Unit description

The aim of this unit is to provide a postgraduate-level foundation in modern economic analysis, with applications to decision making in business, for postgraduate actuarial students. The unit provides students with the knowledge and tools to use microeconomic and macroeconomic theory and concepts in analysing business decision making and an understanding of the broader social, economic and regulatory environment in which businesses operate.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

Critically appraise key economic concepts, models and theories of microeconomics and macroeconomics.

Apply a range of techniques including calculations and manipulation of diagrammatic representations to solve problems related to economic concepts and models.

Evaluate the role of the government and the central bank and the instruments available to them to manage the economy.

Recognise and relate the relevance of economic theory to the wider business environment and describe the link between these theories to the practical application of individual businesses.

Apply key microeconomic and macroeconomic theory and suggest solutions to real business problems.

## Assessment Tasks

Name	Weighting	Hurdle	Due
<a href="#">Assignment</a>	20%	No	Week 11

<a href="#">Final exam</a>	60%	No	University Examination Period

### Assignment

Due: **Week 11**

Weighting: **20%**

This assignment will be a selection of problems requiring the application of the theory and knowledge of the examples considered in the lectures and readings throughout the semester.

On successful completion you will be able to:

- Critically appraise key economic concepts, models and theories of microeconomics and macroeconomics.
- Apply a range of techniques including calculations and manipulation of diagrammatic representations to solve problems related to economic concepts and models.
- Evaluate the role of the government and the central bank and the instruments available to them to manage the economy.
- Recognise and relate the relevance of economic theory to the wider business environment and describe the link between these theories to the practical application of individual businesses.
- Apply key microeconomic and macroeconomic theory and suggest solutions to real business problems.

### Mid-Session Test

Due: **Week 9**

Weighting: **20%**

This test covers the models and techniques given in the seven to eight weeks of ECON991. It

also prepares students for the format and difficulty of the final exam.

On successful completion you will be able to:

- Critically appraise key economic concepts, models and theories of microeconomics and macroeconomics.
- Apply a range of techniques including calculations and manipulation of diagrammatic representations to solve problems related to economic concepts and models.
- Evaluate the role of the government and the central bank and the instruments available to them to manage the economy.

## Final exam

Due: **University Examination Period**

Weighting: **60%**

The final examination for this unit will be held during the Macquarie University final examination period.

- The exam will be 3-hours + 10 minutes reading time.
- All topics studied during the semester are examinable. More detail about the structure will be provided about the exam towards the end of the session.
- Failure to sit the final exam at the designated day and time will result in a mark of zero being awarded.
- There is a Special Consideration Policy which establishes the principles that support students seeking to notify the University when they experience short-term, unexpected, serious and unavoidable circumstances, which affect their performance in assessment. To access further information see the Policies and Procedures section of this Unit Guide.
- If your application for Special Consideration is accepted, you will be granted a Supplementary Exam, which will be held during the Supplementary Exam period.

On successful completion you will be able to:

- Critically appraise key economic concepts, models and theories of microeconomics and macroeconomics.
- Apply a range of techniques including calculations and manipulation of diagrammatic representations to solve problems related to economic concepts and models.
- Evaluate the role of the government and the central bank and the instruments available

to them to manage the economy.

- Recognise and relate the relevance of economic theory to the wider business environment and describe the link between these theories to the practical application of individual businesses.
- Apply key microeconomic and macroeconomic theory and suggest solutions to real business problems.
