This unit introduces the creative arts and their role in the lives of children from birth to 12 years. It explores children's aesthetic and expressive development in visual arts, music, dance and drama, and their use of the arts as symbol systems for making and communicating meaning. Students gain understanding, knowledge and appreciation of skills, processes and outcomes necessary to teach the creative arts in birth–5 and K–6 settings. The role of the teacher in working with children in ways which regard them as competent, creative and resourceful art makers is explored, as is the place of direct instruction to develop children’s skills within the context of their diverse needs and interests. The role of community arts organisations and spaces – museums, galleries, performing arts – in providing opportunities for children to gain experience in appreciation of the art forms is explored.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at [https://students.mq.edu.au/important-dates](https://students.mq.edu.au/important-dates)
Learning Outcomes

On successful completion of this unit, you will be able to:

- Demonstrate theoretical understanding of the role and value of the arts in early childhood.
- Recognise that art forms are products of culture both handed down to, and created by, children.
- Recognise that the child’s experiences of art making cultures begin with the family and broadens to encompass school and community cultures.
- Demonstrate an understanding of the development of children’s creativity, artistic awareness and skills in music, visual arts, drama and dance.
- Develop knowledge, skills and understandings in each of the four art form areas by engaging in practical experiences in making, performing and appreciating their own creative works.
- Recognise the importance and influence of the learning environment on children’s play, their aesthetic development and exploration of art materials.
- Take responsibility for personal and professional development as critically reflective and skilled Creative Arts educators.

General Assessment Information

ALL ASSESSMENT TASKS MUST BE SUBMITTED IN ORDER TO BE ELIGIBLE FOR A PASSING GRADE IN THIS UNIT

Marking rubrics for both assessment tasks can be found on ilearn.

When preparing the final assignment, ‘Analysing Arts Experiences’ it is essential that:

- Students save a copy of their assignment before submission,
- Unless there are exceptional circumstances, no assessment will be accepted after the date that the assessment has been returned to other students.
- If an assessment is considered to be below passing standard, another staff member on the unit will provide a second opinion. No failed assessment may be re-submitted.

Please follow these guidelines when you submit your assignment:

- Allow a left and right-hand margin of at least 2cm in your assignment.
- Please type your assignments using 12-point font and 1.5 spacing.
- Your assessment must be submitted through Turnitin in .doc or .pdf format for submission.
- It is the responsibility of the student to ensure that your assessment is successfully
submitted through Turnitin.
• Faculty assignment cover sheets are NOT required.

Draft Submissions & Turnitin Originality Reports

TURNITIN is used to assist students with appropriate referencing and paraphrasing, and to detect plagiarism. The system also serves as a digital repository if anything should happen to your hard copy submission or personal backup. Please ensure you have stated your TURNITIN receipt number on your coversheet. A link to TURNITIN is embedded in iLearn. Students may use Turnitin’s Originality Report as a learning tool to improve their academic writing.

Final Submissions

• Students are responsible for checking that their submission has been successful and has been submitted by the due date and time.
• Do not contact staff asking them to check your submission.
• Late submissions due to last minute technical difficulties may incur a lateness penalty.
• Your assignment will be marked based on what is received – any omissions will not be accepted after your submission. Please check very carefully.

Special Considerations

The Special Consideration provision is to support students who have been impacted by circumstances that are unexpected, unavoidable, significantly disruptive and beyond the student’s control, and which may affect their performance in assessment.

The University classifies a circumstance as serious and unavoidable if it:

• could not have reasonably been anticipated, avoided or guarded against by the student; and

• was beyond the student’s control; and

• caused substantial disruption to the student’s capacity for effective study and/or completion of required work; and

• occurred during an event critical study period and was at least three (3) consecutive days duration, and/or

• prevented completion of an assessment task scheduled for a specific date (e.g. final examination, in class test/quiz, in class presentation).

The following link takes you to the Special Considerations policy, which makes clear the ways in which you can apply for special consideration in times of difficulty.

https://unitguides.mq.edu.au/unit_offerings/90717/unit_guide/print
Late submissions without extension will receive a penalty of 5% reduction of the total possible mark for each day late (including weekends and public holidays).

You are reminded that submitting even just 1 day late could be the difference between passing and failing a unit. Late penalties are applied by unit convenors or their delegates after tasks are assessed.

Students should keep an electronic file of all assessments.

**Criteria for awarding grades in the unit**

Students will be awarded grades ranging from HD to F according to guidelines set out in the policy: [http://www.mq.edu.au/policy/docs/grading/policy.html](http://www.mq.edu.au/policy/docs/grading/policy.html)

Online Provocations

Due: **Ongoing throughout semester**

Weighting: **60%**

6 x 250 words discussion contributions focused on unit content and teaching provocations. 6 x 10% = 60%

**Due:**

- 2 responses Due 19 Aug and 26 Aug (20%) 11.00pm
- 2 responses Due 9 Sept and 16 Sept (20%) 11.00pm
- 2 responses Due 14 Oct and 4 Nov (20%) 11.00pm

**Weight:** 6 x 10% - total 60%

At the start of the semester you will sign up for an online provocation group. Instructions for joining a group can be found on ilearn. Groups have a maximum number of 10 participants. Students will respond to six provocations over the semester – two for each artform.

The provocations will be based on what art form you are currently studying in tutorials. You are required to contribute to your online discussion group in order to demonstrate your developing understanding of the material covered in this unit and how it relates to children’s creativity and the arts. The provocations are designed for you to think critically and creatively about a range of topics, issues, ideas and resources relevant to your developing understanding of the arts in early childhood contexts.

