them to be engaged in applying their critical, creative thinking.

This graduate capability is supported by:

Learning outcomes

- Evaluate, in an elementary way, contemporary social issues that concern happiness, goodness, or justice, using philosophical ideas and methods
- Be able to summarise and explain a philosophical text and its key features at an elementary level

Assessment tasks

- Submit Discussion Topic
- Reflection about Happiness

Capable of Professional and Personal Judgement and Initiative

We want our graduates to have emotional intelligence and sound interpersonal skills and to demonstrate discernment and common sense in their professional and personal judgement. They will exercise initiative as needed. They will be capable of risk assessment, and be able to handle ambiguity and complexity, enabling them to be adaptable in diverse and changing environments.

This graduate capability is supported by:

Learning outcomes

- Evaluate, in an elementary way, contemporary social issues that concern happiness, goodness, or justice, using philosophical ideas and methods
- Be able to express and defend your own ideas with clarity and rigour, in a logical, structured argument, at an elementary level

Assessment tasks

- Class participation
- Submit Discussion Topic

Commitment to Continuous Learning

Our graduates will have enquiring minds and a literate curiosity which will lead them to pursue knowledge for its own sake. They will continue to pursue learning in their careers and as they participate in the world. They will be capable of reflecting on their experiences and relationships with others and the environment, learning from them, and growing - personally, professionally and socially.

This graduate capability is supported by:

Learning outcome

- Experience in engaging constructively and respectfully with the views of others, even if you disagree with them

Assessment tasks

- Class participation
- Submit Discussion Topic

Discipline Specific Knowledge and Skills

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

Learning outcomes

- Understand the nature of happiness using concepts drawn from ancient philosophy at an elementary level

- Understand how some key modern philosophers have sought to establish the foundations of morality at an elementary level
- Understand some elements of contemporary theories of justice at an elementary level

Assessment tasks

- Class participation
- Submit Discussion Topic
- Online quizzes
- Reflection about Happiness
- Critical Essay

Critical, Analytical and Integrative Thinking

We want our graduates to be capable of reasoning, questioning and analysing, and to integrate and synthesise learning and knowledge from a range of sources and environments; to be able to critique constraints, assumptions and limitations; to be able to think independently and systemically in relation to scholarly activity, in the workplace, and in the world. We want them to have a level of scientific and information technology literacy.

This graduate capability is supported by:

Learning outcomes

- Understand the nature of happiness using concepts drawn from ancient philosophy at an elementary level
- Understand how some key modern philosophers have sought to establish the foundations of morality at an elementary level
- Understand some elements of contemporary theories of justice at an elementary level
- Be able to summarise and explain a philosophical text and its key features at an elementary level
- Be capable of reflecting critically on philosophical theories and arguments at an elementary level
- Be able to express and defend your own ideas with clarity and rigour, in a logical, structured argument, at an elementary level

Assessment tasks

- Reflection about Happiness
- Critical Essay

Problem Solving and Research Capability

Our graduates should be capable of researching; of analysing, and interpreting and assessing data and information in various forms; of drawing connections across fields of knowledge; and

they should be able to relate their knowledge to complex situations at work or in the world, in order to diagnose and solve problems. We want them to have the confidence to take the initiative in doing so, within an awareness of their own limitations.

This graduate capability is supported by:

Learning outcomes

- Understand the nature of happiness using concepts drawn from ancient philosophy at an elementary level
- Understand how some key modern philosophers have sought to establish the foundations of morality at an elementary level
- Understand some elements of contemporary theories of justice at an elementary level
- Evaluate, in an elementary way, contemporary social issues that concern happiness, goodness, or justice, using philosophical ideas and methods
- Be able to summarise and explain a philosophical text and its key features at an elementary level
- Be capable of reflecting critically on philosophical theories and arguments at an elementary level

Assessment task

- Critical Essay

Effective Communication

We want to develop in our students the ability to communicate and convey their views in forms effective with different audiences. We want our graduates to take with them the capability to read, listen, question, gather and evaluate information resources in a variety of formats, assess, write clearly, speak effectively, and to use visual communication and communication technologies as appropriate.

This graduate capability is supported by:

Learning outcomes

- Be able to summarise and explain a philosophical text and its key features at an elementary level
- Be capable of reflecting critically on philosophical theories and arguments at an elementary level
- Be able to express and defend your own ideas with clarity and rigour, in a logical, structured argument, at an elementary level
- Experience in engaging constructively and respectfully with the views of others, even if you disagree with them

Assessment tasks

- Submit Discussion Topic
- Reflection about Happiness
- Critical Essay

Engaged and Ethical Local and Global citizens

As local citizens our graduates will be aware of indigenous perspectives and of the nation's historical context. They will be engaged with the challenges of contemporary society and with knowledge and ideas. We want our graduates to have respect for diversity, to be open-minded, sensitive to others and inclusive, and to be open to other cultures and perspectives: they should have a level of cultural literacy. Our graduates should be aware of disadvantage and social justice, and be willing to participate to help create a wiser and better society.

This graduate capability is supported by:

Learning outcomes

- Understand some elements of contemporary theories of justice at an elementary level
- Evaluate, in an elementary way, contemporary social issues that concern happiness, goodness, or justice, using philosophical ideas and methods
- Be able to express and defend your own ideas with clarity and rigour, in a logical, structured argument, at an elementary level
- Experience in engaging constructively and respectfully with the views of others, even if you disagree with them

Assessment tasks

- Class participation
- Submit Discussion Topic

Socially and Environmentally Active and Responsible

We want our graduates to be aware of and have respect for self and others; to be able to work with others as a leader and a team player; to have a sense of connectedness with others and country; and to have a sense of mutual obligation. Our graduates should be informed and active participants in moving society towards sustainability.

This graduate capability is supported by:
