Unit description

This unit is concerned with the study of language and language learning from a social perspective. It provides a historical perspective on the development of social understandings of language, and on the social/cognitivist divide in linguistics in the mid-twentieth century. Language and language learning are studied as collective, interpersonal processes, and the role of the brain in these social processes is also considered. The nature of 'community' is examined from anthropological and sociological perspectives, and the relations between language, learning, and community are explored.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

- Explain the historical development of social theories of language and language learning
- Explain the differences between social and cognitive perspectives on language learning
- Identify a range of factors important to the development of language in the individual,

including relations between biological (the human body and brain) and social (family and group) factors

Explain how individual-group relations are linguistically constructed and mediated

Discuss the implications of the social aspects of language learning for language policy at institutional, local, and/or national levels

General Assessment Information

How to apply for a late submission of an assignment

All requests for special consideration, including extensions, must be submitted via [ASK.mq.edu.au](https://ask.mq.edu.au) and provide suitable supporting documentation

Late Assignment Submission

- Late submissions without an extension will receive a penalty of 5% of the total mark available for the assignment per day
- Late submission of an assignment without an extension will not be permitted after marks have been released to the rest of the class.
- Extensions will only be given in special circumstances, and can be requested by completing the Special Consideration request at ask.mq.edu.au and providing the requisite supporting documentation.
- For more information on Special Consideration, see the university website <https://students.mq.edu.au/study/my-study-program/special-consideration>
- Assignments submitted after the deadline, regardless of the reason, will be marked and returned at a date determined by the unit convenor.

Extensions cannot continue beyond the start of the following semester, and students should be aware that long extensions may impact graduation dates.

Assessment Tasks

Name	Weighting	Hurdle	Due
Assignment One	5%	No	Weeks 2, 4, 6, 10, 12
Assignment Two	45%	No	Monday, May 7th, 11.59pm
Assignment Three	50%	No	Monday, Jun 18th, 11.59pm

Assignment One

Due: **Weeks 2, 4, 6, 10, 12**

Weighting: **5%**

Participate in the online discussions on the iLearn site.

The goal of these discussions is to provide a structured forum for you to exchange ideas and opinions on the unit content and relevant issues with your fellow students.

The 5% grade is for participation. The content of your contributions is not graded.

On successful completion you will be able to:

- Explain the historical development of social theories of language and language learning
- Explain the differences between social and cognitive perspectives on language learning
- Identify a range of factors important to the development of language in the individual, including relations between biological (the human body and brain) and social (family and group) factors
- Explain how individual-group relations are linguistically constructed and mediated
- Discuss the implications of the social aspects of language learning for language policy at institutional, local, and/or national levels

Assignment Two

Due: **Monday, May 7th, 11.59pm**

Weighting: **45%**

Essay on Language and Community. Task to be posted on APPL912 iLearn site.

On successful completion you will be able to:

- Explain the historical development of social theories of language and language learning
- Identify a range of factors important to the development of language in the individual, including relations between biological (the human body and brain) and social (family and group) factors
- Explain how individual-group relations are linguistically constructed and mediated
- Discuss the implications of the social aspects of language learning for language policy at institutional, local, and/or national levels

Assignment Three

Due: **Monday, Jun 18th, 11.59pm**

Weighting: **50%**

Discussion of language learning and reflection on a specific context. Task to be posted on APPL912 iLearn site.

On successful completion you will be able to:

- Explain the historical development of social theories of language and language learning
- Explain the differences between social and cognitive perspectives on language learning
- Identify a range of factors important to the development of language in the individual, including relations between biological (the human body and brain) and social (family and group) factors
- Explain how individual-group relations are linguistically constructed and mediated
- Discuss the implications of the social aspects of language learning for language policy at institutional, local, and/or national levels

Delivery and Resources

The learning and teaching strategies used in this Unit are face-to-face sessions (for on-campus students); interaction with materials on iLearn; online discussions; and self-study of course readings. On-campus sessions are recorded and made available to distance students. The course lecturer will be contactable through email to answer any queries that might arise.

It is expected that students in this unit will read all set readings, participate in group discussions and go beyond the required readings to follow the academic literature in specific areas of interest to them.