You are to make **ONE posting for EACH provocation**. Postings should be completed by 11pm Sunday, at the end of the relevant week. (eg. Provocation 1 at the end of Week 3 and Provocation 2 at the end of Week 4)

Each written response should be 250 words (+/- 10%). Markers will stop reading your work if it exceeds 275 words. If this happens it is likely you will not satisfactorily complete all requirements of the provocation question. This task is designed for you to develop your skills in writing succinctly so that every word counts. There is no room to waffle or be vague in your written responses.

It is expected that you will include in your responses reference to readings (both compulsory readings and additional readings you have sourced). Each response should include a brief reference list of works cited. This list is not included in the word count. Please use APA referencing.

https://unitguides.mq.edu.au/unit_offerings/90717/unit_guide/print
An important aspect of these discussions is the collaboration and support that is offered within your discussion groups. This means carefully reading the work of others in your group and considering new ideas, insights and thoughts that you can bring to the discussion.

You can choose to make an original contribution or reply and respond to an existing posting. When replying to someone else’s posting you should be extending the discussion, or offering a new viewpoint, not just agreeing with what has already been said. Over the course of the semester you should aim to make both original contributions and respond to existing ones.

**It is important that you do not leave your postings to the last minute and you will be penalised if you continually post on Sunday evenings.**

We recommend that you write your 250 word discussion as a Word document first and check for spelling, grammar and other errors. Then you should cut and paste the text into your discussion post.

**Provocations can be found on the website under each of the modules. There are two provocations for each art form. There is also a short video about completing provocations for you to view through ECHO.**

**Marking Criteria for Online discussions.**

- Demonstrated ability to think critically and creatively when responding to provocations
- Demonstrated ability to analyse and synthesise information
- Coherent and logical development of discussion/arguments
- Effective use of readings to support your discussion
- Clarity of written expression and correct APA referencing

On successful completion you will be able to:

- Demonstrate theoretical understanding of the role and value of the arts in early childhood.
- Recognise that art forms are products of culture both handed down to, and created by, children.
- Recognise that the child’s experiences of art making cultures begin with the family and broadens to encompass school and community cultures.
- Demonstrate an understanding of the development of children’s creativity, artistic awareness and skills in music, visual arts, drama and dance.
- Develop knowledge, skills and understandings in each of the four art form areas by engaging in practical experiences in making, performing and appreciating their own
creative works.
• Recognise the importance and influence of the learning environment on children’s play, their aesthetic development and exploration of art materials.
• Take responsibility for personal and professional development as critically reflective and skilled Creative Arts educators.

Analyzing Arts Experiences

Due: 11th November 2018
Weighting: 40%

An analysis of three observed arts experiences/classroom lessons

Marking rubrics for both assessment tasks can be found on ilearn.

Part 1/
Revisit Chapter 1 of your text, Children, meaning-making and the Arts, 2012.

Provide a rationale for why the arts are important in early childhood based on your understanding of this chapter. You are expected to make references to one or more of the following chapters you find interesting and relevant e.g. chapters 2, 3, 4 and 5.

Approx. 300 words

Part 2/

Analyse three arts experiences/lessons (one visual arts experience, one music/movement experience and one drama/socio-dramatic play experience).

These experiences/lessons can be sourced in several ways:

1/ Early Childhood students enrolled in ECHP122 can use experiences found on your Observation Days or your Prac.

2/ Students currently working in an early childhood centre can use experiences from their centre provided they have been created by another staff member.

3/ Education students can use lessons observed on your most recent prac.

It is important that you are analysing another teacher/s experience. Do not use an experience/lesson that you have planned for.

4/ Students not enrolled in a practicum unit or currently working in an early childhood centre will select three videos to analyse from the video list available on the unit’s website.

You do not have to use experiences from practicum and you are allowed to use a combination of experiences/lessons on prac and the supplied videos.

This task requires students to link theory with observations made during practicum or from the videos. In your analysis you should consider whether the experience/lesson is pedagogically appropriate for young children based on your understanding of the unit content – lectures/readings/tutorials. Each analysis should be around 500 words and contain the following...
information:

- A brief description of the experience including, art form, location, (e.g. inside, outside, home corner, playground, school hall) number of children participating and resources used.
- An analysis of whether the experience provides for children’s creativity and meaning-making.
- A discussion on whether the experience provides for children’s exploration of, engagement with and developing understanding of the art form.
- What role, if any, has the teacher had in providing this arts experience for children?

Your assignment should take the format of an essay with sub-headings, eg. Rationale, Experience/Lesson 1, etc. You do not need a concluding paragraph.

Length: 1,800 words (+/- 10%)

Weight: 40%

Due: This assignment can be submitted anytime between 10/10/18 – 11/11/18, 11.00pm.

Marking Criteria for Analysing Arts Experiences

- Clear, informative and concise arts descriptions
- Evidence of understanding unit content to analyse suitability of arts experiences for children.
- Evidence of an understanding of the forms and elements of each art form.
- Evidence of understanding the teacher’s role in developing and facilitating arts experiences for children.
- Evidence of reading to support the preparation of your report.
- Clarity of expression, correct spelling and referencing.

On successful completion you will be able to:

- Recognise that the child’s experiences of art making cultures begin with the family and broadens to encompass school and community cultures.
- Demonstrate an understanding of the development of children’s creativity, artistic awareness and skills in music, visual arts, drama and dance.
- Develop knowledge, skills and understandings in each of the four art form areas by engaging in practical experiences in making, performing and appreciating their own creative works.
- Recognise the importance and influence of the learning environment on children’s play, their aesthetic development and exploration of art materials.
