Participation

Active participation is expected of BUSL 204 students as discussion is an essential part of developing ethical sensitivity and skill. Tutorials should be used by students to test their understanding of the unit in an environment where immediate feedback is available from the convenor or tutor. Students should prepare well for tutorials by watching lectures, reading prescribed chapters and articles, and preparing answers to discussion questions, in advance of the tutorial. Students should be engaged with the issues relevant to the seminar and be involved in tutorial activities, particularly, responding to, and asking, questions. Being active is an important aspect of both study and professional practice, and tutorials will be of more benefit to all students if each individual is willing to participate.

Estimated student workload

Students are expected to spend approximately 3-5 hours per week reviewing relevant lectures, readings and discussion questions before attending class.

Marking criteria (out of 10):

< 5 - Does not Pass. Attend less than 80% of classes and / or no engagement in class activities.

5-6 /10 – Pass. Attend at least 80% of classes and engage in class exercises (e.g. group work).

7 / 10 - Credit. Attend at least 80% of classes, and some contributions to class discussion (e.g. questions or comments).

8 / 10 – Distinction. Attend at least 80% of classes, with regular contributions to class discussions.

9-10/10 – High Distinction. Attend at least 80% of classes, with excellent contributions to class discussions; for example, regularly asking and answering questions, and sharing relevant examples from current media or personal experience.

As the criteria above indicate, participation is more than mere attendance. Examples of conduct that may indicate participation include: preparing for class, reading appropriate material, being prepared to contribute to discussion of tutorial questions; listening to other students' contributions; bringing relevant materials (including prepared responses to discussion questions) to class; asking questions relevant to the material being discussed; responding to questions or requests and displaying an understanding of the relevant examples and concepts; forming and expressing an opinion in relation to the issues arising from the material being discussed; and, being engaged in the progress of the seminar and following the seminar discussion.