The reading material for this unit spans a variety of disciplines, including Applied Linguistics, Linguistics, Sociology, Anthropology, Psychology, and Biology. Some of the material will be in areas unfamiliar to many students, and may be challenging.

Graduate Capabilities

PG - Capable of Professional and Personal Judgment and Initiative

Our postgraduates will demonstrate a high standard of discernment and common sense in their professional and personal judgment. They will have the ability to make informed choices and decisions that reflect both the nature of their professional work and their personal perspectives.

This graduate capability is supported by:

Learning outcomes

- Identify a range of factors important to the development of language in the individual, including relations between biological (the human body and brain) and social (family and group) factors
- Discuss the implications of the social aspects of language learning for language policy at institutional, local, and/or national levels

Assessment tasks

- Assignment One
- Assignment Two
- Assignment Three

PG - Discipline Knowledge and Skills

Our postgraduates will be able to demonstrate a significantly enhanced depth and breadth of knowledge, scholarly understanding, and specific subject content knowledge in their chosen fields.

This graduate capability is supported by:

Learning outcomes

- Explain the historical development of social theories of language and language learning
- Explain the differences between social and cognitive perspectives on language learning
- Identify a range of factors important to the development of language in the individual, including relations between biological (the human body and brain) and social (family and group) factors
- Explain how individual-group relations are linguistically constructed and mediated
- Discuss the implications of the social aspects of language learning for language policy at institutional, local, and/or national levels

Assessment tasks

- Assignment One
- Assignment Two
- Assignment Three

PG - Critical, Analytical and Integrative Thinking

Our postgraduates will be capable of utilising and reflecting on prior knowledge and experience, of applying higher level critical thinking skills, and of integrating and synthesising learning and knowledge from a range of sources and environments. A characteristic of this form of thinking is the generation of new, professionally oriented knowledge through personal or group-based critique of practice and theory.

This graduate capability is supported by:

Learning outcomes

- Explain the historical development of social theories of language and language learning
- Explain the differences between social and cognitive perspectives on language learning
- Identify a range of factors important to the development of language in the individual, including relations between biological (the human body and brain) and social (family and group) factors
- Explain how individual-group relations are linguistically constructed and mediated
- Discuss the implications of the social aspects of language learning for language policy at institutional, local, and/or national levels

Assessment tasks

- Assignment One
- Assignment Two
- Assignment Three

PG - Research and Problem Solving Capability

Our postgraduates will be capable of systematic enquiry; able to use research skills to create new knowledge that can be applied to real world issues, or contribute to a field of study or practice to enhance society. They will be capable of creative questioning, problem finding and problem solving.

This graduate capability is supported by:

Learning outcomes

- Explain the historical development of social theories of language and language learning
- Explain the differences between social and cognitive perspectives on language learning
- Identify a range of factors important to the development of language in the individual, including relations between biological (the human body and brain) and social (family and group) factors
- Explain how individual-group relations are linguistically constructed and mediated
- Discuss the implications of the social aspects of language learning for language policy at institutional, local, and/or national levels

Assessment tasks

- Assignment One
- Assignment Two
- Assignment Three

PG - Effective Communication

Our postgraduates will be able to communicate effectively and convey their views to different social, cultural, and professional audiences. They will be able to use a variety of technologically supported media to communicate with empathy using a range of written, spoken or visual formats.

This graduate capability is supported by:

Learning outcomes

- Explain the historical development of social theories of language and language learning
- Explain the differences between social and cognitive perspectives on language learning
- Identify a range of factors important to the development of language in the individual, including relations between biological (the human body and brain) and social (family and group) factors
- Explain how individual-group relations are linguistically constructed and mediated
- Discuss the implications of the social aspects of language learning for language policy at institutional, local, and/or national levels

Assessment tasks

- Assignment One
- Assignment Two
- Assignment Three

PG - Engaged and Responsible, Active and Ethical Citizens

Our postgraduates will be ethically aware and capable of confident transformative action in relation to their professional responsibilities and the wider community. They will have a sense of connectedness with others and country and have a sense of mutual obligation. They will be able to appreciate the impact of their professional roles for social justice and inclusion related to national and global issues

This graduate capability is supported by:

Learning outcome

- Discuss the implications of the social aspects of language learning for language policy at institutional, local, and/or national levels

Assessment tasks

- Assignment One
- Assignment Two
- Assignment Three
