Unit description

This unit focuses on the generation of information for internal decision making and examines how cost information is developed and used within organisations. To this end, a number of different costing and budgeting techniques are explained and demonstrated in seminars and students are required to apply those techniques to case study scenarios and develop a sophisticated level of understanding of which technique is most appropriate in a particular situation. Research findings will be used to underpin theories in management accounting.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

Demonstrate an understanding of management accounting concepts and apply such concepts to real-life case scenarios.

Critically analyse data to determine the relevant information and costing techniques required to make decisions.

Demonstrate effective written and oral communication skills.

Demonstrate an understanding of and the ability to apply Excel spreadsheet functions to solve management accounting problems.

Understand the principles of management accounting research.

Assessment Tasks

Name	Weighting	Hurdle	Due
Participation	15%	No	On going
Excel Assignment	10%	No	Enrolled session
Final Examination	60%	No	Examination period
Class Test	15%	No	Week 7 seminar

Participation

Due: **On going**

Weighting: **15%**

Task Description:

Students are expected to actively participate in the seminars. The assessment mark will be awarded based on the criteria outlined in the unit assessment guide. **Type of Collaboration:** Individual **Submission:** Students are expected to attend the weekly seminars, have completed the weekly assignment questions, and actively participate in the activities conducted during the seminars. This assessment mark will be awarded in line with the ability of student's to meet the criteria outlined in the unit assessment guide. **Format:** Class Participation **Length:** Ongoing **Inherent Task Requirements:** Class Participation **Late Submission:** Extension: No extension will be granted, except in circumstances where an application for special consideration is made and approved.

Penalties: A mark of zero will be awarded for non-attendance. Students must attend the seminars to receive marks for participation.

Feedback: Class participation marks will be communicated to students via gradebook following the last seminar.

On successful completion you will be able to:

- Demonstrate an understanding of management accounting concepts and apply such concepts to real-life case scenarios.
- Critically analyse data to determine the relevant information and costing techniques required to make decisions.
- Demonstrate effective written and oral communication skills.

Graduate Capabilities

PG - Discipline Knowledge and Skills

Our postgraduates will be able to demonstrate a significantly enhanced depth and breadth of knowledge, scholarly understanding, and specific subject content knowledge in their chosen fields.

This graduate capability is supported by:

Learning outcomes

- Demonstrate an understanding of management accounting concepts and apply such concepts to real-life case scenarios.
- Critically analyse data to determine the relevant information and costing techniques required to make decisions.
- Demonstrate an understanding of and the ability to apply Excel spreadsheet functions to solve management accounting problems.

Assessment tasks

- Participation
- Excel Assignment
- Final Examination
- Class Test

PG - Critical, Analytical and Integrative Thinking

Our postgraduates will be capable of utilising and reflecting on prior knowledge and experience, of applying higher level critical thinking skills, and of integrating and synthesising learning and knowledge from a range of sources and environments. A characteristic of this form of thinking is the generation of new, professionally oriented knowledge through personal or group-based critique of practice and theory.

This graduate capability is supported by:

Learning outcomes

- Demonstrate an understanding of management accounting concepts and apply such concepts to real-life case scenarios.
- Critically analyse data to determine the relevant information and costing techniques required to make decisions.
- Demonstrate effective written and oral communication skills.

Assessment tasks

- Participation
- Final Examination
- Class Test

PG - Research and Problem Solving Capability

Our postgraduates will be capable of systematic enquiry; able to use research skills to create new knowledge that can be applied to real world issues, or contribute to a field of study or practice to enhance society. They will be capable of creative questioning, problem finding and

problem solving.

This graduate capability is supported by:

Learning outcomes

- Demonstrate an understanding of management accounting concepts and apply such concepts to real-life case scenarios.
- Critically analyse data to determine the relevant information and costing techniques required to make decisions.
- Demonstrate effective written and oral communication skills.
- Understand the principles of management accounting research.

Assessment tasks

- Participation
- Final Examination
