General Assessment Information

Indicative examples of assessment tasks will be available on iLearn.

Late Assessment Penalty

Unless a Special Consideration request has been submitted and approved, (a) a penalty for lateness will apply – two (2) marks out of 100 will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted more than seven (7) days (incl. weekends) after the original submission deadline. No late submissions will be accepted for timed assessments – e.g. quizzes, online tests.

Assessment Tasks

Name	Weighting	Hurdle	Due
<u>Active participation</u>	20%	No	Cumulative
<u>Online quizzes</u>	25%	No	Weeks 3, 5, 8, 10, 12
<u>Mid-session test</u>	25%	No	Week 7, in lecture
<u>Final test</u>	30%	No	Week 13, in lecture

Active participation

Due: **Cumulative**

Weighting: **20%**

This is not an attendance mark. Note that this highlights "active participation," not attendance. Marks will in fact not be awarded for attendance alone, meaning that it is possible to attend every class and still not receive any participation marks. Participation marks are based in your active contributions to tutorial discussions.

Tutorials are a critical part of your learning in this unit. Weekly tutorial activities will be based on the week's set readings and questions, as well as lecture materials. Tutorial readings will be posted directly to or linked via iLearn. All students will be expected to have read the readings, and considered the tutorial questions *prior to attending tutorials*, as well as having attended the lectures and reviewed the lecture materials. Tutorials are also the place to ask questions of any aspect of the lecture and tutorial materials or assessment tasks.

The tutor will look for evidence of student knowledge of set readings and tutorial

questions; analysis of those readings and questions expressed in verbal form; ability to complete set tasks; ability and willingness to work with and respond to the views of the tutor and other students in verbal form. To do well in tutorial participation, you will not be expected to 'know everything', but you will be expected to show an informed opinion of the unit materials and be able to contribute and share constructively with the class.
